Mr. Speaker—I am directed to inform the House of Representatives that the Senate has concurred with them in the adoption of the following preamble and joint resolution, to-wit:

HOUSE JOINT RESOLUTION No. 20.

WHEREAS, The General Assembly in 1907 passed an Act providing for the appointment of a Food Standard Commission, with certain powers granted, to determine the quality, purity and strength of various foods, and among other things provided that the State Food Standard Commission, in determining and adopting a standard of quality, purity and strength of milk or cream, shall fix such standard as may be determined solely by the examination and test of milk and cream and the can or receptacle in which it is placed; and

WHEREAS, The city council of the city of Chicago, in the month of July, A. D., 1908, passed three separate ordinances which then provided and are in force as follows, viz.:

ORDINANCES REQUIRING TUBERCULIN TEST OF COWS.

"Be it ordained by the City Council of the City of Chicago:

SECTION 1. No butter shall be sold or offered for sale or kept with the intention of selling in the city of Chicago after January 1, 1909, unless such butter be made from milk or cream obtained from cows that have given a satisfactory negative tuberculin test within one year; provided, however, that from January 1, 1909, for a period of five years, to-wit: Until January 1, 1914, butter made of milk obtained from cows not tuberculin tested or not free from tuberculosis may be sold in the city of Chicago if the milk or cream from which such butter was made, was pasteurized according to the rules and regulations of the department of health of the city of Chicago.

SEC. 2. It shall be unlawful to sell any butter in the city of Chicago, unless there be stamped on the package in plainly legible letters of not less than one-eighth inch type: "Made of milk (or cream) from cows free from tuberculosis as shown in the 'tuberculin test' or made from milk (or cream) pasteurized according to the rules and regulations of the department of health of the city of Chicago."

SEC. 3. Any butter offered for sale, exposed for sale or kept with the intention of selling in the city of Chicago, which shall be found within the city in violation of this ordinance, shall be forthwith seized, condemned and destroyed by the milk and food inspectors or other duly authorized agents or the department of health of the city of Chicago.

"Be it ordained by the City Council of the City of Chicago:

SECTION 1. No domestic cheese shall be sold or offered for sale or kept with the intention of selling in the city of Chicago after January 1, 1909, unless such cheese be made from milk or cream obtained from cows that have given a satisfactory negative tuberculin test within one year; provided, however, that from January 1, 1909, for a period of five years, to-wit: until January 1, 1914, domestic cheese made of milk obtained from cows not tuberculin tested or not free from tuberculosis, may be sold in the city of Chicago, if the milk or cream from which such cheese was made, was pasteurized, according to the rules and regulations of the department of health of the city of Chicago.

SEC. 2. It shall be unlawful to sell any such cheese in the city of Chicago unless there be stamped on the package in plainly legible letters of not less than one-eighth inch type, "Made of milk (or cream) from cows free from tuberculosis as shown by tuberculin test," or "made from milk (or cream) pasteurized according to the rules and regulations of the department of health of the city of Chicago."

SEC. 3. Any cheese offered for sale, exposed for sale, or kept with the intention of selling in the city of Chicago, which shall be found within the city in violation of this ordinance, shall be forthwith seized, condemned and destroyed by the milk and food inspectors or other duly authorized agents or employes of the department of health of the city of Chicago.

SEC. 4. This ordinance shall be in full force and effect from and after January 1, 1909."

Which said ordinances it is claimed are without foundation of law, unreasonable and void; and

WHEREAS, Under and by virtue of said ordinances the board of health of the city of Chicago are assuming to inspect dairy herds in the State of Illinois and to condemn milk, butter and cheese that are produced from cows that have not been tested by the tuberculin test and that is manufactured and produced from milk which has not been pasteurized, and the producers of milk, butter and cheese tributary to the city of Chicago are being greatly annoyed, hindered and harassed by agents of the board of health of the city of Chicago, and the sale of their product is being injured, damaged and destroyed; and

WHEREAS, By reason of the said ordinances and the unlawful and unreasonable rules and restrictions of the board of health of the city of Chicago the price of milk in said city has increased and is being raised and threatened to be raised from six and seven cents a quart to nine cents a quart, to the great injury and suffering to the people of that city; and

WHEREAS, It is a disputed question whether the tuberculin test is an accurate and efficient test to determine whether the disease of tuberculosis exists in the animal, and it is a disputed question whether tuberculosis can be conveyed from the animal to the human being from milk and its products; and

WHEREAS, It is disputed and denied that the disease of tuberculosis exists to any appreciable extent among the dairy herds and breeding animals of the State, and such dispute leads to the damage and loss of value of such dairy herds and breeding animals by reason of such dispute and contention, and loss and injury to the owner of such dairy herds and sale of their products, by reason of the said city ordinances and the rules and regulations and inspections of the department of the board of health of the city of Chicago; and

WHEREAS, It is plain that the pasteurizing of milk destroys its value for the manufacturer of butter and cheese and renders it impossible to manufacture any reasonable quality of butter or cheese from such milk and tends rather to increase the bacteria germs naturally in milk where it is not used immediately, and otherwise injures and destroys the strength and food qualities in the milk; and

WHEREAS, A bill is now pending in this Legislature providing for the enforcement of the law for the testing of dairy cows and breeding cattle by the tuberculin test, and the payment by the state of the sum of seventy-five per cent of the appraised value of the cattle damaged, which will lead to an enormous expenditure of money by the State, which may possibly be unnecessary, useless, and of great damage and injury to the dairy interests of the state;

Therefore, be it resolved by the House, the Senate concurring. That a joint committee of nine be appointed, six by the Speaker of the House and three by the President of the Senate, to investigate into the reliability and the efficiency and the necessity of adopting the tuberculin test in the State of Illinois, and that said committee, investigate and determine the question as to whether or not the disease germ passes from an animal afflicted with tuberculosis, through the milk, to a human being, and the effect of pasteurizing the milk as such food product is pasteurized, bottled up, shipped and used in the city of Chicago, taken from the dairy districts at a distance from said city.

That they take evidence and have the power to subpoena witnesses and send for documents and papers and acquaint themselves with the laws and results accomplished in other states and that said committee collect the evidence and opinions of expert bacteriologists upon said question, and if said tuberculin test should be found to be an actual and efficient test of the disease of tuberculosis among domestic animals, then that said committee estimate the amount that should be paid for cattle condemned both under an optional law, mandatory law, and make their report to the next session of the General Assembly, and that said committee be provided with an appro-

priation of an adequate amount to pay clerk and stenographers' fees and hire and actual traveling expenses of the committee while engaged upon the work as herein set out.

Together with the following amendment thereto, in the adoption of which amendment I am instructed to ask the concurrence of the House of Representatives.

Amend House Joint Resolution No. 20.

In the resolution strike out the word "nine" and insert the word "ten," also strike out the word "three" and insert the word "four."

Concurred in by the Senate, as amended, May 4, 1909.

Secretary of the Senate.

The Speaker laid before the House a communication from the city council of the city of Chicago transmitting a copy of a resolution adopted by that body, which was read at large by the Clerk and ordered incorporated in the Journal.

WHEREAS, Three bridges spanning the Main river, seven spanning the South branch, and ten spanning the navigable part of the North branch of the Chicago river are of the center pier type and obstructions to navigation; and

WHEREAS, The interests of navigation imperatively demand the early removal of center pier bridges in the Chicago river and its branches, and the substitution therefor of bridges of the bascule or lift type; the situation being so serious in this respect that the Secretary of War has ordered public hearings for May 6 and May 13 respectively upon the proposition to require the removal of the Indiana street bridge by June 30, 1910, and the Lake street bridge by December 30, 1910; and

WHEREAS, The City of Chicago lacks authority to issue bonds to pay for the said improvements; therefore be it

WHEREAS, The Sanitary District of Chicago is a creation by Act of the General Assembly of this State and is therefore subject at all times to its jurisdiction and control by reason thereof, a duty is thereupon imposed upon the

General Assembly to at all times keep a close surveillance over all the acts and administration of said Sanitary District of Chicago in order that the tax payers of said Sanitary District of Chicago shall be protected and informed as to the manner and method used in the expenditures of said Sanitary District and to the end that said tax payers in said Sanitary District shall know that their taxes are being expended in a judicious and economical manner and for the purposes as contemplated in the Act creating said Sanitary District of Chicago and for which such taxes were and are levied and collected; and

WHEREAS, The said Sanitary District of Chicago was conceived, created and organized for the purpose of a drainage and sanitary water-way, and that all taxes have been levied and collected in said Sanitary District for the purpose of carrying out such object and purpose; and

WHEREAS, It is alleged that the said Sanitary District of Chicago has practically abandoned such original purpose and object and has embarked into the economical business of developing water power and the generation of electrical current for distribution to private and quasi public consumers; and

WHEREAS, It is further alleged that enormous sums of the tax payers' moneys have been and are being expended annually in the promotion of said commercial enterprise to the end that the original purposes for which such taxes were collected have been abandoned and lost sight of to the great injury and loss to the tax payers of said Sanitary District and a large area of territory in said Sanitary District are without any relief or benefit therefrom, and no part of said taxes have been expended in the prosecution of the plans for the relief of said territory; and

WHEREAS, The time for the tax payers to be informed has arrived and the duty is imposed upon this General Assembly to ascertain whether these vast sums of money, thus collected from taxes have been expended lawfully, judiciously and economically and whether said Sanitary District has arrogated to itself powers not contemplated by the Act creating it; and

WHEREAS, Information is at hand to the effect that the trustees of the Sanitary District of Chicago, have refused, or neglected, to clear the channel between their lock and the upper basin of the Illinois and Michigan canal, at Joliet, and to remove the obstruction to navigation at present existing therein, although there do not appear to be any valid or sufficient reasons for such refusal, or neglect; and

WHEREAS, Such refusal, or neglect, if the same exists, is a cause of needless expense to the State of Illinois, and a serious detriment to the interests and well-being of the citizens of the State residing in and between the cities of Chicago and Joliet; and

WHEREAS, It has been alleged that the Sanitary District of Chicago, through its officers and agents, has failed, or refused, to carry out and perform certain and several contracts and covenants by it entered into and undertaken, much to the detriment of both public and private interests; and

WHEREAS, Information at present is that the Sanitary District of Chicago is disregarding the terms of the State law requiring the operation thereof and the flow through its channel for sewage dilution and that it has persistently violated such provisions to the detriment of the people of the State; and

WHEREAS, It is of the utmost importance to the State that the flow of water required to be sent down by the Sanitary District be maintained as a matter of protection for public health and to prevent contaminating by sewage and the spread of disease; and

WHEREAS, It is alleged that sales are being consummated by the Sanitary District of a great quantity of spoil bank stone in an irregular manner, and that said stone is worth a large sum of money, yet is stated as being sold for an insufficient consideration; and

WHEREAS, Reports are in circulation alleging serious irregularities in certain real estate and dockage transactions, to which the Sanitary District of Chicago was a part; therefore, be it

Resolved, by the House of Representatives, the Senate concurring therein: That in order to fully, carefully and promptly investigate the subject matter above referred to, that a joint committee of ten (10) be appointed, six (6) to be named by the Speaker of the House of Representatives, and four (4) to

A message from the Senate by Mr. Osgood, Assistant Secretary:

Mr. Speaker—I am directed to inform the House of Representatives that the Senate has concurred with them in the adoption of the following preamble and joint resolution, to-wit:

HOUSE JOINT RESOLUTION No. 28.

WHEREAS, It appears that the city of Chicago did, on February 4, 1909, at a public hearing before Major Thomas H. Rees, Corps of Engineers, U. S. Army, to consider plans of the Chicago Dock and Canal Company for the construction of piers extending into Lake Michigan, immediately north of the mouth of the Chicago river, by its duly authorized officers ask the Secretary of War, to hold in abeyance the granting of his permit until the city of Chicago was able to determine its policy in regard to its harbor, and that Major Rees, representing the Federal Government and acting for it publicly stated, "He would recommend to the War Department that their action be delayed until the harbor commission had rendered its report and the city was ready to consider it;" and

WHEREAS, It also appears that Robert Shaw Oliver, acting Secretary of War did on the 28th day of February, 1909, issue a permit to the said Chicago Dock and Canal Company to erect piers in the submerged lands of Lake Michigan at the mouth of the Chicago river, as per the plans shown at said hearing; and also before the Harbor Commission and made its report to the city of Chicago, and also before the city of Chicago had determined its policy in reference to its harbor; and

WHEREAS, Also, it further appears that the said Chicago Dock and Canal Company in its said application absolutely ignored the State of Illinois and gave no notice to her of its intention to extend its piers into the waters of Lake Michigan. That it bases its present application under a charter issued to it by a private Act passed in 1857, fifty-two years ago; and

WHEREAS, It appears from an examination of Act that the present claims of said company are unfounded and this State never passed or parted with the fee of the made land now in possession of it, but this State simply granted it a mere license or permission to use the waters of Lake Michigan and the submerged lands at her option and said company has for a period of 42 years made no effort to extend its piers further out into the waters of Lake Michigan; now, therefore, be it

Resolved, by the House of Representatives, the Senate concurring herein: That all privileges, rights and easements used of water and land, as well also all rights of property, real, personal and mixed, that can or may be asserted by said company to the waters of Lake Michigan or to the soil under the same, whether it be to the present made land or easements in the same be the same are hereby declared to be the property of the State of Illinois, and any license, privilege, easement, claim or franchise now outstanding in said company to the waters and lands of Lake Michigan under or by virtue of its charter under the Act of 1857 creating it are each and all hereby declared forfeited, revoked and annulled; and it is further hereby declared that said company shall, hereafter, possess no further rights, or easements, not enjoyed by the public, in and to the lands and waters of Lake Michigan.

Mr. Adkins from the Committee to Visit Charitable Institutions submitted the following report:

Hon. Edward D. Shurtleff, Speaker, House of Representatives:

Your committee appointed to visit the State charitable institutions started from Springfield, Sunday, May 9th, at 3:00 p. m., and would beg leave to submit the following report:

We arrived at Menard at 12:54 midnight and visited the Hospital for the Criminal Insane Monday, May 10th. We found the institution clean and sanitary, the inmates well cared for and especially commend the superintendent's policy of working on the farms of all inmates capable of performing such labor as gardening, care of stock and other duties being discharged around the farm, as being both beneficial to the health of the inmates as well as profitable to the State by producing many of the necessities of life that grow on the farm by the inmates themselves. Your committee thinks, however, the institution is too small for the number of inmates which is about the only criticism your committee would make on this institution.

May 11th your committee visited the Southern Hospital for the Insane at Anna, Tuesday. They were shown over all the different buildings and found them all in a sanitary condition. The new hospital annex was complete in all its arrangements and the appliances are of the newest and most improved type. It is large, well lighted and well ventilated. We are interested in the water cure and the color cure used in this hospital. The patients were taken out for exercise on the grounds which were beautiful and well kept.

May 12th Mr. Naylor and Mr. Bardill were the only members of the committee to visit Lincoln. The other members of the committee attended a session of the House. They believe that with the facilities at hand the management is all that can be expected. Many of the buildings are in bad repair due to the lack of a sufficient amount of funds to maintain them properly. The committee thinks the work being done at this institution is not fully appreciated by the people of the State of Illinois. In observing their methods of teaching it struck the committee that the work in that department was of great value in improving the mental condition of the inmates as well as lightening the work of the institution by being better able to help themselves

than before they received this instruction. We believe the State should see to it that this very important institution is placed in matters of equipment on an equal footing with other State charitable institutions.

The absent members of the committee returned in the evening and visited the Soldiers' Orphans Home at Normal. Here the committee had the most pleasant visit they have had, so far as observing the inmates of an institution were concerned. It impressed the committee that the State was spending money where in time it would get some return and in looking over these children and observing the careful manner in which they were being trained your committee thinks that more money spent on homeless, neglected children the less money it will be necessary to spend in the future on our penitentiaries and reformatories. In looking over the institution carefully we found everything in order. The hospital is very nicely equipped, but is without any patients at the present time, which your committee thinks speaks well for the management, for in a home with 312 children it struck the committee as being very remarkable that no sick children were found in the hospital.

May 13th arrived at Kankakee at 11:10 a. m. This being the largest institution of its kind in the State and the buildings arranged in a different manner from the other institutions, thus far visited, your committee spent a very strenuous afternoon with Dr. Greene inspecting the various features of this institution. The grounds and walks are in excellent condition. Many of the older buildings occupied by the more violent class of patients are in bad condition, especially the two cottages occupied one by the untidy men and one by the untidy women. The plumbing, floors and sanitary arrangements of these two buildings are bad. It seemed to the committee that if the State of Illinois could possibly arrange for better facilities in these two cases it should be done. Many others have been recently repaired and fitted up in an up to date manner and certainly means much to the comfort and health of the inmates. The new hospital building, now almost complete, would seem to the committee a most excellent building for the purpose for which it was built, and the State getting much for the money expended. The patients were clean and apparently well fed and cared for and conditions were as good as could be expected under the overcrowded condition of the institution. Their beds, all of uniform character, were clean and their dormitories in most cases void of unpleasant smell where large numbers are kept at night in one dormitory. It would seem to the committee that as soon as conditions warrant the old antiquated bedsteads should be dispensed with and modern iron bedsteads put up in their place. The farm has all the earmarks of being in charge of an up to date farmer and the soil has been excellently prepared for the crops recently planted. The growing crops, alfalfa, rye and an immense amount of garden truck looked well and has been carefully attended thus far. The herd of cattle are in a fine condition. Their barns are in a fairly good condition. The main cow barn, however, your committee thinks, a very bad place to keep cows, the superintendent being of the same opinion. The cows are kept in a basement, the ceiling entirely too low and not enough light and sunshine and ventilation to keep cattle in a healthy condition. Connected with this barn is a long shed open on one side which is a very nice healthy sanitary arrangement for cows. With the foregoing sentiment of the committee Dr. Greene fully coincided and stated that the cows were not kept in the main barn except in extreme bad weather. The doctor seems to have some good cow sense, but the condition of the barn he inherited when he came to the institution and has not been in a condition to change it.

Friday, May 14th, arrived at Elgin at 9:40 a. m. Dr. Podstata was very painstaking in showing us through this institution. This institution shows the need of repairs and improvements, many of the floors are practically worn out and need replacing very badly. The laundry, which is a very important part of an institution of this kind, is in a very bad shape and located in a bad place, and there should by all means be other appropriations made for this very important part of this institution. Their cold storage plants amount to but very little compared with what is needed in this line for such

an institution. It is a very small affair and very old from its general appearance and it should be replaced. The overcrowded condition of this institution is very noticeable. The superintendent is developing the industrial feature of this institution. He is very enthusiastic over concrete construction by reason of its cheapness as building material and the fact that the State owns the gravel and has the labor to manufacture the concrete blocks. We saw some of these concrete blocks in the process of construction and think it a very good feature to encourage. The farm and gardens were in nice shape and had an especially nice field of alfalfa. The dairy herd is in splendid condition. One of the dairy barns has been raised higher from the ground, more windows put in and is a fairly sanitary cow barn, with concrete floor and kept clean and nice. In the other barn the ceilings are too low and not enough sunlight.

Saturday, May 15th, arrived at Watertown 5:59 A. M. climbed the hill to the institution and got breakfast and immediately proceeded on our tour of inspection. Dr. Taylor took charge of the men and turned the ladies over to some other parties. Here we found a newer institution, buildings all in first class condition and no place did your committee observe anything out of repair or dirty or unsanitary. The industrial feature has been developed better here than in any institution thus far visited, which the committee thinks worthy of commendation and believes it a good thing to encourage, both as an economical proposition to the State as well as being a very material factor in curing or at least bettering the condition of the patient. It was noted by the committee the interest the patients took in the various departments in which they were employed and appreciated any complimentary remarks made by any of the committee on their work. It was certainly a revelation to the committee to see the rugs, brooms, shoes and various other articles used by the institution manufactured by the patients. The broom corn grown by them, harvested by them and a new broom put on the old broom handle costing the State nothing but the twine and the wire that went in the broom. This feature I think should be commended and encouraged in all our charitable institutions by the Legislature. When we inspected the farm, the hogs, the cattle, the chickens and the growing crops the committee put down Dr. Taylor as an up to date farmer. We saw in one field 125 hogs weighing about 140 pounds and about 200 little pigs and their mothers, none of which had ever eaten an ear of corn so Dr. Taylor informs us, but had been produced on the slop from the institution. The cow barns were in fairly good condition, more light and sunshine would be beneficial, yet kept in a very nice condition. Your committee noticed that the patients in this institution were not so noisy and violent as we have noticed them in other institutions and asked the doctor to show us his most violent patients, some that he had to restrain in some manner or other. He informed us that he had shown us the worst he had. The committee were naturally interested in the cause of the difference in the patients in this institution and the others in this respect. Your committee believes that the industrial feature has much to do with that feature as their minds are occupied with thinking of something else besides their own trouble, together with the hydrotherapeutic baths. On inquiring about that and going and seeing them treated with it we were of the opinion that these two things had much to do with doing away with the noise at this institution. The doctor informed us that all excitable noisy patients were placed in this water and kept there sometimes for days and were invariably taken out quiet. Your committee thinks this an institution managed by a very capable man.

Your committee arrived at Peoria at 4:15 P. M. Saturday, May 15th, were immediately switched out to Bartonville Asylum. Were met by Dr. Zeller who proceeded to immediately show us the institution. We looked over the storehouse and dormitory on the third floor where 150 patients slept at night and noticed that the many windows in this large bedroom were without bars or any other means of preventing the patients from raising the windows and jumping out. We at once began questioning him on that feature of his in-

stitution. He informed us that his was the only institution of its kind in the world that had never had a suicide and informed us that the keys to the doors of the institution had long since been lost, that the patients were permitted to go about as they pleased, return when they pleased so they were there at mealtime and at the usual time to retire which was a new and very interesting feature in the management of an insane asylum to your committee. We visited next the nurses' home which is occupied very largely by patients as well as nurses, after which we repaired to the large dining room where a most excellent supper was served us from the largest kitchen in the world. We were then made comfortable for the night and after breakfast Sunday, May 16th, we continued our inspection of the institution. We were not long in discovering another new feature as all the attendants seemed to be women. On inquiry from Dr. Zeller and the nurses themselves we found that these women had no trouble in managing the most violent patient in the institution. We were informed that no patient had ever attempted to abuse or impose on in any manner any female attendant. Your chairman went with Dr. Zeller at 10:00 o'clock and visited the various dormitories until 12:00 o'clock at night, noted the conditions in the sleeping room and was much interested in the patient manner in which the nurses discharged their multitudinous duties. They were kept constantly on the move, some patients so restless that they were required to go to their bedside and perform the same duty within a very short time. Remarking to the superintendent about the alertness and care of the attendants he was informed that the attendant only worked eight hours out of the twenty-four. Consequently, they were not overworked. They did not grow weary at the end of their shift, consequently less liable to grow impatient or cruel and the patients were better cared for than if they were required to work long hours. Another new feature to your committee and your committee thinks it a very good one for an institution of this kind. Everybody who was not physically sick has some employment. The industrial feature while not developed in as many lines as at Watertown yet along certain lines is fully up to any we have seen. Your committee noticed that the patients who were inclined to talk as we passed by had something good to say about their superintendent. Every nurse or attendant we talked to was enthusiastic over Dr. Zeller's policy in running the institution. One of his chief aims seems to be to keep their mind on something beside their own trouble. He doesn't seem to care so much what it is so they are occupied. The buildings being new and modern all are in excellent physical condition. The repairs and improvements that have been necessary to be made seem to have been made and as in all the other institutions everything scrupulously clean. His tuberculosis tent colony is an inexpensive affair, yet meets the requirements of that class of patients. He is anxious to secure an appropriation of about \$6,000.00 to build a structure for those in the last stages of the disease so that that class of tuberculosis patients could be taken through a little different kind of quarters and those in a dying condition kept away from those who are improving. Your committee thinks it a very good idea. The grounds are very largely in a state of nature as yet. Has been but very little, comparatively speaking, done to beautify them. Dr. Zeller feels it of more importance to first make the necessary provisions for taking care of the patients. Quite a little has been done and is underway by the patients. The institution is new and takes time to do all these things with a limited amount of money. Your committee sees no cause for criticism along that line. The farming feature of this institution has not been developed. They just got possession of 240 acres of farm land, one and one-fourth miles from the institution with two farm houses already on the land, two girls at one place with fifteen male patients, one girl at the other house with twelve patients. The start made in so short a time looks like the doctor might develop into a farmer. Chickens and pigs are already in evidence and he is looking forward to installing the cows as soon as conditions can be arranged to take care of them. Your committee thinks the institution needs more land. It should by all means own a farm which corners within thirty feet of the nurses' home, a large expensive building. The owner has been

offered \$400.00 per acre by the institution for 40 acres that lies so close to the institution. He refuses and wants \$600.00. This very high enhancement in value of his farm your committee thinks is entirely due to the fact that the asylum was established there and this land the owner realizes being very necessary to the institution. Your committee thinks this land should be purchased at sometime for the institution and if necessary an Act giving such institution the right of eminent domain in such cases as such fellows will not be in a position to hold up the State for extravagant values for such property. While Dr. Zellers' plan of managing his patients and conducting his institution is in many respects different from all the others some features of it especially his plan of turning them loose and his eight hour nurse service are features that are discussed a great deal by people interested in such institutions, yet his patients are contented at least as well it seems to the committee as it is possible to make people in such condition. And the observation of your committee is that he is getting the results.

May 17 your committee arrived at the Soldiers' Home at Quincy 9:35 P. M. Was met at the station by Capt. Somerville and his assistants, taken to the Soldiers' Home and entertained for the night. After breakfast we were divided into two parties and proceeded to inspect the institution. The grounds presented a very picturesque sight, the lawns and the many beautiful trees are taken care of in a very artistic manner. The buildings are clean and in most cases in good repair. Some of the older cottages are in need of some repairs, stairsteps in some need replacing and some other minor improvements need to be made. The old soldiers seem to be as a whole happy, contented and well provided for. The chief objection raised by them was the insufficient light. Some of the cottages appointed a committee to wait on us and put in a vigorous kick on the poor light. We noticed on arriving that their grounds were mostly in darkness and we inquired as to the cause of all the trouble about the lighting. We found that 1,300 of the old boys had signed a petition asking a committee to try and procure better lighting facilities. We found upon inquiry that it was costing the Home about, in round figures \$10,000 per annum for light and then not sufficient light in any of the cottages to read a newspaper by. It occurred to the committee that the Light Company in Quincy has been farming the institution in a very profitable manner to themselves and your committee thinks the State should install a lighting plant that will meet the needs of the institution. After inspecting the buildings, the laundry, their heating plant, the farmers on the committee proceeded to inspect the stock and farm generally. They found the best herd of cows they have seen at any of the institutions. We found them taken care of in the best manner of any other institution seen thus far. The cows are milked in a large barn, 66 of them, fed and in bad weather turned out for the night in a lot with open sheds to go under. In summer time they are turned at night in the pasture. On inquiry we found their cattle when tested to be healthy and free from tuberculosis. The head farmer informed us it was his practice to select heifer calves from the best milking cows and let them grow and develop into milk cows. Now, having thirty-four heifers of various ages on the farm to take the place of other cows, a system we found in no other institution. We found 400 hogs being fed from the institution, 200 of which are ready to market at a weight of about 250 pounds each, facilities for feeding and caring for the same good. We think Capt. Somerville and Dr. Taylor the best hog men we have in any of the institutions. We found the farm while small is very intensely farmed, being devoted chiefly to the production of vegetables. All seems to be started off in good shape about 30 acres of corn being planted on rented land. The orchard both young orchard and bearing orchard is a thing of beauty and a joy forever, trees trimmed up nicely, trunks whitewashed and the land cultivated in potatoes or some other vegetable crop. By reason of the help being of a higher mental caliber everything presented a much neater appearance than any place we have seen.

Your committee arrived at Jacksonville May 17th about 9:00 o'clock, were met by Dr. Carriel and taken to the hotel for the night. After breakfast May 18th at 8:30 we took a street car to the institution, arriving there about 9:00 o'clock. The committee proceeded to inspect the premises and found the same general condition as to cleanliness about the same as the other institutions. The buildings are in good repair considering their age. We noticed some repairs necessary to be done. Very few patients were on the wards, most of them being out on the lawns or in the fields at work and scattered around over the premises in various capacities accompanied by attendants. We did not see any under mechanical restraint although the superintendent informed us that such was done in some cases. The supply of drinking water at the institution is bad. The question of securing a water supply for that purpose seems to be a puzzling one for the superintendent. It is a very vital one and we hope he will be able to solve it and the institution provided with a sufficient water supply for that purpose. The laundry recently constructed partly out of an old building is a very nicely arranged affair about as good as we have seen. The kitchen being too small to meet the needs of the institution, your committee thinks should be made larger. The water reservoir has recently been fenced in in such a manner as to greatly lessen the danger of patients getting in and drowning. Some other institutions with open reservoirs would do well to look at this fence and construct one along the same lines. The farm which is mostly devoted to truck farming is in splendid condition. The growing crops are advanced for the time of year, clean, well cultivated and presented a very beautiful picture, attended entirely by the patients. A larger farm could be worked economically and profitably to the State by this institution. The industrial feature aside from farming is not developed so well in this institution as in some others. The dairy herd had been taken away to the pasture and we did not have the time to go see it. We inspected the dairy barns and found the best equipped dairy barn that we have found at any institution in Illinois. He follows the same plans in handling his cows as does Capt. Somerville, except he has a little better equipment. He maintains a large barn in which the cows are milked located upon the east side of his cow lot. On the west side and on the north side he has open sheds open to the south and east and his cows can run in and out at will. Over the sheds a hay mow which makes it convenient to feed the cows in the sheds. After they are milked they are turned out of the large barns into this yard. It is an ideal condition under which to handle cows and it didn't cost \$20,000 either. Some of these men who are advocating \$20,000 dairy barns for our State institutions had better go to Jacksonville and inspect this plant and thereby obtain a little cow sense. Your committee feels that the dairy is an important part of our charitable institutions. Not a single cow from this herd when tested reacted and what is done here with a cow can be done any place else and at a cost that will not appall the tax payers either. We think this is a very well managed institution everything considered. However, his plan of selling the slop from the institution at \$600 per year instead of feeding it to the hogs did not appeal to your committee, but when he explained that the farm was a mile or more away where he was obliged to keep his hogs that at certain times of the year that it was a physical impossibility almost to haul that slop to the hog on account of the bad condition of the roads. We all know what a central Illinois road is sometimes and thought that mitigating reason for selling the slop instead of feeding it. His tuberculosis hospital now almost complete, not a very expensive affair, however, did not appeal to the committee as being as good a building for such purposes as we have seen at other institutions. We are not physicians or authority on such matters, however, but are inclined to believe that the arrangement at Watertown, Bartonville, for tuberculosis colonies are better.

Your committee arrived at Springfield Tuesday, May 18th, at 2:40 P. M., all feeling that they had never appreciated what Illinois was doing in the way of public charities until they had taken this trip. It occurred to the committee that it would be a good idea for this committee to make this trip soon after the House was organized and spend a little more time at each

institution, go over their appropriation bills and report back to the Appropriations Committee before the public hearing on these institutions. We believe the committee would be in a position to provide for the needs of these institutions more intelligently by having some knowledge of the condition that exists in the various institutions before the superintendents appear before the committee. However, that is a matter for future Legislatures to consider. This committee on arriving at an institution would inspect it as thoroughly as the time would permit and get a general idea of the conditions in the various parts of the institution. On leaving each day we had a meeting on board the car and discussed the conditions as we saw them at the institution and then wrote up a short report on what we had observed. We think as much as was necessary by reason of the trip being made so late in the session. The general conditions at the institutions were better, taken as a whole, than most of the committee expected to find. We think there are some improvements that might be made in some of the institutions that would be very desirable. Mr. Naylor on whom the committee relied to inspect and pass on the efficiency of the heating plants informs the committee that at some of the institutions improvements could be made on heating plants that would be a saving to the State and greatly add to the comfort and convenience of the institutions. Some of the plants are modern and up to date, while some are not. The farms that were inspected by the farmers on the committee are kept generally in good shape. One thing we noticed at some of the institutions the wagons and other farming tools were left standing out of the shed more than they should be, while at others every implement not in use was in the shed in its place. A matter of some importance and they think some superintendents should look after that feature a little better. The truck farming of which a great deal is done at each institution your committee thinks is well done. The dairy which is a very important part of an institution of this kind we think in some of the institutions could be improved upon. We think the superintendents could meet at the various institutions in this State and study these matters and equip the dairies in this State in their institutions much better than they are now and with but very little cost to the State. We find all the institutions except two turning the slop of their institutions to good account feeding hogs. One superintendent claiming it netted him \$3,000 per year for slop. We presume that is about the extreme figure claimed on hog raising at the institution. Two other institutions sell their slop for \$600 a year each. That is a little matter of dollars and cents to the State that our superintendents might do well to consider. Another very important part of an institution of this kind is their laundry and their kitchen and dining room. Most of them, however, are fairly well equipped. Those that are not your committee thinks should be. As to the general management and care of patients your committee has very little knowledge. We noticed some differences in the condition of the patients in the various institutions. Patients in some institutions being more noisy and apparently more discontented and unhappy than in others. This feature was talked of and speculated upon by the committee, yet owing to our short stay at each institution and our limited knowledge of such institutions it would be only a guess as to the reasons for these differences of condition. Taken as a whole your committee thinks Illinois has no reason to feel ashamed of her charitable institutions.

All of which is respectfully submitted,

CHARLES ADKINS,

Mr. Corcoran, from the Committee to Visit Educational Institutions submitted the following report:

To the Speaker and House of Representatives of the State of Illinois:

The undersigned, your committee, heretofore appointed to visit the educational institutions of the State of Illinois, beg leave to report as follows:

Your committee left Springfield on May 3, 1909 at five o'clock, A. M. and arrived at Jacksonville and were immediately conveyed to the Illinois School for the Deaf. Your committee made a careful investigation of the work being done in this institution. They visited each and every department and made a special investigation of the work in the class room. Your committee was above all things impressed with the fact that the people of this State do not realize the great and important work of this institution, and that for year after year, for more than sixty-seven years, this institution has been quietly but effectively carrying on its great work. Graduates of this institution are found in all parts of the nation, young, middle-aged and old—children who are just stepping forth into life and old men and women who are about to pass into the great beyond—but it seems that not one of them have forgotten their *alma mater*. The principal of teaching the deaf to read the silent movements of the lips of another is not only remarkable but astounding to the ordinary individual. Here in this institution is this system taught to perfection. This institution is particularly favored in the fact that its present superintendent Mr. Charles P. Gillett, was born, nursed and brought up within its walls. He is part and parcel of the institution himself and the soul of its being. Your committee is not permitted in this short report to go into details but suffice it to say that it is the unanimous opinion of this committee that the Illinois School for the Deaf is one of the best institutions in the State and one that should be fostered to its full limit. It is a great satisfaction to know that the taxpayer's money is so well and carefully invested and distributed.

Your committee next visited the Illinois School for the Blind at Jacksonville and we are pleased to say that this institution for the purposes for which it was founded, is accomplishing as great a work for the blind as the institution for the deaf is for those deprived of hearing. Your committee took occasion to make a careful investigation as to the method of teaching in this school and found that it compares favorably with any institution of its kind in the country. Prof. George W. Jones is the present superintendent of this school and for the short time that he has been with it we are pleased to say that there has been a substantial improvement. Mr. Jones is recognized authority upon instruction for the blind and has written a book on the subject of "Tactile Print." It is difficult to find employment for the blind as they are so handicapped with blindness but they are taught many useful trades in which they achieve great success. Every dollar that the people of the State spend upon these unfortunate people is well and humanely spent. Your committee was especially pleased with the ability and good work done by Mr. Arthur Jewell, the blind printer of the institution. Great quantities of his work are sent out over the United States and foreign countries and by this means of disseminating knowledge to the blind his service is to them of untold value.

On May 3, 1909, your committee arrived at the Western Illinois State Normal School at Macomb, Illinois, and spent the day in going through this admirable institution. Upon first view of the institution one is struck with the beauty of its site from which the landscape of the

surrounding country is presented in beautiful picturesqueness. The building is a magnificent stone structure built after the most modern plans and it appears on the face of it that the State got returns on every dollar invested in the building. The great credit for this, as we understand it, is due to the board of trustees. Prof. Alfred Bayliss, M. S., is the principal of this school and while it is a new institution in our State there were enrolled during the year 1908 six hundred and thirty-three students. The spirit of the school is exemplary, each student exhibiting great loyalty to the institution and to its principal, Prof. Bayliss. It is needless for this committee to pass praise upon the principal of this school whose reputation is already national and world-wide. In his new position as principal of this school he has lost none of his old-time vigor and efficiency as a school master.

Your committee on May 5, 1909, arrived at DeKalb, Illinois, and immediately proceeded to visit the Northern Illinois State Normal School situated at that place. The attendance at this school for 1907-1908 was seven hundred and forty-one. The graduating class of last year was the largest ever graduated by a State Normal School in Illinois. The present attendance is up to the average. This school has the distinctive feature of putting into the educational fields teachers of merit who maintain their positions successfully as such. It is estimated that not more than two per cent of the teachers graduated from this institution have left the pedagogical field. This school is in charge of Prof. John W. Cook who for many years successfully conducted a State Normal at Normal, Illinois. It is apparent, upon investigation, that he has met with eminent success and it is not for us to add anything to his ability in the educational world as a teacher. He stands as a peer of the best. The spirit of industry among the students is clearly manifest and it is the opinion of the committee that the good work of this institution should be encouraged and fostered to its full extent.

Your committee, on May 6, 1909, arrived at Champaign and at once proceeded to visit the State University. The magnitude of this school challenges at once the admiration of the visitor and renders it impossible to make a report upon the condition thereof in a short report. Furthermore, instead of a day at least a week should be spent to properly give an idea of the work which this great institution is doing. We are satisfied to say that under its present management it will soon rank with the first among the institutions of learning in the United States.

Proceeding on its journey your committee visited the Eastern Normal School at Charleston on May 7th. This school is in charge of the famous educator, Livingston C. Lord, LL. D. Your committee begs to report that they found this school in a most admirable condition. Too much credit cannot be given, to Mr. George H. Jeffries, treasurer of the institution, and one of its trustees. His entire time is devoted to its needs and entirely without compensation. Charleston and its vicinity owes a debt of gratitude to the work of these men.

Your committee, on May 8th, arrived at Carbondale, Illinois, and immediately proceeded to visit the Southern Illinois State Normal University. Your committee was particularly struck with the fact that the students in this school were somewhat further advanced in age than at the other schools and seemed to be thoroughly intent upon making a success of their chosen profession. Many young men and young women are working their way unaided through this institution. On account of the smallness of the city of Carbondale the work of the school is retarded because of the fact that proper quarters are not available for the students in the city. They are in great need of a women's dormitory, and your committee believes that it should be constructed at once.

All of which is respectfully submitted.

JAS. H. CORCORAN,
Chairman.

A message from the Governor, by James Whittaker, Secretary to the Governor:

EXECUTIVE DEPARTMENT.

SPRINGFIELD, ILLINOIS, May 25, 1909.

To the Honorable, the House of Representatives:

✓ I return herewith, without my approval, House Bill No. 86, the same being a bill for "An Act to regulate the practice of chiropody in the State of Illinois," for the reasons set forth in the opinion of the Attorney General, copy of which is hereto attached and made a part hereof.

Notwithstanding that the opinion of the Attorney General holds that the bill is unconstitutional only in so far as it vests the power of appointment in the Chiropodist Society of Illinois, I nevertheless veto the bill as a whole for the reason that it was manifestly not the intention of the General Assembly to confer upon the Governor the unqualified power of appointment of a State Board of Chiropodists but only under the limitations in the bill prescribed, and as the intention of the General Assembly cannot be completely carried out, for the reasons stated in the opinion of the Attorney General.

Respectfully submitted,

CHARLES S. DENEEN,
Governor.

[COPY.]

SPRINGFIELD, May 20, 1909.

*To His Excellency, Charles S. Deneen,
Governor of the State of Illinois,
Springfield, Illinois.*

SIR: You have transmitted to me House Bill No. 86, the same being a bill for "An Act to regulate the practice of chiropody in the State of Illinois," and request an opinion as to its form and constitutionality.

In form the bill is unobjectionable.

The bill makes it unlawful for any person to practice chiropody in the State of Illinois without a license to be issued by a board of examiners known as the Illinois State Board of Chiropody.

The bill makes provision for the licensing of persons who have practiced chiropody for a stated time prior to the passage of the Act and makes provision for the examination of persons intending to practice chiropody.

The bill further contains administrative features usual to the creation of a board of this nature and provides certain penalties for the violation of the provisions of the Act.

The bill provides that the Illinois State Board of Chiropody consists of four members. As to the appointment of the members of the board, the bill provides:

"The members of said board shall be appointed by the Governor, recommended by the Chiropodists' Society of Illinois." (Section 2.)

As to filling vacancies in the membership of said board, the bill provides:

"In case of a vacancy occurring on said board, such vacancy shall be filled by the Governor, recommended by the Chiropodists' Society of Illinois." (Section 2.)

The plain and obvious meaning of these provisions is that the persons recommended by the Chiropodists' Society of Illinois shall be appointed members of the Illinois State Board of Chiropody. It is plainly the intent of these provisions that the Chiropodists' Society of Illinois shall determine who are proper persons to be appointed to membership on said Illinois State Board of Chiropody, and that the Governor shall appoint the persons so recommended. Should this bill become a law, and should the Governor appoint to membership on said Illinois State Board of Chiropody persons not recommended by the Chiropodists' Society of Illinois, the Governor might be justly charged with a violation of the law, and the persons appointed by him might be removed by a proceeding in the nature of *quo warranto*, assuming, of course, that the Act, in all its parts, is constitutional.

State v. Washburn, 167 Mo., 680.

But, in the view I take of the bill, it is, in some respects, without constitutional validity. The members of the Illinois State Board of Chiropody, should this bill become a law, would be officers of the State. It is elementary that the power to create an office and to designate its functions and to fill the office rests in the government or some governmental agency.

Dasher v. People, 183 Ill., 226;

Rouse v. Thompson, 228 Ill., 522;

State v. Washburn, 167 Mo., 680.

The power of appointment to office cannot be delegated to any private corporation, association or individual, and this, by reason of the provisions of section 22 of article IV of the Constitution of Illinois, which, in part, is as follows:

"The General Assembly shall not pass local or special laws in any of the following enumerated cases, that is to say, for * * * Granting to any corporation, association or individual any special or exclusive privilege, immunity or franchise whatever."

The delegation of the power of appointment to an office to a private corporation or association is a special Act conferring upon said private corporation or association a franchise, as was decided in the case of *Lasher v. People*, *supra*.

In the *Lasher* case, a board of inspectors to regulate the shipping, consignment and sale of produce, fruits, vegetables, and other property, was created, —the said board to be appointed from and by the membership of five private corporations and associations named in the Act.

The Court held that the Act was special, conferring upon said corporations named, a franchise in contravention of the constitutional provision above quoted.

Are the provisions of this bill, so far as they relate to the appointment of the members of the Illinois State Board of Chiropody distinguishable, in principle, from the Act condemned by the Court in the *Lasher* case, *supra*? In order to determine this question, it is necessary to consider, briefly, the essential attributes of the power of appointment to an office. The power of appointment to office is not a ministerial function. It is more than a mere formality. It implies more than the mere manual execution and delivery of a commission. The officer, or governmental agency, exercising the appointing power, is not, and cannot be made, a mere automaton.

The distinguishing characteristics, the essence, of an appointment, is the choice of a person to fill an office.

19 A. & Eng. Enc. L., p. 423 (1st Ed.);

Johnston v. Wilson, 2 N. H., 202;

Hoke v. Field, 10 Bush (Ky.) 144;

People v. Fitzsimmons, 68 N. Y., 514;

Taylor v. Kercheval, 82 Fed. Rep., 497.

The choice of a person to fill an office denotes the exercise of judgment and discretion on the part of the officer, or other governmental agency, making the appointment. The essential elements of an appointment to office are well described in the case of *People v. Mosher*, 61 N. Y., Supp., 452, as follows:—

“The power of appointment implies a discretion in the appointing power, as to whom he shall appoint, and embraces, not only perfect liberty as to the person to be appointed, but the duty of personally investigating the character and qualifications of the proposed appointee, as to his fitness to discharge the services required of him. * * * The power of appointment contemplates the exercise of judgment and discretion, in the appointing power as to whom he shall appoint, and responsibility for the person so selected; and to secure this it must be the independent, untrammelled act of the appointing officer * * * choice or selection means the power to determine between two or more. No choice or selection can be made when there is no alternative.”

Applying these principles to the bill under consideration, what is the result? In whom does the power of appointment rest? Who possesses all of the essential characteristics of the power of appointment—the Governor or the Chiropodists' Society of Illinois? Who exercises the power of selection and designates the person to fill the office?

Under the plain and unmistakable provisions of the bill, it is not the Governor—a governmental agent—but it is the Chiropodists Society of Illinois—whether a private corporate body or a voluntary association, I am not advised. The Chiropodists' Society of Illinois possesses all of the elements entering into an appointment. The right of selection, the formation of judgment, and the exercise of discretion, are all vested in the Chiropodists' Society of Illinois. Governor is made a ministerial officer to register the will of the Illinois Chiropodists' Society and to execute and deliver commissions to the persons chosen, selected and designated by said society as members of the Illinois State Board of Chiropody. He possesses under this bill none of the substantial elements of the power of appointment. All discretion, as to who shall be appointed, as to the fitness and qualifications of the appointee, is taken away from him. The power to choose, designate, and select,—the essential and characteristic attributes of the power of appointment—the membership of the Illinois State Board of Chiropody is absolutely vested in the Chiropodists' Society of Illinois.

The form of the bill does not, in so many words, vest the power of appointment in said society, but, in substance, it amounts to the power to appoint. The form in which it is expressed is immaterial: Courts regard the substance of legislation and not the form in which it is moulded. From what is here stated, I am led to the conclusion that there is no difference in principle between the act before the court in the Lasher case, *supra*, and the bill under consideration.

This view is reinforced by the holding of the Supreme Court of the State of Missouri, in the case of the State v. Washburn, 167 Mo., 680. In that case the court had before it a statute of the State of Missouri which required that one of the three election commissioners for a certain city “should be chosen from three eligible citizens named by the city central committee of the leading party politically opposed to that to which the other two commissioners belonged.”

The proceeding was in the nature of a *quo warranto* to test the right of the minority member to hold the office of election commissioner. It appeared that the Governor disregarded the recommendation of the city central committee and appointed a person election commissioner who was not named or recommended by the city central committee of the party politically opposed to that to which the other two members belonged. The court held that the appointment so made by the Governor was not illegal, and held that part of the act giving the city central committee the power to name and design-

nate three eligible citizens for membership on the board of election commissioners to be unconstitutional, as infringing a constitutional provision of the State of Missouri, which provides that

"The General Assembly shall not pass any local or special law granting to any corporation, association or individual, any special or exclusive right, privilege or immunity."

In discussing the Act, the court say:

"Although the power here attempted to be conferred is not literally the power of appointment, yet its effect is the same, it leads to the appointment, and if the Legislature has the authority to confer the power to nominate, in the manner indicated, it has the authority to confer the power to appoint without the circumlocution, which is merely formal. If the Governor may be compelled to select one of three, he may be limited in his preference to one of two, and, either in form or skillful practice, there might be no choice left to the Governor at all. We must consider the statute, therefore, as conferring on the partisan committee the power to name the officer, for such is the effect."

Under the holding of the Supreme Court of Illinois in the Lasher case, *supra*, and under the principles announced by the Supreme Court of the State of Missouri in the Washburn case, *supra*, I am constrained to the view that this bill, with respect to the appointment of the members of the Illinois State Board of Chiropractic, by the Chiropractic Society of Illinois, is void and ineffective, for the reason that it confers upon said society a special or exclusive franchise or privilege, in contravention of the section of the constitution hereinbefore quoted.

In my judgment, however, it does not follow that, because the provision relative to the recommendation by the Chiropractic Society of Illinois is invalid, the whole act must fall.

"It is a general rule, and one founded in good sense, that, if one part of a statute be unconstitutional, but it stands so independently by itself that it may be rejected, and yet leave that which remains so complete in itself as to be fully capable of execution, then the act should be construed the same as if the void part had never been inserted."

Myers v. People, 67 Ill., 503.

Quoting from Cooley on Constitutional Limitations, page 178, the court, in the case of People v. Knopf, 183 Ill., 410, say:

"The constitutional and unconstitutional provisions may even be contained in the same section and yet be perfectly distinct and separable, so that the first may stand though the last fall. * * If, when the unconstitutional portion is stricken out, that which remains is complete in itself and capable of being executed wholly independent of that which was rejected, it must be sustained."

In Lewis' Suth. Stat. Const., section 296, the rule is stated to be that

"The court is not warranted in declaring the whole statute void, unless all the provisions are connected in subject matter, depend on each other, were designed to operate for the same purpose, or are otherwise so dependent in meaning that it cannot be presumed that the Legislature would have passed one without the other."

I am of the opinion that the provision relative to the recommendation by the Chiropractic Society of Illinois is an independent provision, which may be stricken out without invalidating other portions of the bill.

The court in the Washburn case, *supra*, held that, although the provision relative to the naming of the minority member on the board of election commissioners was unconstitutional, yet such unconstitutional part did not affect the remaining valid portions of the act. Upon this point, the court say:

"The point is advanced that if the Act of 1899 is unconstitutional in the particular named, the whole Act is void and the incumbent has no title to the office. The power attempted to be conferred on the partisan committee is not an essential element in the whole act. Where the part of an act

that is unconstitutional does not enter into the life of the act itself, and is not essential to its being, it may be disregarded and the rest remain in force; that is this case."

I conclude, therefore, that this bill is unconstitutional in so far, and only in so far, as it vests the power of appointment in the Chiropodists' Society of Illinois.

The Speaker of the House of Representatives, as presiding officer, announced the result of this, the ninety-fifth joint ballot, as follows:

Total number of votes cast 202, of which—

Albert J. Hopkins received a total of the Joint Assembly of the	
Forty-sixth General Assembly of.....	70 votes
William Lorimer received.....	108 votes
Lawrence B. Stringer received.....	24 votes

The Speaker of the House of Representatives as presiding officer of the Joint Assembly of the Forty-sixth General Assembly then announced that a quorum of all the members elected to both houses were present and voting, and that William Lorimer having received a majority of all the votes cast by the Joint Assembly, and a constitutional majority, was therefore declared duly elected United States Senator to represent the State of Illinois in the Congress of the United States, for the term of six years, beginning on the fourth day of March, A. D., 1909.

Mr. ApMadoc offered the following resolution and moved its adoption:

Resolved, That a committee of five (5) be appointed on the part of the House, to be appointed by the Speaker of the House, and three on the part of the Senate, to be appointed by the President of the Senate, to notify the Honorable William Lorimer of his election as United States Senator from the State of Illinois for the term of six (6) years beginning March 4th, 1909.

And the resolution was adopted.

The Speaker of the House of Representatives appointed as such committee on the part of the House, Messrs. ApMadoc, Church, Browne, Lawrence and Tippit.

The President of the Senate appointed as such committee on the part of the Senate, Messrs. Ball, Downing and Hearn.

The committee thereupon retired and presented the Honorable William Lorimer, Senator-elect, who addressed the Joint Assembly, as follows:

"Mr. Speaker and Gentlemen of the General Assembly: I am unable to find language with which to express my gratitude for the great honor conferred upon me by this Assembly today. Receiving the votes of the two great parties of the country is of course a new precedent in the history of this great commonwealth. Every Democrat that voted for me today knew that he was voting for a Republican. Every Republican that voted for me today knew that he was voting for a man who believed in the principles of his great party. Today things are different to what they were a few years ago. Such a condition as exists in this hall could not have obtained twenty years ago, but the parties have been growing in their great principles closer and closer together every day until now we are separated by just a few great principles and that which has continued the chasm between the two great parties, that which made it possible for us to enter into the contest in the last campaign was the tariff issue. Personally, all my life I have been a protectionist. All my life I have been for what is known as a "high protective tariff," but in our last Republican national convention, our party, the Republican party, declared for a lower tariff or a tariff revision downward. And gentlemen, whether that is the view I have held in the past twenty-five years that I have been voting the Republican ticket or not, the party obligations call upon all of its representatives to carry out our pledge, and let me say to you, before this contest opened the Republicans were prepared to carry out their pledge. The bill was reported to the House and passed by the lower branch of Congress recently that I believe meets with the views of the great mass of all of the people of this country. I do not know, my friends, whether or not that legislation will yield revenue enough to conduct the affairs of this great country or not, but I do know that the party to which I belong will keep the faith and pass a bill along the lines passed by the House of Representatives, and so, my friends, with a condition of that kind it has seemed easy for Democrats to step across the line and vote for a Republican, and let me say to you, my Democratic friends, that the day will never come when I will fail to appreciate the great honor that you have helped to confer upon me and while we may differ as to a few of the great principles that separate the two great parties, there are still many things of government upon which we can agree. There are still many things to be done in Washington where the party line will not be drawn and I am confident that when my term of office expires that, except as to those few principles that separate us, my service in the Upper Branch of the Congress of the United States will be satisfactory to you, and to my Republican friends let me say that because of the great confidence bestowed upon me by the gentlemen on the other side of the House, because of the large vote I received from them today, I would have you know that I am today, as I was yesterday, a Republican standing for the principles of the great party to which you and I belong, but upon one subject, at least, my friends, we can all be united.

"The last General Assembly submitted to the people a proposition that makes it possible to put through a project that will bring to the State in which we live the greatest possible industrial development. The last time I was elected to Congress, I made the campaign for no purpose alone on earth except to promote the great project of a waterway from the Great Lakes to the Gulf of Mexico. I had hoped that probably I might have one more term in Congress after the one I am now serving expires. I had hoped for that additional term in order that I might have the time to urge upon the Congress of the country this great and much needed development of the Mississippi Valley, but you gentlemen here today have brushed aside all the need of a re-election to Congress. You have made it unnecessary for another campaign and another re-election. You have given me a service of six years

in the high branch of the Congress of the United States and let me say to you today that, with your aid, at some time during the life of this General Assembly you and I, during my service in the Senate will live to see the day when the great project of a waterway from the Lakes to the Gulf will be on its way to final development and completion. I do not wish longer to take the time of the members of this Assembly, and wish to part with you with just these few words:

"The gentlemen who voted for me today I shall never forget while I live, but I know from my association with the members of the House and Senate during the past four months that I have the most kindly feeling and respect of the gentlemen that did not vote for me and, might I say to you in conclusion, my friends, that it makes no difference to me whether you voted for me or not, I ask you and I invite you to call upon me for any service that can be rendered in the interest of the great commonwealth which we all love so well."

Mr. Lorimer having concluded his address, Mr. Hull moved that the Speaker appoint a committee of three (3) to wait upon ex-Senator Albert J. Hopkins and invite him to address the Assembly.

Whereupon, the Speaker appointed as such committee: Messrs. Hull, Perkins and Adkins.

The committee thereupon retired and presented Mr. Hopkins who addressed the Assembly as follows:

"Mr. Speaker, and Gentlemen of the Forty-sixth General Assembly: I desire to return to you my thanks for the courteous treatment that I have received during the long months of the deadlock which has just been terminated by the election of Mr. Lorimer to the Senate of the United States. In looking over that period and going back to the primary itself, I feel no regrets as respects the manner in which the campaign has been conducted and personally I have no regrets as to the result.

"Under the law that was placed upon the statute books of this State by the General Assembly which preceded you, if I desired to become a candidate to succeed myself in the Senate of the United States, I was required, with the others, to file my petition with the Secretary of State and to make a canvass of the State and receive the endorsement of the people at the primary election. Under that statute, I with several others, made a canvass of this State and received nearly 50,000 majority against my nearest competitor and 82,000 majority in round numbers against Senator Mason. I had supposed, as many others, that the primary law, was to determine the result of the senatorial canvass. When I came here in January, I found a different condition existed. I found many of the members of this General Assembly felt that they should be guided and controlled by the vote in their respective districts and others believed, as I believed, that the general results of the entire State was to determine this question.

"I have no criticisms to make as respects the attitude taken by these gentlemen who believed the primary vote of the district should control. I recognize you as all honorable men, as high-minded legislators who determined to carry out the wishes of your constituency and do the best you can for the interests of your State. In the months that have followed in this deadlock I have received the support from the loyal Republicans of this State that I shall never forget during my life. I appreciate that support more than I can express in language to you today, and more than I can ever recompense you for. I would rather have the loyal support of men that have stood by me during these long months and the principles of the primary law than any office, I care not how exalted that office may be. I had rather stand for the principles of the Republican party as expressed at the polls than to have any office, whatever that office may be. Gentlemen, I speak all my conviction upon that subject.

"Now, gentlemen of the General Assembly, for myself, I go into private life with more pleasure than regret. I have had the honor of holding this great

office for six years. You know, who are familiar with records of that great legislative body, the manner in which I have discharged my duties as a representative of this great State. I appeal to that record with pleasure and with pardonable pride. My record there is one that I can transfer to my children as a heritage that they can be proud of. In all of the contests that went on in that great legislative body during that period, I not only had the confidence and support of my colleagues in the Senate, but I stood loyally by the administration of one the greatest presidents that has ever honored this great republic, Theodore Roosevelt.

"Now, gentlemen, it is not my purpose to take up your time with a speech. I desire to say to you I have nothing but good wishes for my successful competitor. I regret that he was able to be elected by Democratic votes, because I can say to you, Democrats and Republicans alike, that this country is a country that is and should be governed by political parties. This State in all of its wonderful development has been governed by party organization. The Republican party has made a record in this great State second to none in the history of the republic itself, and the Republican party up to this time has never failed to be united in the support of its candidate. If the principles of that party had prevailed, if that loyal spirit had been manifest, there were Republicans enough to have elected me, but as I have said to you, I will bow to the will of the General Assembly. I take no exceptions to the views of the gentlemen who differ from me and if the Republicans have joined with the Democratic party today in electing Mr. Lorimer my successor, I say God-speed him and give him every success in the Senate of the United States.

"I was pleased to listen to his remarks when he said he would go there as a Republican, but a State that can give to the national ticket 176,000 majority, ought to be represented in that great body by a Republican in that great legislative body. Now, members of the General Assembly, in closing I want to thank you again and the loyal Republicans who have stood by me. It is honor enough for me to know that those men have believed in me as a man and a senator and in the record that I have made in the United States, to go down to defeat and stand by that defeat. It is a record that their constituents will honor and a record that makes a bright page in the history, not only of each individual member, but of the senator whom they voted for."

The purpose for which this Joint Assembly convened, having been accomplished, at the hour of 3:07 o'clock, p. m., Mr. Shanahan moved that the Joint Assembly do now adjourn, *sine die*.

This bill having received the votes of a constitutional majority of the members elected, was declared passed.

Ordered that the title be as aforesaid and that the Clerk inform the Senate thereof and ask their concurrence therein.

Mr. Liggett, from the Committee to visit Penal and Reformatory Institutions submitted the following report:

SPRINGFIELD, ILL., May 27, 1909.

Hon. Edward D. Shurtleff, Speaker of the House of Representatives, and Gentlemen of the House of Representatives:

Your Committee appointed to visit the Penal and Reformatory Institutions, respectfully report as follows:

We have made a thorough examination of all the Penal and Reformatory Institutions of the State, devoting the time to a careful and systematic inspection.

CHESTER.

At Chester, where we find the prison in the best condition, the work on farm and quarry is in full operation and Warden Smith and his assistants deserve credit for the way in which they are running the work in the way of improvements on the farm, making good farm land out of that which was rough and hilly and drawing the hill tops down and making acres of good farm land.

Your committee recommend that this institution be given a liberal appropriation for the work is showing up well for the money already expended.

The health in this institution is good, there being about eight in the hospital, and but one in close confinement, out of a total of about 1,100.

ST. CHARLES.

At the St. Charles School for boys, we find the lads cheerful and apparently happy. They are engaged in numerous occupations the chief of which is the dairy, which is something for them to be very proud of. They are in need of more buildings and land. Your committee would recommend the building of an administration building first, and after that the purchase of the land required.

JOLIET.

At Joliet we were conducted around by Warden Murphy. The work in this institution is being carried on on a large scale as they have so many different industries and all appear to be in good shape.

Some repairs are badly needed, but as a new prison is forthcoming, it would be unnecessary to go to this expense.

GENEVA.

At this institution, which is a school for girls, we found Mrs. Amigh in charge and there is no institution in the state that is more worthy of your consideration than this school, for it is certainly a grand and noble work, and the Matron has the work well in hand. If the State has to curtail its expenses, we would advise you not to stint this institution, and to let it be the last to have its appropriation cut.

PONTIAC.

Your committee, after investigation, find this is the hardest proposition in the State to contend with. It has the worst criminals to care for in the very poorest equipped buildings of all our State institutions. Outside of the new

cell house, or the one last built, the buildings are all in need of repair and the one occupied by the printing machinery, should be vacated at once for fear of accident.

Dr. Mallory conducted your committee around the different buildings and shops, and he is certainly, to use a slang expression, "On to his job." He is very much handicapped, however, by the much needed repairs. This institution also needs more land, and your committee recommend that they be allowed to purchase that for which they have an option.

Your committee further recommend that steps be taken at once to replace the board fence with a more secure wall, and while we do not lose sight of the fact that this is a reform school, yet to save a wholesale delivery at this institution, perhaps, this should be looked after with care.

Take all the institutions, we find that they are as to cleanliness, discipline and the general welfare about equal to any in the world of the same kind and covering the same territory.

As to treatment of the inmates of the various institutions visited, at the hands of those in charge, their administration was praised rather than complained of.

In conclusion, your committee were much pleased with the general conditions of all the institutions visited; with the care and attention given the patients; the careful manner in which they were clothed and fed; the quality of food and the general excellent standing of the institutions, which has been in operation for the last four years, and which we believe has been fully maintained.

FRANCIS J. LIGGETT,

Each visit shall include, to the fullest extent deemed necessary, an inspection of every part of each institution, and all the out-houses, places, buildings and grounds belonging thereto or used in connection therewith. The commissioners shall, from time to time, make an examination of all the records and methods of administration, the general and special dietary, the stores and methods of supply, and, as far as circumstances may permit, of every patient confined therein, especially those admitted since the preceding visit, giving such as may require it suitable opportunity to converse with the commissioners apart from the officers and attendants. They shall, as far as they deem necessary, examine the officers, attendants and other employés, and make such inquiries as will determine their fitness for their respective duties. At the next regular or special meeting of the commission, after any such visit, the visiting commissioners shall report the result thereof, with such recommendations for the better management or improvement of any institutions as they may deem necessary. All such insane shall be allowed to correspond, without restriction, with the county judge and district attorney of the county from which they were committed. The books of record and blank forms for the official use of the hospitals shall be uniform, and shall be approved by the commission.

Such hospital districts shall be so defined that the number of patients in each district shall be in proportion as nearly as practicable, to the accommodations which are or may be provided by the State hospital or hospitals within such district.

To prevent overcrowding in the State hospitals, it shall recommend to the Legislature the establishment of other State hospitals, in such parts of the State as in its judgment will best meet the requirements of such insane. It shall also furnish to the Legislature, in each year, an estimate of the probable number of patients who will become inmates of the respective State hospitals during the year beginning October first next ensuing, and the cost of all the additional buildings and equipments, if any, which will be required to carry out the provisions of this

chapter relating to the care, custody and treatment of the insane of the State. No money shall be expended for the erection of additional buildings or for unusual repairs or improvements of State hospitals, except upon plans and specifications to be approved by the commission and the Governor. The cost of such buildings as are to be occupied by patients, erected on the grounds of existing State hospitals, including the necessary equipment for heating, lighting, ventilating, fixtures and furniture, shall, in no case, exceed the proportion of five hundred dollars per capita for the patients to be accommodated therein; except that for buildings specially designed and equipped for the active medical and general care and treatment of insane patients, of the acute and curable class, the cost shall not exceed the proportion of one thousand dollars per capita for the patients to be accommodated therein. No municipality of the State shall have the power to modify or change plans or specifications for the erection, repair or improvement of State hospital buildings or the plumbing or sewerage connected therewith. The commission may secure a blanket policy of insurance covering any or all the buildings, property or fixtures of the State hospitals.

Sec. 15. *Director of Pathological Institute.*—The commission shall, after a special civil service examination therefor, appoint a director of the pathological institute, who shall perform, under the direction of the commission, such duties relating to pathological research as may be required for all of the State hospitals for the insane. His office and laboratory shall be in the city of Chicago. He shall receive an annual salary to be fixed by the commission, subject to the approval of the Governor. The State hospitals shall cooperate with the pathological institute in such manner as the commission may from time to time direct.

Sec. 16. *State Hospitals for the Insane.*—There shall continue to be the following hospitals for the care and treatment of the insane of the State, which are hereby declared to be corporations:

1. The Illinois Northern Hospital for Insane, at Elgin, in Kane county.
2. The Illinois Eastern Hospital for Insane, at Kankakee, in Kankakee county.
3. The Illinois Western Hospital for Insane, at Watertown, in Rock Island county.
4. The Illinois Central Hospital for Insane, at Jacksonville, in Morgan county.
5. The Illinois Southern Hospital for Insane, at Anna, in Williamson county.
6. The Illinois General Hospital for the Insane, at Bartonville, in Peoria county.
7. The Asylum for Insane Criminals, at Menard, in Randolph county.

Sec. 17. *Managers of State Hospitals and Their Terms of Office.*—Each State hospital shall be under the control and management of a board of managers, subject to the statutory powers of the commission. On or after the first of October, nineteen hundred and nine, the Governor shall appoint a board consisting of seven (7) members, not more than four (4) of whom shall belong to or be affiliated with the same political party. He shall so arrange their terms of office of one, two, three, four, five, six and seven years that a term shall expire on the thirtieth day of September in each year, beginning with the year nineteen hundred and ten. After the expiration of such terms, managers shall be appointed for terms of seven years. If a vacancy occur otherwise than by expiration of term, the appointment of manager to fill such vacancy shall be for the unexpired term of the manager whose office became vacant.

Sec. 18. *Appointment and Removal of Managers.*—The members of the boards of managers shall be appointed by the Governor, by and with the advice and consent of the Senate, as often as a vacancy shall occur by expiration of term, or otherwise; and they may severally continue in office until their successors are appointed and have qualified; and they shall be subject to removal by the Governor after having been notified in writing of the reasons for the proposed removal, and having been given an opportunity to be heard. All managers shall reside in the hospital district in which the

hospital is situated for which they are respectively appointed. No person shall be eligible to the office of manager who is either an elective State officer or a member of the Legislature, and if any such manager shall become a member of the Legislature or an elective State officer, his office as manager shall thereupon be vacant. If any manager fails for a period of six months to attend the regular meetings of the board of which he is a member, the secretary of the board shall notify the Governor of such absence, with any explanation thereof which may be submitted by such manager, and unless the Governor shall, within thirty days thereafter, notify the secretary that he has excused such manager for such absence, the office of such manager shall thereupon be deemed to be vacant; and if any manager fails for one year to attend such regular meetings, his office shall become vacant. When any such vacancy shall occur, the board, by resolution, shall so declare, and a certified copy of such resolution shall forthwith be transmitted by the board to the commission and to the Governor. In the month of January of each year the secretary of the board of managers shall transmit to the Governor a statement showing the record of attendance of each manager at meetings of the board, the number and dates of visits to the hospital, with a statement of any other work for the hospital performed by such manager, which such manager may request to have transmitted to the Governor. The manager whose term is first to expire shall act as president of the board of managers of each institution.

Sec. 19. *General Powers and Duties of Board of Managers.*—Subject to the statutory powers of the commission, boards of managers shall have the general direction and control of all the property and internal affairs of the institutions for which they are respectively appointed, except as otherwise provided by law. A committee consisting of one member of each board of managers, or other representative designated by such board, shall establish by-laws, rules and regulations governing the appointment and duties of officers and employes of all the State hospitals, and for the internal government, discipline and management of the same, subject to the approval of the commission. Such by-laws, rules and regulations shall be uniform for all the State hospitals, and shall not be inconsistent with the provisions of this Act nor with the provisions of the civil service law and the rules and regulations established thereunder. The managers shall not receive any compensation for their services, but shall receive actual and necessary traveling and other expenses, to be paid after audit as other current expenditures of the hospital. Each board shall, in October of each year, elect from among its members a secretary. The superintendent shall personally submit, at each monthly meeting of the board of managers, a report showing changes in population, health of patients, officers and employes; accidents, suicides, unusual sickness, infectious diseases; important occurrences relating to the welfare of the patients and to the management and discipline of the employes, and such other matters as the board may specify. Each board shall:

1. Take care of the general interests of the hospital and see that its design is carried into effect, according to law, and the by-laws, rules and regulations made as above provided.

2. Maintain an effective inspection of the hospital, for which purpose the board, or a majority of its members, shall visit and inspect the hospital at least once each month. Each board shall make a written report to the commission and to the Governor within ten days after each inspection, such report to be signed by each member making the inspection. Such report shall state in detail the condition of the hospital and of its inmates, and such other matters pertaining to the management and affairs thereof as in the opinion of the board should be brought to the attention of the commission or the Governor, and may contain recommendations as to needed improvements in the hospital or in its management.

3. Keep in a book provided for that purpose a fair and full record of their doings, which shall be open at all times to the inspection of the Gover-

nor of the State, the commissioners of control, or any person appointed by the Governor, the commission of control, or either House of the Legislature, to examine the same.

4. Hold regular meetings at least once each month, and cause to be type written within ten days after such meeting, the minutes and proceedings of such meeting, and cause a copy thereof to be sent forthwith to each member of such board, to the commission and to the Governor.

5. Enter in a book, kept at the hospital for that purpose, the date of each visit of each manager.

6. Make to the commission, in October of each year, a detailed report of the results of their visits and inspection, with suitable suggestions and such other matters as may be required of them by the commission, for the year ending on the thirtieth day of September preceding the date of such report. Such report shall be prepared by a committee of the board, subject to the approval of the board.

7. Investigate, hear and determine the truth of all charges made against the superintendent or other officer or employé of a hospital, issue subpoenas and take and hear testimony in respect to such charges. A witness attending before such board shall be entitled to the same fees as a witness attending before a court of record or a judge thereof, which shall be paid as other hospital charges. The resident officers shall admit such managers into every part of the hospital and its buildings, and exhibit to them, on demand, all the books, papers, accounts and writings belonging to the hospital, or pertaining to its business, management, discipline or government, and furnish copies, abstracts and reports whenever required by them.

Sec. 20. *Officers.*—The Commission of Control shall appoint, subject to the approval of the board of managers for each hospital, as often as a vacancy shall occur therein, a superintendent. Whenever a vacancy shall occur in the office of superintendent of any State hospital, the Commission of Control, with the approval of the board of managers of such hospital, may transfer to such position the superintendent of any other State hospital, and subject to the consent of the board of managers of such other State hospital. The superintendent shall be a well educated physician and a graduate of an incorporated medical college, of at least five years' actual experience in an institution for the care and treatment of the insane. Each superintendent shall be the treasurer of the State hospital for which he is appointed, unless the commission shall designate a person to act as treasurer as hereinafter provided, and before entering upon his duties as such treasurer shall file with the State Auditor his undertaking to the people, in an amount and with sureties to be approved by the State Auditor, to the effect that he will faithfully perform his trust as such treasurer. The superintendent may be removed by a vote of a majority of the board of managers, for cause stated in writing, and after an opportunity has been given him to be heard thereon, and such action, when approved by the commission, shall be final. Pending the investigation of any charges against a superintendent, and the decision thereon, the board of managers may suspend such superintendent. The commission may prefer charges of misconduct or incompetency against any superintendent to the board of managers of the hospital of which he is superintendent, and the board shall thereupon investigate the truth of such charges. On the first day of October, nineteen hundred and eight, the office of treasurer in each of the State hospitals shall be abolished, and their powers and duties may be conferred upon the superintendent, or the commission may designate a person in its office to act as treasurer for all the hospitals, who shall have the powers and perform the duties of treasurer as to such hospital, as prescribed in this chapter, and shall perform such other duties as the commission may impose. The person so designated, before entering upon the performance of his duties as such treasurer, shall file with the State Auditor his undertaking, in an amount and with sureties to be approved by him, to the effect that he will faithfully perform his trust as such treasurer. A superintendent in office on the first day of October, nineteen

hundred and nine, shall be continued in office until removed pursuant to law, notwithstanding the change hereby made in the manner of his appointment.

Sec. 21. *General Powers and Duties of Superintendent.*—The superintendent of each hospital shall be its chief executive officer, and in his absence or sickness, the first assistant physician or other officer designated by the superintendent shall perform the duties, exercise the powers, and be subject to the responsibilities of the superintendent. Subject to the by-laws and regulations established by the commission and the managers under the provisions of this Act, the superintendent shall have general superintendence of the buildings, grounds and farm, together with their furniture, fixtures and stock, and the direction and control of all persons therein, and subject to such by-laws and regulations shall:

1. Personally maintain an effective supervision and inspection of all parts of the hospital and generally direct the care and treatment of the patients. To this end the superintendent shall personally examine the condition of each patient within five days after his admission to the hospital, and shall regularly visit all of the wards or apartments for patients at such times as the rules and regulations of the hospital shall prescribe.

2. Appoint such resident officers, including a woman physician and such employes as he may think proper and necessary for the economical and efficient performance of the business of the hospital and prescribe their duties, and for cause stated in writing, after an opportunity to be heard, discharge any of such employes in his discretion, but an appointment of a steward by such superintendent shall be approved by the commission before taking effect, and such steward shall not be removed without the consent in writing of the commission. The number of such resident officers and employes shall be determined, from time to time, by the commission. The commission may, with the approval of the Governor, abolish the office of any of such resident officers or employes. The superintendent may remove any resident officer for cause stated in writing, after an opportunity to be heard, and such action shall be final. Upon any such removal he shall make a record thereof, with the reasons therefor, under the appropriate head in one of the books of the hospital.

The superintendent, assistant physicians, including the woman physician, steward, and matron, shall constantly reside in the hospital, or on the premises, except as provided in this Act, and shall be designated the resident officers of the hospital. The assistant physicians, including the woman physician, shall be graduates of an incorporated medical college, and shall possess such other qualifications as may be required by law.

3. Transmit, by mail, to the Commission of Control, and to the president of the board of managers, within five days after any such discharge, information of such discharge, and of the cause thereof. The commission shall preserve the name of such officer or employe, with the facts relating to his discharge, in a book provided for that purpose.

4. Designate hospital attendants or employes to act as special policemen, whose duty it shall be, under the orders of the superintendent, to arrest and return to the hospital insane persons who may escape therefrom, and to preserve peace and good order in such hospital and to fully protect the grounds, buildings and patients. Such attendants and employes acting as policemen shall possess all the powers of peace officers on the grounds and premises of such hospital and to the extent of one hundred yards beyond such grounds. The designation of such attendants and employes as special policemen, in pursuance hereof, shall not be deemed to supersede, on the grounds and premises of such hospital, the authority of peace officers of the jurisdiction within which such hospital is located.

5. Give such orders and instructions as he may deem best calculated to insure good conduct, fidelity and economy in every department of labor and expense.

6. Maintain salutary discipline among all who are employed in the institution and enforce strict compliance with his instructions and uniform obedience to all rules and regulations of the hospital.

7. Establish and supervise a training school for attendants and nurses, under rules and regulations of the hospital.

8. The superintendent shall hold at least two meetings weekly with the medical staff, at which the condition of patients, especially those recently admitted, shall be considered, and matters of medical service generally shall be given attention. The superintendent shall cause a complete clinical record to be made of each patient, to be kept in such form and to comprise such matters [as] the commission may direct.

9. Cause full and fair accounts and records of the entire business and operations of the hospital to be kept regularly, from day to day, in books provided for that purpose.

10. See that all such accounts and records are fully made up to the last day of September in each year, and that the principal facts and results, with his report thereon, be presented to the board of managers within thirty days thereafter, who shall incorporate it in their report to the commission. The commission may prescribe the form of and the subjects to be embraced in such reports. Such superintendent shall make other reports at such times, and in such manner and in respect to such matters as the board of managers or the commission may direct.

11. Keep a book, in which he shall cause to be entered at the time of reception of any patient, his name, residence and occupation, and the date of such reception, by whom brought and by what authority and on whose petition committed, and an abstract of all orders, warrants, requests, petitions, certificates and other papers accompanying such person.

Sec. 22. *Purchasing Steward for State Institutions.*—The office of purchasing steward for the several State hospitals for the insane and State charitable institutions is hereby established. The purchasing steward for such hospitals and other said State institutions shall be appointed by the commission, and may be removed by it for cause stated in writing, after an opportunity to be heard, and such action shall be final. Such purchasing steward shall make all purchases for each of such hospitals and other said State institutions, in accordance with estimates made as provided by this chapter, after a requisition therefor, approved by the superintendent of the hospital for which such purchases are required. He shall visit the hospitals and other said State institutions for which he acts, from time to time, and confer with the superintendents and resident stewards thereof as to the quantity, quality and price of supplies required therefor. He shall perform such other duties in respect to the purchase of supplies for such hospitals as may be prescribed by the commission. A resident steward for each of such hospitals and other said State institutions shall be appointed and shall possess all the powers and perform all the duties conferred or imposed upon stewards of State hospitals by this chapter, except as herein otherwise provided. Such purchasing steward shall have an office in the cities of Chicago, Springfield and East St. Louis, and may appoint such clerks and assistants as may be authorized by the commission. The salaries of such purchasing steward and of such clerks and assistants shall be fixed by the commission in the same manner as those of other officers and employes. Such salaries, together with the necessary office, traveling and other expenses of such purchasing steward, actually incurred by him in the performance of his duties, shall be paid by the hospitals for which he acts, to be apportioned by the commission.

Sec. 23. *Meetings of Superintendents.*—The superintendents or other officers of the several State hospitals designated by them shall meet, at least once in every three months, upon the call of the commission, at the office of the commission at Springfield, or at such other place as may be designated by it, to consult with such commission with reference to matters relating to the care and operation of the State hospitals and particularly with reference to the care and treatment of the insane. Each board of managers may, in its discretion, send one of its members to such meetings.

Sec. 24. *Salaries of Officers and Wages of Employes.*—The Commission, from time to time, with the approval in writing of the Governor, Secretary

of State and State Auditor, shall fix the annual salaries of the resident officers of the State hospitals, which shall be uniform for like service. They shall classify the other officers and employés into grades, and, except as provided by this chapter, shall determine the salaries and wages to be paid in each grade, which shall be uniform in all the hospitals. The salaries and wages shall be included in the estimates and paid in the same manner as other expenses of the State hospitals. Food supplies shall be allowed to officers and employés and the families of the superintendents, first assistant physicians and stewards. Such families shall consist only of the wives and minor children of such officers; no other persons, except those regularly employed, shall be allowed rooms and maintenance, except at a rate to be fixed by the commission; such supplies shall be drawn from the supplies provided for general hospital use. With the approval of the commission, officers or employés of State hospitals may be permitted to live outside of such hospitals, and shall receive such sums in lieu of the quarters or supplies furnished by the hospitals, as may be equitable.

Sec. 25. *Quarterly Estimates of Expenses; Emergency Fund.*—The superintendent of each of the State hospitals and other said State institutions shall, once in each three months as the commission may determine, cause to be prepared triplicate estimates, in minute detail, of the expenses required for the hospital of which he is the superintendent for the ensuing three months. He shall submit two of such triplicates to the commission and file the third copy in the office of the superintendent. The commission may revise estimates for supplies or other expenditures either as to quantity, quality, or the estimated cost thereof, and shall certify that it has carefully examined the same and that the articles contained in such estimates, as approved or revised by it, are actually required for the use of the hospital, and shall thereupon present such estimate and certificate to the State Auditor. Upon the revision and approval of such estimate by the commission, the State Auditor shall authorize the superintendent as treasurer, or such other officer as the commission may designate as provided in this chapter, to make drafts on the State Auditor, as the money may be required for the purposes mentioned in such estimates, which drafts shall be paid on the warrant of the State Auditor, out of the funds in the treasury of the State held for the care of the insane and the maintenance of State hospitals. In every such estimate there shall be a sum named, not to exceed one thousand dollars, as an emergency fund for which no minute detailed statement need be made. No money shall be expended for the use of any of the State hospitals, except as provided in this section.

Any general expenses necessarily incurred by the commission for or on account of the State hospitals shall be apportioned to such hospitals on the basis of the number of patients, and included in the estimates of such hospitals, made as provided in this section under the direction of the commission.

Sec. 26. *Powers and Duties of Superintendent as Treasurer.*—The superintendent as treasurer of such hospital, or such officer as may be designated as treasurer by the commission as provided in this chapter, shall, subject to the rules and regulations of the commission, pertaining to his duties as treasurer:

1. Have the custody of all moneys received from the State Treasurer on account of estimates made by the superintendent and revised and approved by the commission, and keep an accurate account thereof.

2. Have the custody of all bonds, notes, mortgages and other securities and obligations belonging to the hospital.

3. Receive all money for the care and treatment of private and reimbursing patients and other sources of revenue of the hospital; but where a designation of a person as treasurer is made as provided by this chapter, the steward shall receive all such money and transmit the same, once each week, to the person so designated as treasurer, and report the amount so transmitted to the superintendent.

4. Deposit all money received from the State Treasurer on account of estimates in a bank designated by the State Auditor, in his name, as treasurer, and send each month to the State Auditor and to the commission a statement showing the amount so received and deposited, and from whom and for what received, and when such deposits were made. Such statement of deposit shall be certified by the proper officer of the bank receiving such deposit. The superintendent, as treasurer, or other officer designated as treasurer by the commission, as provided in this chapter, shall make an affidavit to the effect that the sum so deposited is all the money received by him, from any source of hospital income, up to the time of the last deposit appearing on such statement. A bank designated by the State Auditor to receive such deposits shall, before any deposit is made, execute a bond to the people of the State, in a sum approved by the State Auditor, for the safe keeping of the funds deposited.

5. Pay out the money deposited for the uses of the State hospital, upon the voucher of the steward; where a person has been designated as treasurer, as provided in this chapter, such voucher shall be countersigned by the superintendent.

6. Keep full and accurate accounts of all receipts and payments, in the manner and according to books and forms prescribed and furnished by the commission.

7. Balance all accounts on his books, annually, for the year ending on the last day of September, and make a statement thereof and an abstract of the receipts and payments of the past year and deliver the same, within thirty days, to the commission.

8. Render an account of the state of the books and the funds and other property in his custody, whenever required by the commission.

9. Execute a release and satisfaction of a mortgage, judgment or other lien or debt in favor of the hospital, when paid.

10. Receive all moneys for or on account of the sale of lands of the hospital of which he is treasurer.

Sec. 27. *Monthly Statements of Receipts and Expenditures; Vouchers.*—The superintendent as treasurer of each State hospital, or such other officer as may be designated as treasurer by the commission, as provided in this chapter, shall, on or before the fifteenth day of each month, make to the State Auditor and to the commission a full and perfect statement of all the receipts and expenditures, specifying the several items, for the last preceding calendar month. Such statement shall be verified by the affidavit of the treasurer attached thereto, in the following form:

I,, treasurer of the State hospital, do solemnly aver that I have deposited in the bank designated by law for such purpose, all the moneys received by me on account of the hospital during the last month, and I do further swear that the foregoing is a true abstract of all the moneys received and payments made by me or under my direction as such treasurer, during the month ending the..... day of 190..

There shall also be forwarded to the commission the affidavit of the steward, to the effect that all goods and other articles for which vouchers are rendered were purchased and received by him, or under his direction, at the hospital; that the goods were purchased at a fair cash market price and paid for in cash, or on credit, not exceeding sixty days, and that he, or any person in his behalf, had no pecuniary or other interest in the articles purchased; that he received no pecuniary or other benefit therefrom in the way of commission, percentage, deductions or presents, or in any other manner whatever, directly or indirectly; that the articles for which vouchers are rendered were received at the hospital; that they were conformed in all respects to the invoiced goods received and ordered by him, both in quality and quantity. Such vouchers shall be examined by the commission and compared with the estimates made for the month for which the statement is rendered, and if found correct, shall be endorsed and forwarded by the commission, with the statement to the State Auditor. If any voucher is found

objectionable, the State Auditor shall endorse his disapproval thereon, with the reason therefor, and return it to the commission, who shall present it to the superintendent for correction, and when corrected return it to the State Auditor. All such vouchers shall be filed in the office of the State Auditor.

Sec. 28. *Action to Recover Moneys Due the Hospital.*—The superintendent of any State hospital may bring an action in the name of the hospital, to recover for the use thereof:

1. The amount due upon any note or bond in his hands belonging to the hospital.

2. The amount charged and due, according to the by-laws of the hospital, for the support of any patient therein, or for actual disbursements made in his behalf for necessary clothing and traveling expenses. And to enforce any liability created by statute for the care and support of the insane.

3. Upon any cause of action accruing to the hospital.

Sec. 29. *General Powers and Duties of the Steward.*—The steward, under the direction of the superintendent, and subject to the rules and regulations of the hospital, shall be accountable for the careful keeping and economical use of all furniture, stores, and other articles provided for the hospital, and under the direction of the superintendent, and subject to such rules and regulations shall:

1. Make all purchases for the hospital, except as otherwise provided in this chapter, and preserve the original bills and receipts thereof, and keep full and accurate accounts of the same.

2. Prepare and keep the pay-rolls of the hospital.

3. Keep the accounts for the support of patients and expenses incurred in their behalf, and furnish the treasurer statements thereof as they fall due.

4. Notify the treasurer of the death or discharge of any reimbursing or pay patient, within five days after such death or discharge.

Sec. 30. *Purchases and Contracts.*—All purchases of supplies for the use of the hospital shall be made for cash or on credit or time, not exceeding sixty days; every voucher shall be duly filled up, and with every abstract of vouchers paid, there shall be proof on oath that the voucher was properly filled up and the money paid. No expenditure for supplies or other purposes shall be made for the benefit of such hospital, by contract or otherwise, unless in conformity with the provisions of this Act in relation to estimates. No member of the commission, manager or officer of a hospital shall be interested, directly or indirectly, in the furnishing of material, labor or supplies for the use of the hospital, nor shall any such manager or officer act as attorney or counsel for such hospital. Contracts subject to the approval of the commission shall be entered into jointly, by the stewards of the State hospitals, for such staple articles of supplies, as it may be found feasible by the commission to purchase for the use of the hospitals. Such contracts shall not be let except in conformity with the provisions of this Act relating to estimates. The State hospitals may manufacture such supplies and materials to be used in any of such hospitals as can be economically made therein. All goods for the use of the hospitals shall be bought, as far as practicable, of manufacturers and their immediate agents. All contracts, if let, shall, subject to the provisions of this Act relating to estimates, be awarded to the lowest responsible bidders. A member of the commission or an officer, manager or employé of a State hospital shall not receive a gift or reward for himself or the hospital from any person, firm or corporation dealing in goods, or supplies suitable or necessary for the use of the hospital. All purchases and contracts made and executed in pursuance of law, prior to October first, nineteen hundred and nine, shall thereafter be given full force and effect, notwithstanding the change in management of the State hospitals.

Sec. 31. *Official Oath.*—Each superintendent and steward of a hospital, before entering upon his duties as such, shall take the constitutional oath of office and file the same in the office of the Secretary of State.

Sec. 32. *Actions Against Commissioners of Control, Managers or Officers of State Hospitals.*—No civil action shall be brought in any court against the Commission or a commissioner of control, or an officer or manager of a State hospital, for alleged damages because of any act done or failure to perform any act, while discharging their official duties, without leave of a judge of the circuit court first had and obtained. Any just claim for damages against such commission or commissioner, officer, manager or employé, for which the State would be legally or equitably liable, may be paid out of any moneys appropriated for the care of the insane.

Sec. 33. The Commissioners of Control are hereby vested with authority to fix and determine, by all proper rules and regulations, upon the sums and amounts to be charged for the care and maintenance of insane patients (other than poor and indigent patients); but such sums and charges are to be equal and like sums in all cases of adult patients, and are to be made and charged monthly, and in no case are to be in excess of the per capita charge or amount required to actually maintain and keep the patient in the hospital for the insane, to which the respective patients may be committed (exclusive of cost of buildings, physicians' care and attendance and officers' salaries); and upon such sums and amounts having been fixed by said commissioners by proper rules and regulations in the respective hospitals for the insane, the same and the amount so fixed and determined by the said rules and regulations shall become a charge against the estate and property of such inmate (insane person) and the persons liable under the law of this State for their charge and support, the same to be recovered in an action at law by the proper officers of the respective institutions, in the corporate name of the institution; and the said Commission of Control, by such rules and regulations as it may determine, may apportion such cost and maintenance to the State and to the patient as aforesaid, to his estate and those liable for his support; but in no case shall any person be denied admission to a State hospital for the insane or be removed therefrom on account of his or her being a poor or an indigent person, or by reason of the failure of any person to comply with any of the rules and regulations so prescribed by the said Commission of Control. The cost and charges for the care and maintenance of poor and indigent patients in said hospitals for the insane, shall be governed by the laws of this State heretofore in force and hereafter to be passed.

Sec. 34. *Private Institutions for the Insane.*—No person, association or corporation shall establish or keep an institution for the care, custody or treatment of the insane, for compensation or hire, without first obtaining a license therefor from the commission. Every application for such license shall be accompanied by a plan of the premises proposed to be occupied, describing the capacities of the buildings for the uses intended, the extent and location of ground appurtenant thereto, and the number of patients proposed to be received therein, with such other information and in such form as the commission may require. The commission shall not grant any such license without first having made an examination of the premises proposed to be licensed, and being satisfied that they are substantially as described, and are otherwise fit and suitable for the purposes for which they are designed to be used, and that such license should be granted. The Commission may, at any and all times, examine and ascertain how far a licensed institution is conducted in compliance with the license therefor, and after due notice to the institution and opportunity for it to be heard, the commission having made a record of the proceeding upon such hearing, may, if the interests of the inmates of the institution so demand, for just and reasonable cause then appearing and to be stated in its order, amend or revoke any such license by an order to take effect within such time after the service thereof upon the licensee, as the commission shall determine.

Sec. 35. *Recommendations of Commission.*—The authorities of each institution for the insane shall place on file in the office of the institution, the recommendations made by the commissioners as a result of their visits, for the purpose of consultation by such authorities, and for reference by the commissioners upon their visits.

Sec. 36. *Acquisition of Property for Use of State Hospitals by Condemnation and Otherwise.*—The State Commission of Control may acquire, under the condemnation law, such real estate, right or interest therein as may be necessary for the construction, maintenance and accommodation of a State hospital, if unable to agree with the owner thereof for its purchase. The proceedings for the purpose of acquiring such real estate, right or interest therein, shall be instituted and maintained in the name of the People of the State of Illinois, by the Attorney General or by such counsel as the Governor or Attorney General may designate for that purpose, upon the certificate of such commission as to the necessity of acquiring such real estate, right or interest therein, approved and endorsed by the Governor. The commission may acquire and hold in the name of and for the People of the State of Illinois, by grant, gift, devise or bequest, property to be applied to the maintenance of insane persons in and for the general use of a hospital.

Sec. 37. *Erection, Alteration, Repairs and Improvements of State Hospital Buildings.*—All plans and specifications for the erection, alteration, repairs and improvements of State hospital buildings shall be prepared by the State Architect, but the supervising engineer of the State Commission of Control may, when directed by the commission prepare plans and specifications for the installation, alteration, repairs and improvements of the mechanical appliances and fixtures in the existing State hospitals, which, before adoption, shall be approved by the State Architect. The State Commission of Control shall adopt or reject any such plans or specifications and no such work shall be begun until the plans and specifications therefor have been adopted, but before the adoption thereof the commission shall submit the same to the board of managers of such hospital, and shall allow such board a period of not less than fifteen, and not more than sixty days, in which to submit a statement of their opinions and suggestions in regard thereto. Contracts for such erection, alteration, repairs and improvements may be let by the commission, subject to the approval of the Governor and State Auditor, for the whole or any part of the work to be performed, and in the discretion of the commission such contracts may be sublet. Special orders for such work in amounts less than one thousand dollars may be issued by the State Architect upon authorization by the commission. The commission shall determine to what extent and for what length of time advertisements are to be inserted in newspapers for proposals for the erection, alteration, repairs or improvements of State hospital buildings. A preliminary deposit or certified check drawn upon some legally incorporated bank in this State shall in all cases be required as an evidence of good faith upon all proposals for buildings, alterations, repairs or improvements, to be deposited with the treasurer of the hospital for which the work is to be performed, in an amount to be determined by the State Architect, but work done by special orders in an amount less than one thousand dollars need have no such deposit or check, provided payment is to be made only after the work is completed and approved. All contracts in an amount greater than one thousand dollars shall have the performance thereof secured by a sufficient bond or bonds to be approved by and filed with the commission. The work or erection, alteration, repairs or improvements of any building or plant may be done by the employment of inmate or outside labor, either or both, and by the purchase of materials in the open market whenever in the opinion of the commission and State Architect such course shall be more advantageous to the State, but no compensation shall be allowed for the employment of inmate labor. Where money is appropriated for any specific purpose other than maintenance and the work, materials, furniture, apparatus or other supplies are not to be performed or purchased pursuant to contract or special order duly made therefor, such money shall be expended pursuant to special fund estimates made to the commission by the superintendent of the hospital for which such appropriation is made. The law governing the revision of estimates of the expense required for the State hospitals for the insane shall apply to such estimates, and when such work is to be performed in accordance with the plans and specifications prepared by the State Architect or is

to be paid for from appropriations for the erection, alteration, repairs or improvements of building or plant, such estimates shall also be subject to his approval. Except as above specified, all such work shall be done by contract or special order. The form of the contract or special order shall be prescribed by the State Architect. All payments on contracts or special orders shall be made on the certificate of the State Architect, approved by the commission, as the work progresses or the purchase of material is made, and upon bills duly certified. No item of an appropriation made for the performance of such work shall be available except for advertising, unless one or more contracts, special orders or special fund estimates shall first have been made for the completion of such work within the appropriation therefor. All contracts for the erection, alteration, repairs or improvements of hospitals shall contain a clause that the contract shall only be deemed executory to the extent of the moneys available, and no liability shall be incurred by the State beyond the moneys available for the purpose. If any appropriation be made for the erection, alteration, repairs or improvements of buildings or plant in an appropriation act specifying two or more objects for which the appropriation is made and any one of such objects shall have been accomplished for a sum less than the amount specified in the Act, the unexpended balance shall be applicable to the completion of any other work specified in the Act, provided that after due advertisement no bids shall have been received within the amount specifically appropriated therefor.

Sec. 38. *Streets and Railroads Through Hospital Lands.*—No public street or road for railroad or other purposes shall be opened through the lands of a State hospital, unless the Legislature by special law consents thereto.

Sec. 39. The commission may appoint agents, whose duty it shall be to secure from relatives and friends who are liable therefor, or who may be willing to assume the cost of support of any of the inmates of State hospitals as are being supported by the State re-imbursement in whole or in part of the money so expended. The compensation of each agent shall not exceed five dollars a day, and the necessary traveling and other incidental expenses incurred by him, to be approved by the State Auditor. The commission may fix a rate to be paid for the support of the inmates of State hospitals by relatives liable for such support or by those not liable for such support but willing to assume the cost thereof; but such rate shall be sufficient to cover a proper proportion of the cost of maintenance per capita (exclusive of cost of buildings, physicians' care and attendance and officers' salaries). The maintenance of any inmate of a State hospital, committed thereto upon a court order arising out of any criminal action or proceeding, shall be paid by the county from which such inmate was committed.

Sec. 40. *Liability for the Care and Support of the Insane Other Than the Poor and Indigent.*—The father, grandfather, mother, grandmother, children, grandchildren, brothers or sisters of an insane person, if of sufficient ability, and the conservator of his person and estate, if his estate is sufficient for the purpose, shall cause him to be properly and suitably cared for and maintained.

The costs and charges of the commitment and transfer of such insane person to a State hospital shall be paid by the conservator, or the father, grandfather, mother, grandmother, children, grandchildren, brothers or sisters of such person, to be recovered in an action brought in the name of the People by the commission, the hospital for the insane, by its corporate name, the county, or the overseer of the poor of the town where such insane person may be, but there shall be but one recovery for any sum due. In all claims of the State upon relatives liable for the support of a patient or upon moneys or property held by said patient, the State shall be deemed a preferred creditor.

Sec. 41. *Entries in Case Book.*—Every superintendent or other person in charge of an institution for the care and treatment of the insane shall, within three days after the reception of a patient, make, or cause to be made, a descriptive entry of such case in a book exclusively set apart for that purpose. He shall also make or cause to be made entries, from time to time,

of the mental state, bodily condition and medical treatment of such patient during the time such patient remains under his care, and in the event of the discharge or death of such person, he shall state in such book the circumstances thereof, and make such other entries at such intervals of time and in such form as may be required by the commission.

Sec. 42. *Transfer of Patients When Hospital is Overcrowded.*—When the building of any State hospital shall become overcrowded with patients, or the number of buildings shall be reduced by fire or other casualties or for other cause, the commission may, in its discretion, cause the transfer of patients therefrom, or direct that patients required to be sent thereto, be transferred to another State hospital, where they can be conveniently received, or make, in special emergencies, temporary provision for their care, preference to be given in such transfers to a hospital in an adjoining rather than in a remote district. The expenses of such transfer shall be chargeable to the State, and the bills for the same, when approved by the commission, shall be paid by the treasurer of the State, on the warrant of the State Auditor, out of any moneys provided for the support of the insane.

Sec. 43. *Investigation Into the Care and Treatment of the Insane.*—When the commission has reason to believe that any person adjudged insane is wrongfully deprived of his liberty, or is cruelly, negligently or improperly treated, or inadequate provision is made for his skilful medical care, proper supervision and safe keeping, it may ascertain the facts, or may order an investigation of the facts by one of its members. It, or the commissioner conducting the proceeding, may issue compulsory process for the attendance of witnesses and the production of papers, and exercise the powers conferred upon a master in chancery in the circuit court. If the commission deem it proper, it may issue an order, directed to any or all institutions, directing and providing for such remedy or treatment, or both, as shall be therein specified. If such order be just and reasonable, and be approved by three circuit judges sitting *en banc*, who may require a notice to be given of the application for such approval, it shall be binding upon any and all institutions and persons to which it is directed, and any willful disobedience of such order shall be a criminal contempt and punishable as such. Whenever the commission shall undertake an investigation into the general management and administration of any institution for the insane, it may give notice to the Attorney General of any such investigation, and the Attorney General shall appear personally or by deputy and examine witnesses who may be in attendance. The commission, or any member thereof, may at any time visit and examine the inmates of any county or city almshouse, to ascertain if insane persons are kept therein.

Sec. 44. *Habeas Corpus.*—Any one in custody as an insane person is entitled to a writ of habeas corpus upon a proper application made by him or some friend in his behalf. Upon the return of such writ, the fact of his insanity shall be inquired into and determined. The medical history of the patient, as it appears in the case book, shall be given in evidence, and the superintendent or medical officer in charge of the institution wherein such person is held in custody, and any proper person, shall be sworn, touching the mental condition of such person.

Sec. 45. *Discharge of Patients.*—The superintendent of a State hospital, on filing his written certificate with the commission, may discharge any patient, except one held upon an order of a court or judge having criminal jurisdiction in an action or proceeding arising out of a criminal offense at any time, as follows:

1. A patient who, in his judgment, is recovered.

- 1a. A person who, in his opinion, is not insane, including dotards.

2. Any patient who is not recovered but whose discharge, in the judgment of the superintendent, will not be detrimental to the public welfare, or injurious to the patient: *Provided, however,* That before making such certificate, the superintendent shall satisfy himself, by sufficient proof, that friends or relatives of the patient are willing and financially able to receive and properly care for such patient after his discharge.

The superintendent may grant a parole to a patient, not exceeding thirty days, under general conditions prescribed by the commission.

A poor and indigent patient discharged by the superintendent because he is an idiot, or a dotard, not insane, or an epileptic, not insane, or because he is not a proper case for treatment within the meaning of this chapter, shall be received and cared for, by the superintendent of the poor or other authority having similar power, in the county from which he was committed. A patient held upon an order of a court or judge having criminal jurisdiction, in an action or proceeding arising from a criminal offense, may be discharged upon the superintendent's certificate of recovery, approved by any such court or judge.

Sec. 46. *Clothing and Money to be Furnished Discharged Patients.*—No patient shall be discharged from a State hospital without suitable clothing adapted to the season in which he is discharged; and if it can not be otherwise obtained, the steward shall, upon the order of the superintendent, furnish the same, and money, not exceeding twenty-five dollars, to defray his necessary expenses until he can reach his relatives or friends, or find employment to earn a subsistence.

Sec. 47. *Transfer of Non-Resident Patients.*—If an order be issued by any judge, committing to a State hospital a poor or indigent person, who has not acquired a legal settlement in this State, the Commission of Control shall return such insane person, either before or after his admission to a State hospital, to the country or State to which he belongs, and for such purposes may expend so much of the money appropriated for the care of the insane as may be necessary, subject to the audit of the State Auditor.

Sec. 48. *Sale of Unclaimed Personal Property of Discharged or Deceased Patients.*—All articles of personal property belonging to a discharged or deceased patient of a State hospital for the insane and in the custody of the superintendent or other proper officer of such hospital, may, if unclaimed by such discharged patient, or the legal representatives of such deceased patient, for a period of six months after the discharge or decrease of such patient, be sold at public auction in such manner and after such notice or advertisement as the commission shall prescribe, and the proceeds of such sale shall be paid into the amusement fund of such hospital.

Sec. 49. The Illinois Asylum for Insane Criminals, as constituted and established under an Act entitled, "An Act to provide for the location, erection, organization and management of an asylum for insane criminals, and making an appropriation for the construction of necessary buildings," approved June 1, 1889, in force July 1, 1889, is hereby declared to be under the jurisdiction of said Commission of Control, when established, and the same is to be controlled and managed by the provisions of this Act, the Commission of Control, a board of managers, consisting of seven members as herein provided, and subject to all the provisions of this Act, in the management and purchase of supplies for the said institution and the making of reports; but nothing herein contained shall be construed to amend or repeal sections six, seven, eight, nine, ten and eleven of the Act in this section referred to and establishing the said Illinois Asylum for Insane Criminals.

Sec. 50. The cost of the care and maintenance of persons so committed to the said Illinois Asylum for Insane Criminals shall be defrayed in the manner now provided for by law, out of the treasury of the State of Illinois; but in the superintendence of the said institution and the expenditure of said moneys, the same shall be fully under the management and control of the Commission of Control and a board of managers, as provided for in this Act.

chief of police or any captain or lieutenant or sergeant of police of the city of Chicago, or any deputy clerk designated for that purpose by an order signed by a majority of the judges of the municipal court, shall have power to let such person to bail. The bail bond in any criminal case in which the punishment may be otherwise than by fine, shall be conditioned for the personal appearance of the person arrested before some branch court at a time fixed in said bond for such personal appearance, and from day to day thereafter until the final judgment or order of the court. In quasi-criminal cases and in criminal cases in which the punishment may be by fine only, the bail bond shall be conditioned for the personal appearance of the person arrested before some branch court at a time fixed in said bond for such personal appearance and from day to day thereafter until the final judgment or order of the court, and in default of such personal appearance for the immediate payment of any judgment that may be rendered in said case. Any bond so taken shall be signed by one or more sureties to be approved by such judge or officer, who shall be authorized and required to administer oaths for the purpose of ascertaining the sufficiency of the sureties. All bonds so taken shall be filed with the clerk of the municipal court at the branch court at which the person so arrested is required to appear. The exercise of the power hereby conferred of letting to bail shall be subject to regulations by such rules as may be adopted by a majority of the judges of the municipal court, as herein provided. But any person so arrested shall have the right to be brought immediately before the municipal court in the district in which he is arrested; or, if there be no judge then in attendance upon such court, before the municipal court in any other district at which there may be then a judge in attendance, to be dealt with by such court according to law. The court may by rule provide that any defendant arrested in any criminal case in which the punishment is by fine or imprisonment otherwise than in the penitentiary, or in any quasi-criminal case, in lieu of giving bail for his personal appearance, may deposit with the clerk or with the police officer letting such person to bail, to be by such police officer paid over to the clerk within twenty-four hours after such deposit is made, such sums of money as the court may deem sufficient to secure his personal appearance at the time or times fixed therefor, such sum to be forfeited and paid into the city treasury in case such defendant shall fail to appear in person at the time or times so fixed; except that in quasi-criminal cases and criminal cases in which the punishment may be by fine only, the judgment and costs shall be deducted from such cash deposit, and the balance returned to the person depositing same. If upon an application made at any time within thirty days after any forfeiture provided for in this section such defendant shall prove to the satisfaction of the court that his failure to so appear was the result of serious illness, or other unavoidable accident, the court may, by order, set aside such forfeiture. Other proceedings for the forfeiture of recognizances and bail bonds in criminal and quasi-criminal cases shall be the same, as near as may be, as provided for the forfeiture of recognizances and bail bonds in criminal cases in the criminal court of Cook county.

By adding the following amend section 50a to read as follows:

Section 50a. The practice and proceedings in the municipal court in bastardy cases shall be as follows:

First—Whenever an unmarried woman, who shall be pregnant or delivered of a child, which by law would be deemed a bastard, shall file in the municipal court, if she be pregnant, or so delivered in the city of Chicago, or the person accused be found in said city of Chicago, her complaint in writing, under oath or affirmation, accusing a person of being the father of such child, the court shall order a warrant to issue against the person so accused and cause him to be brought forthwith before the court.

Second—Such warrant shall be issued to the bailiff and to all sheriffs, coroners and constables in the State of Illinois and may be executed by any officer in any county.

Third—If, upon the appearance of the defendant in any bastardy case, the woman be not delivered, and the probable date of the delivery is thirty

days or more after the appearance of the defendant as aforesaid, it shall be the duty of the court to examine the woman upon oath or affirmation in the presence of the man alleged to be the father of the child, touching the charge against him. The defendant shall have the right to controvert such charge, and evidence may be heard as in case of trial before the county court. If the court shall be of the opinion that sufficient cause appears, it shall be the duty of the court to bind the person so accused in recognizance with sufficient security, to appear before said court at a time after the probable date of the birth of the child to which said cause may be continued, to answer to said charge. On neglect or refusal to enter into a recognizance with security, the court shall cause such person to be committed to the jail of the county of Cook, there to be held to answer to the complaint. If, at the time to which said cause may be continued said child be not born, or the mother be unable to attend court, said cause shall be further continued until she is able, and any recognizance entered into by the defendant to secure his appearance shall stand until the final disposition of the cause. After the birth of the child the court shall cause an issue to be made up whether the person charged as aforesaid is the real father of the child or not, which issue shall be tried by a jury, unless the parties shall elect to waive a trial by jury, in which case the issue shall be tried by the court without a jury.

Fourth—Pending the trial of such issue, and the final disposition of the matter, if the defendant shall not have given bond as aforesaid prior to such delivery the court shall require the defendant to enter into a recognizance, in such an amount and with such sureties as the court may deem just, for the appearance of the defendant from day to day until the entry of the final judgment.

Fifth—All further proceedings in the case shall be the same, as near as may be, as are provided by law for similar cases in the criminal court of Cook county.

Sixth—The practice in cases of appeals from and writs of error to the municipal court in bastardy cases shall be the same, as near as may be, as is in this Act provided for cases of the first class, such appeals to be taken to and such writs of error to be sued out from the appellate court of the first district.

By adding the following:

Section 50e. Amend by striking out all of said bill after the enacting clause and inserting the following: "That section 19 of an Act entitled, 'An Act in regard to roads and bridges in counties under township organization, and to repeal an Act and parts of Acts therein named,' approved June 23, 1883, in force July 1, 1883, as amended by Act approved June 17, 1891, in force July 1, 1891, be and the same is hereby amended to read as follows:

Sec. 19. WHEN COUNTY BOARD MAY AID TOWN IN CONSTRUCTION OF A BRIDGE.]—When it is necessary to construct or repair any bridge over a stream, or any approach or approaches thereto, by means of an embankment or trestle work on a public road, in any town or on or near to or across a town line, in which work the town is wholly or in part responsible, and the cost of which will be more than twenty cents on the one hundred dollars on the latest assessment roll, and the levy of the road and bridge tax for two years last past in said town was in each year for the full amount of forty cents on each one hundred dollars allowed by law for the commissioners to raise, the major part of which is needed for the ordinary repair of roads and bridges, the commissioners may petition the county board for aid, and if the foregoing facts shall appear, the county board shall appropriate from the county treasury a sum sufficient to meet one-half the expenses of the said bridge or other work, on condition the town asking aid shall furnish the other half of the required amount; *Provided*, that said commissioners shall, when it is determined by them that they will ask said county aid, as provided for in this section, and before any contract for work or material or any other expense may have been entered into, present their said petition to the county board, if it shall be in session, and if it shall not be in session, to the chairman of said county board, whereupon said county board or the chairman thereof, as the case may be, shall appoint three members of said board, none of whom shall reside in the town asking aid as aforesaid, to represent the county in said matter, and said supervisors, when so appointed and notified, shall meet said commissioners at time and place to be selected by said commissioners, and the commissioners and supervisors shall organize by electing one of their members chairman, and said commissioners and supervisors shall make all contracts in manner provided by law for work, material and other expenses necessary for the construction or repairing of said bridge, or approach or approaches thereto, a majority of said commissioners and three supervisors being necessary to make any contract or incur any expense.

J. H. PADDUCK,
Secretary of the Senate.

The foregoing messages reporting Senate amendments to House Bill numbered 672 and 14, were ordered to lie on the Speaker's table.

A message from the Senate by Mr. Osgood, Assistant Secretary:

Mr. Speaker—I am directed to inform the House of Representatives that the Senate has refused to concur with them in the adoption of their amendments to a bill of the following title:

SENATE BILL No. 448.

A bill for "An Act to revise the laws relating to charities."
Which amendments are as follows:

AMENDMENT No. 1.

Amend Senate Bill No. 448 by striking out the title of said bill and inserting in lieu thereof the following:

A bill for an Act to regulate the State charitable institutions and to repeal certain Acts.

AMENDMENT No. 2.

Amend Senate Bill No. 448 by striking out all after the enacting clause and inserting in lieu thereof the following:

When used in this chapter, the term "poor person" means a person who is unable to maintain himself and having no one legally liable and able to maintain him; the term an "indigent person" means one who has not sufficient property to support himself while insane, and the members of his family lawfully dependent upon him for support; the term "institution" means any hospital, asylum, building, buildings, house or retreat authorized by law to have the care, treatment or custody of the insane; the term "commission" means the State Commission of Control; the term "patient" means an insane person committed to an institution according to the provisions of this chapter.

Sec. 2. APPOINTMENT, QUALIFICATIONS, TERMS OF OFFICE AND SALARIES OF COMMISSIONERS.] There shall be a State Commission of Control, consisting of five (5) commissioners, all of whom shall be citizens of this State, all of whom shall devote their entire time to the duties of their office. Two of them shall be reputable physicians, graduates of an incorporated medical college of at least ten years' experience in the actual practice of their profession, who have had five years' actual experience in the care and treatment of the insane, and who have had experience in the management of institutions for the insane. One of such commissioners shall be a reputable attorney and counsellor-at-law of the courts of this State, of not less than ten years' standing. The other two commissioners shall be reputable citizens. The president of the commission shall receive an annual salary of seven thousand five hundred dollars, and twelve hundred dollars in lieu of his traveling and incidental expenses, payable monthly. Each of the other commissioners shall receive an annual salary of five thousand dollars, and twelve hundred dollars in lieu of his traveling and incidental ex-

penses payable monthly. The commissioners, when appointed, shall determine by lot the length of their respective terms, one of them retiring at the end of each year, and the member having the shortest term to serve shall be the president of said commission; and thereafter one commissioner shall be appointed each year for the regular term of five (5) years. A commissioner may be removed by the Governor for cause, stated in writing, after an opportunity has been given him to be heard thereon. The full term of office of a commissioner shall be five (5) years. Where the term of office of a commissioner other than the president expires at a time other than the last day of September, the term of office of his successor is abridged so as to expire on the last day of September preceding the time when such term would otherwise expire, and the term of office of each such commissioner thereafter appointed shall begin on the first day of October. The commissioners shall be appointed by the Governor, by and with the advice and consent of the Senate; but not more than three members of the said commission shall belong to or be affiliated with the same political party.

Sec. 3. OFFICE AND CLERICAL FORCE OF COMMISSION; MEDICAL INSPECTOR.] The commission shall be provided by the proper authorities with a suitably furnished office in the State capitol, where it shall hold stated meetings at least once in three months. It may hold other meetings, at such office or elsewhere, as it may deem necessary. It may employ a secretary, a stenographer and such other employes as may be necessary. The salaries and reasonable expenses of the commission and of the necessary clerical assistants shall be paid by the Treasurer of the State on the warrant of the Auditor, out of any moneys appropriated for the support of the insane.

The State Commission of Control may also appoint a medical inspector who shall be a well educated physician, a graduate of an incorporated medical college, and who shall have had actual experience in an institution for the care and treatment of the insane. Such inspector shall receive an annual salary to be fixed by the commission, subject to the approval in writing of the Governor, not to exceed five thousand dollars, and all his actual and necessary traveling expenses incurred by him in the performance of his duties, which shall be audited and paid in the same manner as the other expenses of the commission. He shall subject to the direction of the commission, visit and inspect the several State hospitals and other institutions for the insane which are subject to the supervision, visitation and inspection of the commission. He shall, subject to the direction of the commission, make an examination, so far as circumstances may permit, of the patients confined in such hospitals and institutions, especially those admitted thereto since his preceding visit, giving such as may request it suitable opportunity to converse with him apart from the officers and attendants. He shall perform such other duties as may be prescribed and directed by the commission.

Sec. 4. OFFICIAL SEAL AND EXECUTION OF PAPERS.] The commission shall have an official seal. Every process, order or other paper issued or executed by the commission, may, by the direction of the commission, be attested, under its seal, by its secretary or by any member of the commission, and when so attested shall be deemed to be duly executed by the commission.

Sec. 5. GENERAL POWERS.] The commission is charged with the execution of the laws relating to the custody, care and treatment of the insane, including feeble-minded persons and epileptics as such and idiots and the inmates of the other State charitable institutions in this State. They shall examine all institutions, public and private, and those authorized by law to receive and care for the insane, and inquire into their methods of government and the management of all such persons therein. They shall examine into the condition of all buildings, grounds and other property connected with any such institution, and into all matters relating to its management. For such purpose each commissioner shall have free access to the grounds, buildings and all books and papers relating to any such institution. All persons connected with any such institution shall give such information, and afford such facilities for any such examination or inquiry as the commissioners may require. The commission may, by order, appoint a competent person

to examine the books, papers and accounts, and also into the general condition and management of any institution to the extent deemed necessary and specified in the order.

Sec. 6. GENERAL POWERS AS TO STATE HOSPITALS.] The commission shall subject to the powers hereinafter granted to boards of managers:

1. Have the general oversight of the State hospitals, and the control of all the property thereof, and shall see that the purposes of such hospitals are carried into effect by the boards of managers according to law.

2. Accept and hold in behalf of the State, if for the public interest, a grant, gift, devise or bequest, of money or property, to the State of Illinois, to the Commission of Control, or to any State hospital or the managers thereof, heretofore or hereafter made in trust for the maintenance or support of an insane person or persons in a State hospital or hospitals, or for any other legitimate purpose connected with any such hospital or hospitals. The commission shall cause each said gift, grant, devise or bequest to be kept as a distinct fund, and shall invest the same in the manner provided by the laws of this State as the same now exist, or shall hereafter be enacted, relating to securities in which the deposits in savings banks may be invested. But the commission may, in its discretion, deposit in a proper trust company or savings bank, during the continuance of the trust, any fund so left in trust for the life of a single person, and shall adopt rules and regulations governing the deposit, transfer or withdrawal of such fund. The commission shall, on the expiration of any trust as provided in any instrument creating the same, dispose of the fund thereby created in the manner provided in such instrument. The commission shall include in its annual report a statement showing what funds are so held by it and the condition thereof.

Sec. 7. OFFICIAL VISITS.] The commission, or a majority thereof, shall visit every such State hospital jointly or by a majority of the commission, and every such private institution by one member of the commission at least twice in each calendar year. Such visits shall be made on such days and at such hours of the day or night, and for such length of time, as the visiting commissioner may choose. But each commissioner may make such other visits as he or the commission may deem necessary. Each visit shall include, to the fullest extent deemed necessary, an inspection of every part of each institution, and all the out-houses, places, buildings and grounds belonging thereto or used in connection therewith. The commissioners shall, from time to time, make an examination of all the records and methods of administration, the general and special dietary, the stores and methods of supply, and, as far as circumstances may permit, of every patient confined therein, especially those admitted since the preceding visit, giving such as may require it suitable opportunity to converse with the commissioners apart from the officers and attendants. They shall, as far as they deem necessary, examine the officers, attendants and other employes, and make such inquiries as will determine their fitness for their respective duties. At the next regular or special meeting of the commission, after any such visit, the visiting commissioners shall report the result thereof, with such recommendations for the better management or improvement of any institutions as they may deem necessary. But such recommendations shall not be contrary to the doctrines of the particular school of medicine adopted by such institutions. The commissioners shall, at least once each year, at a time to be appointed by the commission, meet the managers of such institutions, or as many of the number as practicable, in conference, and consider in detail all questions of management and improvement of the institution, and they, or one or more of them, with the managers, shall inspect the institution, or such parts thereof as they may deem necessary, and shall also send to the managers, in writing, if approved by a majority of the commissioners, such recommendations in regard to the management and improvement of the institution as they may deem necessary or desirable.

Sec. 7a. VISITATION AND INSPECTION OF CERTAIN INSTITUTIONS.] Any member of the commission or the medical inspector may visit any sanitarium or other institution, wherein sick or infirm persons are received, cared for or treated, for compensation or hire, for the purpose of ascertaining whether

insane persons are confined therein without authority, and contrary to the provisions of law. All persons having charge of, and connected with any such sanitarium or institution shall permit any member of the commission and the medical inspector to have free access to any portion thereof, and shall give such information and afford such facilities for inspection or inquiry as the member of the commission or the medical inspector making such visit and inspection may require.

Sec. 8. REGULATIONS AND FORMS.]. The commission shall make such regulations in regard to the correspondence of the insane in custody as in its judgment will promote their interests, and it shall be the duty of the proper authorities of each institution to comply with and enforce such rules and regulations. All such insane shall be allowed to correspond, without restriction, with the county judge and district attorney of the county from which they were committed. The books of record and blank forms for the official use of the hospitals shall be uniform, and shall be approved by the commission.

Sec. 9. ANNUAL REPORT.]. The commission shall, annually, report to the Legislature its acts and proceedings for the year ending September thirtieth last preceding, with such facts in regard to the management of the institutions for the insane as it may deem necessary for the information of the Legislature, including estimates of the amounts required for the use of the State hospitals and the reasons therefor; and also the annual reports made to the commission by the board of managers of each State hospital and other State, public or private institutions. The commission shall determine from time to time the capacity of each of the State hospitals and shall incorporate a statement of such capacity in its annual report to the Legislature.

Sec. 10. STATE HOSPITAL DISTRICTS; HOW DEFINED.]. The State Commission of Control shall divide the State into as many State hospital districts as there are State hospitals. No county shall be divided into such classification, unless the same contains over one hundred thousand population. Whenever the commission shall deem it necessary to more conveniently care for the insane in the various hospitals, it may change the limits of such hospital districts. When a new State hospital shall be established, it shall again divide the State into hospital districts. Before any change or re-establishment of hospital districts shall be made, the board of managers of each hospital to be affected thereby shall be notified by the commission that they may be heard in regard thereto, at a time and place to be specified in said notice. Such hospital districts shall be so defined that the number of patients in each district shall be in proportion as nearly as practicable, to the accommodations which are or may be provided by the State hospital or hospitals within such district.

Sec. 11. CHANGE OF HOSPITAL DISTRICTS AND RE-ASSIGNMENT OF PATIENTS.]. When a change or re-establishment of State hospital districts shall be made, or a new State hospital district created, the commission shall make a report thereof, designating the counties included within each district affected thereby, and file the same with the Secretary of State, and send a copy to the managers and superintendent of each State hospital affected by such change, and to each judge of a court of record, each county superintendent of the poor, and each county clerk in the State, affected by such change, to be filed in his office.

Sec. 12. RECORD OF PATIENTS.]. The commission shall keep in its office, and accessible only to the commissioners, their secretary and clerk, except by the consent of the commission or one of its members, or an order of a court of record, a record showing:

1. The name, residence, sex, age, nativity, occupation, civil condition and date of commitment of every patient in custody in the several institutions for the care and treatment of insane persons in the State, and the name and residence of the person making the petition for commitment, and of the persons signing such medical certificate, and of the judge making the order of commitment.

2. The name of the institution where each patient is confined, the date of admission, and whether brought from home or another institution; and if from another institution, the name of such institution, by whom brought, and the patient's condition.

3. The date of the discharge of each patient from such institution since the first day of October, A. D. nineteen hundred and eight, whether recovered, improved or unimproved, and to whose care committed.

4. If transferred, for what cause, and to what institution; and if dead, the date and cause of death.

Sec. 13. INSTITUTION TO FURNISH INFORMATION TO COMMISSION.] The authorities of the several institutions for the insane shall furnish to the commission the facts mentioned in the last preceding section, and such other obtainable facts relating thereto as the commission may, from time to time, in the just and reasonable discharge of its duties, require of them, with the opinion of the superintendent thereon, if requested. The superintendent or person in charge of such institution, whether public or private, must, within ten days after the admission of an insane person thereto, cause a true copy of the medical certificate and order on which such person shall have been received to be made and forwarded to the office of the commission; and when a patient shall be discharged, transferred or shall die therein, such superintendent or person in charge shall, within three days thereafter, send the information to the office of the commission, in accordance with the forms prescribed by it.

Sec. 14. COMMISSION TO PROVIDE FOR THE PROSPECTIVE WANTS OF THE INSANE.] The commission shall provide sufficient accommodations for the prospective wants of the insane of the State. To prevent overcrowding in the State hospitals, it shall recommend to the Legislature the establishment of other State hospitals, in such parts of the State as in its judgment will best meet the requirements of such insane. It shall also furnish to the Legislature, in each year, an estimate of the probable number of patients who will become inmates of the respective State hospitals during the year beginning October first next ensuing, and the cost of all the additional buildings and equipments, if any, which will be required to carry out the provisions of this chapter relating to the care, custody and treatment of the insane of the State. No money shall be expended for the erection of additional buildings or for unusual repairs or improvements of State hospitals, except upon plans and specifications to be approved by the commission and the Governor. The cost of such buildings as are to be occupied by patients, erected on the grounds of existing State hospitals, including the necessary equipment for heating, lighting, ventilating, fixtures and furniture, shall, in no case, exceed the proportion of five hundred dollars per capita for the patients to be accommodated therein; except that for buildings specially designed and equipped for the active medical and general care and treatment of insane patients of the acute and curable class, the cost shall not exceed the proportion of one thousand dollars per capita for the patients to be accommodated therein. No municipality of the State shall have the power to modify or change plans or specifications for the erection, repair or improvement of State hospital buildings or the plumbing or sewerage connected therewith. The commission may secure a blanket policy of insurance covering any or all the buildings, property or fixtures of the State hospitals.

Sec. 15. DIRECTOR OF PATHOLOGICAL INSTITUTE.] The commission shall, after a special civil service examination therefor, appoint a director of the pathological institute, who shall perform, under the direction of the commission, such duties relating to pathological research as may be required for all of the State hospitals for the insane. His office and laboratory shall be in the city of Chicago. He shall receive an annual salary to be fixed by the commission, subject to the approval of the Governor. The State hospitals shall coöperate with the pathological institute in such manner as the commission may from time to time direct.

Sec. 16. STATE HOSPITALS FOR THE INSANE.—There shall continue to be the following hospitals for the care and treatment of the insane of the State, which are hereby declared to be corporations:

Sec. 17. MANAGERS AT STATE HOSPITALS AND THEIR TERMS OF OFFICE.]—Each State hospital shall be under the control and management of a board of managers, subject to the statutory powers of the commission. On or after the first of October, nineteen hundred and nine, the Governor shall appoint a board, consisting of seven (7) members, not more than four (4) of whom shall belong to or be affiliated with the same political party. He shall so arrange their terms of office of one, two, three, four, five, six and seven years that a term shall expire on the thirtieth day of September in each year, beginning with the year nineteen hundred and ten. After the expiration of such terms, managers shall be appointed for terms of seven years. If a vacancy occur otherwise than by expiration of term, the appointment of manager to fill such vacancy shall be for the unexpired term of the manager whose office became vacant.

Sec. 18. APPOINTMENT AND REMOVAL OF MANAGERS.]—The members of the boards of managers shall be appointed by the Governor, by and with the advice and consent of the Senate, as often as a vacancy shall occur by expiration of term, or otherwise; and they may severally continue in office until their successors are appointed and have qualified; and they shall be subject to removal by the Governor after having been notified in writing of the reasons for the proposed removal, and having been given an opportunity to be heard. All managers shall reside in the hospital district in which the hospital is situated for which they are respectively appointed. No person shall be eligible to the office of manager who is either an elective State officer or a member of the Legislature, and if any such manager, shall become a member of the Legislature or an elective State officer, his office as manager shall thereupon be vacant. If any manager fails for a period of six months to attend the regular meetings of the board of which he is a member, the secretary of the board shall notify the Governor of such absence, with any explanation thereof which may be submitted by such manager, and unless the Governor shall, within thirty days thereafter, notify the secretary that he has excused such manager for such absence, the office of such manager shall thereupon be deemed to be vacant; and if any manager fails for one year to attend such regular meetings, his office shall become vacant. When any such vacancy shall occur, the board, by resolution, shall so declare, and a certified copy of such resolution shall forthwith be transmitted by the board to the commission and to the Governor. In the month of January of each year the secretary of the board of managers shall transmit to the Governor a statement showing the record of attendance of each manager at meetings of the board, the number and dates of visits to the hospital, with a statement of any other work for the hospital performed by such manager, which such manager may request to have transmitted to the Governor. The manager whose term is first to expire shall act as president of the board of managers of each institution.

Sec. 19. GENERAL POWERS AND DUTIES OF BOARD OF MANAGERS.]—Subject to the statutory powers of the commission, boards of managers shall have the general direction and control of all the property and internal affairs of the institutions for which they are respectively appointed, except as otherwise provided by law. A committee consisting of one member of each board of managers, or other representative designated by such board, shall establish by-laws, rules and regulations governing the appointment and duties of offi-

cers and employes of all the State hospitals, and for the internal government, discipline and management of the same, subject to the approval of the commission. Such by-laws, rules and regulations shall be uniform for all the State hospitals, and shall not be inconsistent with the provisions of this Act nor with the provisions of the civil service law and the rules and regulations established thereunder. The managers shall not receive any compensation for their services, but shall receive actual and necessary traveling and other expenses, to be paid after audit as other current expenditures of the hospital. Each board shall, in October of each year, elect from among its members a secretary. The superintendent shall personally submit, at each monthly meeting of the board of managers, a report showing changes in population, health of patients, officers and employes; accidents, suicides, unusual sickness, infectious diseases; important occurrences relating to the welfare of the patients and to the management and discipline of the employes, and such other matters as the board may specify. Each board shall:

1. Take care of the general interests of the hospital and see that its design is carried into effect, according to law, and the by-laws, rules and regulations made as above provided.

2. Maintain an effective inspection of the hospital, for which purpose the board, or a majority of its members, shall visit and inspect the hospital at least once each month. Each board shall make a written report to the commission and to the Governor within ten days after each inspection, such report to be signed by each member making the inspection. Such report shall state in detail the condition of the hospital and of its inmates, and such other matters pertaining to the management and affairs thereof as in the opinion of the board should be brought to the attention of the commission or the Governor, and may contain recommendations as to needed improvements in the hospital or in its management.

3. Keep in a book provided for that purpose a fair and full record of their doings, which shall be open at all times to the inspection of the Governor of the State, the commissioners of control, or any person appointed by the Governor, the commission of control or either house of the Legislature, to examine the same.

4. Hold regular meetings at least once each month, and cause to be typewritten within ten days after such meeting, the minutes and proceedings of such meeting, and cause a copy thereof to be sent forthwith to each member of such board, to the commission and to the Governor.

5. Enter in a book, kept at the hospital for that purpose, the date of each visit of each manager.

6. Make to the commission, in October of each year, a detailed report of the results of their visits and inspection, with suitable suggestions and such other matters as may be required of them by the commission, for the year ending on the thirtieth day of September preceding the date of such report. Such report shall be prepared by a committee of the board, subject to the approval of the board.

7. Investigate, hear and determine the truth of all charges made against the superintendent or other officer or employe of a hospital, issue subpoenas and take and hear testimony in respect to such charges. A witness attending before such board shall be entitled to the same fees as a witness attending before a court of record or a judge thereof, which shall be paid as other hospital charges. The resident officers shall admit such managers into every part of the hospital and its buildings, and exhibit to them, on demand, all the books, papers, accounts and writings belonging to the hospital, or pertaining to its business, management, discipline or government, and furnish copies, abstracts and reports whenever required by them.

Sec. 20. OFFICERS.]—The Commission of Control shall appoint, subject to the approval of the board of managers for each hospital, as often as a vacancy shall occur therein, a superintendent. Whenever a vacancy shall occur in the office of superintendent of any State hospital, the commission of control, with the approval of the board of managers of such hospital, may transfer to such position the superintendent of any other State hospital, and sub-

ject to the consent of the board of managers of such other State hospital. The superintendent shall be a well educated physician and a graduate of an incorporated medical college, of at least five years' actual experience in an institution for the care and treatment of the insane. Each superintendent shall be the treasurer of the State hospital for which he is appointed, unless the commission shall designate a person to act as treasurer as hereinafter provided, and before entering upon his duties as such treasurer shall file with the State Auditor his undertaking to the people, in an amount and with sureties to be approved by the State Auditor, to the effect that he will faithfully perform his trust as such treasurer. The superintendent may be removed by a vote of a majority of the board of managers, for cause stated in writing, and after an opportunity has been given him to be heard thereon, and such action, when approved by the commission, shall be final. Pending the investigation of any charges against a superintendent, and the decision thereon, the board of managers may suspend such superintendent. The commission may prefer charges of misconduct or incompetency against any superintendent to the board of managers of the hospital of which he is superintendent, and the board shall thereupon investigate the truth of such charges. On the first day of October, nineteen hundred and eight, the office of treasurer in each of the State hospitals shall be abolished, and their powers and duties may be conferred upon the superintendent, or the commission may designate a person in its office to act as treasurer for all the hospitals, who shall have the powers and perform the duties of treasurer as to such hospital, as prescribed in this chapter, and shall perform such other duties as the commission may impose. The person so designated, before entering upon the performance of his duties as such treasurer, shall file with the State Auditor his undertaking, in an amount and with sureties to be approved by him, to the effect that he will faithfully perform his trust as such treasurer. A superintendent in office on the first day of October, nineteen hundred and nine, shall be continued in office until removed pursuant to law, notwithstanding the change hereby made in the manner of his appointment.

SEC. 21. GENERAL POWERS AND DUTIES OF SUPERINTENDENTS.] The superintendent of each hospital shall be its chief executive officer, and in his absence or sickness, the first assistant physician or other officer designated by the superintendent, shall perform the duties, exercise the powers, and be subject to the responsibilities of the superintendent. Subject to the by-laws and regulations established by the commission and the managers under the provisions of this Act, the superintendent shall have general superintendence of the buildings, grounds and farm, together with their furniture, fixtures and stock, and the direction and control of all persons therein, and subject to such by-laws and regulations, shall:

1. Personally maintain an effective supervision and inspection of all parts of the hospital and generally direct the care and treatment of the patients. To this end the superintendent shall personally examine the condition of each patient within five days after his admission to the hospital, and shall regularly visit all of the wards or apartments for patients at such times as the rules and regulations of the hospital shall prescribe.

2. Appoint such resident officers, including a woman physician and such employes as he may think proper and necessary for the economical and efficient performance of the business of the hospital and prescribe their duties, and for cause stated in writing, after an opportunity to be heard, discharge any of such employes in his discretion, but an appointment of a steward by such superintendent shall be approved by the commission before taking effect and such steward shall not be removed without the consent in writing of the commission. The number of such resident officers and employes shall be determined, from time to time, by the commission. The commission may, with the approval of the Governor, abolish the office of any of such resident officer or employes. The superintendent may remove any resident officer for cause stated in writing, after an opportunity to be

heard, and such action shall be final. Upon any such removal he shall make a record thereof, with the reasons therefor, under the appropriate head in one of the books of the hospital.

The superintendent, assistant physicians, including the woman physician, steward and matron, shall constantly reside in the hospital, or on the premises, except as provided in this Act, and shall be designated the resident officers of the hospital. 4. Designate hospital attendants or employés to act as special policemen, whose duty it shall be, under the orders of the superintendent, to arrest and return to the hospital insane persons who may escape therefrom, and to preserve peace and good order in such hospital and to fully protect the grounds, buildings and patients. Such attendants and employés acting as policemen shall possess all the powers of peace officers on the grounds and premises of such hospital and to the extent of one hundred yards beyond such grounds. The designation of such attendants and employés as special policemen, in pursuance hereof, shall not be deemed to supersede, on the grounds and premises of such hospital, the authority of peace officers of the jurisdiction within which such hospital is located.

5. Give such orders and instructions as he may deem best calculated to insure good conduct, fidelity and economy in every department of labor and expense.

6. Maintain salutary discipline among all who are employed in the institution and enforce strict compliance with his instructions and uniform obedience to all rules and regulations of the hospital.

7. Establish and supervise a training school for attendants and nurses, under rules and regulations of the hospital.

8. The superintendent shall hold at least two meetings weekly with the medical staff, at which the condition of patients, especially those recently admitted, shall be considered, and matters of medical service generally shall be given attention. The superintendent shall cause a complete clinical record to be made of each patient, to be kept in such form and to comprise such matters as the commission may direct.

9. Cause full and fair accounts and records of the entire business and operations of the hospital to be kept regularly, from day to day, in books provided for that purpose.

10. See that all such accounts and records are fully made up to the last day of September in each year, and that the principal facts and results, with his report thereon, be presented to the board of managers within thirty days thereafter, who shall incorporate it in their report to the commission. The commission may prescribe the form of and the subjects to be embraced in such reports. Such superintendent shall make other reports at such times, and in such manner and in respect to such matters as the board of managers or the commission may direct.

11. Keep a book, in which he shall cause to be entered at the time of reception of any patient, his name, residence and occupation, and the date of such reception, by whom brought and by what authority and on whose petition committed, and an abstract of all orders, warrants, requests, petitions, certificates and other papers accompanying such person.

Sec. 22. PURCHASING STEWARD FOR STATE INSTITUTIONS.] The office of purchasing steward for the several State hospitals for the insane and State charitable institutions is hereby established. The purchasing steward for such hospitals and other said State institutions shall be appointed by the commission, and may be removed by it for cause stated in writing, after an opportunity to be heard, and such action shall be final. Such purchasing steward shall make all purchases for each of such hospitals and other

said State institutions, in accordance with estimates made as provided by this chapter, after a requisition therefor, approved by the superintendent of the hospital for which such purchases are required. He shall visit the hospitals and other said State institutions for which he acts, from time to time and confer with the superintendents and resident stewards thereof as to the quantity, quality and price of supplies required therefor. He shall perform such other duties in respect to the purchase of supplies for such hospitals as may be prescribed by the commission. A resident steward for each of such hospitals and other said State institutions shall be appointed and shall possess all the powers and perform all the duties conferred or imposed upon stewards of State hospitals by this chapter, except as herein otherwise provided. Such purchasing steward shall have an office in the cities of Chicago, Springfield and East St. Louis, and may appoint such clerks and assistants as may be authorized by the commission. The salaries of such purchasing steward and of such clerks and assistants shall be fixed by the commission in the same manner as those of other officers and employés. Such salaries, together with the necessary office, traveling and other expenses of such purchasing steward, actually incurred by him in the performance of his duties, shall be paid by the hospitals for which he acts, to be apportioned by the commission.

Sec. 23. MEETINGS OF SUPERINTENDENTS.] The superintendents or other officers of the several State hospitals designated by them shall meet, at least once in every three months, upon the call of the commission, at the office of the commission at Springfield, or at such other place as may be designated by it, to consult with such commission with reference to matters relating to the care and operation of the State hospitals and particularly with reference to the care and treatment of the insane. Each board of managers may, in its discretion, send one of its members to such meetings.

Sec. 24. SALARIES OF OFFICERS AND WAGES OF EMPLOYEES.] The commission, from time to time, with the approval in writing of the Governor, Secretary of State and State Auditor, shall fix the annual salaries of the resident officers of the State hospitals, which shall be uniform for like service. They shall classify the other officers and employés into grades, and, except as provided by this chapter, shall determine the salaries and wages to be paid in each grade, which shall be uniform in all the hospitals. The salaries and wages shall be included in the estimates and paid in the same manner as other expenses of the State hospitals. Food supplies shall be allowed to officers and employés and the families of the superintendents, first assistant physicians and stewards. Such families shall consist only of the wives and minor children of such officers; no other persons, except those regularly employed, shall be allowed rooms and maintenance, except at a rate to be fixed by the commission; such supplies shall be drawn from the supplies provided for general hospital use. With the approval of the commission, officers or employés of State hospitals may be permitted to live outside of such hospitals, and shall receive such sums in lieu of the quarters or supplies furnished by the hospitals, as may be equitable.

Sec. 25. QUARTERLY ESTIMATES OF EXPENSES; EMERGENCY FUND.] The superintendent of each of the State hospitals and other said State institutions shall, once in each three months as the commission may determine, cause to be prepared triplicate estimates, in minute detail, of the expenses required for the hospital of which he is the superintendent, for the ensuing three months. He shall submit two of such triplicates to the commission and file the third copy in the office of the superintendent. The commission may revise estimates for supplies or other expenditures either as to quantity, quality, or the estimated cost thereof, and shall certify that it has carefully examined the same and that the articles contained in such estimates, as approved or revised by it, are actually required for the use of the hospital, and shall thereupon present such estimate and certificate to the State Auditor. Upon the revision and approval of such estimate by the commission, the State Auditor shall authorize the superintendent as treasurer, or such other officer as the commission may designate as provided in this chapter, to make drafts on the State Auditor, as the money may be required for the purposes

mentioned in such estimates, which drafts shall be paid on the warrant of the State Auditor, out of the funds in the treasury of the State held for the care of the insane and the maintenance of State hospitals. In every such estimate there shall be a sum named, not to exceed one thousand dollars, as an emergency fund for which no minute detailed statement need be made. No money shall be expended for the use of any of the State hospitals, except as provided in this section.

Any general expenses necessarily incurred by the commission for or on account of the State hospitals shall be apportioned to such hospitals on the basis of the number of patients, and included in the estimates of such hospitals, made as provided in this section under the direction of the commission.

Sec. 26. POWERS AND DUTIES OF SUPERINTENDENT AS TREASURER.] The superintendent as treasurer of such hospital, or such officer as may be designated as treasurer by the commission as provided in this chapter, shall, subject to the rules and regulations of the commission, pertaining to his duties as treasurer:

1. Have the custody of all moneys received from the State Treasurer on account of estimates made by the superintendent and revised and approved by the commission, and keep an accurate account thereof.

2. Have the custody of all bonds, notes, mortgages and other securities and obligations belonging to the hospital.

3. Receive all money for the care and treatment of private and reimbursing patients and other sources of revenue of the hospital; but where a designation of a person as treasurer is made as provided by this chapter, the steward shall receive all such money and transmit the same, once each week, to the person so designated as treasurer, and report the amount so transmitted to the superintendent.

4. Deposit all money received from the State Treasurer on account of estimates in a bank designated by the State Auditor, in his name, as treasurer, and send each month to the State Auditor and to the commission a statement showing the amount so received and deposited, and from whom and for what received, and when such deposits were made. Such statement of deposit shall be certified by the proper officer of the bank receiving such deposit. The superintendent, as treasurer, or other officer designated as treasurer by the commission, as provided in this chapter, shall make an affidavit to the effect that the sum so deposited is all the money received by him, from any source of hospital income, up to the time of the last deposit appearing on such statement. A bank designated by the State Auditor to receive such deposits shall, before any deposit is made, execute a bond to the people of the State in a sum approved by the State Auditor, for the safe keeping of the funds deposited.

5. Pay out the money deposited for the uses of the State hospital, upon the voucher of the steward; where a person has been designated as treasurer, as provided in this chapter, such voucher shall be countersigned by the superintendent.

6. Keep full and accurate accounts of all receipts and payments, in the manner and according to books and forms prescribed and furnished by the commission.

7. Balance all accounts on his books, annually, for the year ending on the last day of September, and make a statement thereof and an abstract of the receipts and payments of the past year and deliver the same, within thirty days, to the commission.

8. Render an account of the state of the books and the funds and other property in his custody, whenever required by the commission.

9. Execute a release and satisfaction of a mortgage, judgment or other lien or debt in favor of the hospital, when paid.

10. Receive all moneys for or on account of the sale of lands of the hospital of which he is treasurer.

Sec. 27. MONTHLY STATEMENTS OF RECEIPTS AND EXPENDITURES; VOUCHERS.] The superintendent as treasurer of each State hospital, or such other officer as may be designated as treasurer by the commission, as provided in this chapter, shall, on or before the fifteenth day of each month, make to the

State Auditor and to the commission a full and perfect statement of all the receipts and expenditures, specifying the several items, for the last preceding calendar month. Such statement shall be verified by the affidavit of the treasurer attached thereto, in the following form:

I,, treasurer of the State hospital, do solemnly aver that I have deposited in the bank designated by law for such purpose, all the moneys received by me on account of the hospital during the last month, and I do further swear that the foregoing is a true abstract of all the moneys received and payments made by me or under my direction as such treasurer during the month ending the..... day of, 190..

There shall also be forwarded to the commission the affidavit of the steward, to the effect that all goods and other articles for which vouchers are rendered were purchased and received by him, or under his direction, at the hospital; that the goods were purchased at a fair cash market price and paid for in cash, or on credit, not exceeding sixty days, and that he, or any person in his behalf, had no pecuniary or other interest in the articles purchased; that he received no pecuniary or other benefit therefrom in the way of commission, percentage, deductions or presents, or in any other manner whatever, directly or indirectly; that the articles for which vouchers are rendered were received at the hospital; that they were conformed in all respects to the invoiced goods received and ordered by him, both in quality and quantity. Such vouchers shall be examined by the commission and compared with the estimates made for the month for which the statement is rendered, and if found correct shall be endorsed and forwarded by the commission, with the statement to the State Auditor. If any voucher is found objectionable, the State Auditor shall endorse his disapproval thereon, with the reason therefor, and return it to the commission, who shall present it to the superintendent for correction, and when corrected return it to the State Auditor. All such vouchers shall be filed in the office of the State Auditor.

Sec. 28. ACTION TO RECOVER MONEYS DUE THE HOSPITAL.] The superintendent of any State hospital may bring an action in the name of the hospital, to recover for the use thereof:

1. The amount due upon any note or bond in his hands belonging to the hospital.
2. The amount charged and due, according to the by-laws of the hospital, for the support of any patient therein, or for actual disbursements made in his behalf for necessary clothing and traveling expenses. And to enforce any liability created by statute for the care and support of the insane.
3. Upon any cause of action accruing to the hospital.

Sec. 29. GENERAL POWERS AND DUTIES OF THE STEWARD.] The steward, under the direction of the superintendent, and subject to the rules and regulations of the hospital, shall be accountable for the careful keeping and economical use of all furniture, stores and other articles provided for the hospital and under the direction of the superintendent, and subject to such rules and regulations shall:

1. Make all purchases for the hospital, except as otherwise provided in this chapter, and preserve the original bills and receipts thereof, and keep full and accurate accounts of the same.
2. Prepare and keep the pay rolls of the hospital.
3. Keep the accounts for the support of patients and expenses incurred in their behalf, and furnish the treasurer statements thereof as they fall due.
4. Notify the treasurer of the death or discharge of any reimbursing or pay patient, within five days after such death or discharge.

Sec. 30. PURCHASES AND CONTRACTS.] All purchases of supplies for the use of the hospital shall be made for cash or on credit or time, not exceeding sixty days; every voucher shall be duly filled up, and with every abstract of vouchers paid, there shall be proof on oath that the voucher was properly filled up and the money paid. No expenditure for supplies or other purposes shall be made for the benefit of such hospital, by contract or otherwise, unless in conformity with the provisions of this Act in relation to estimates. No member of the commission, manager or officer of a hospital

shall be interested, directly or indirectly, in the furnishing of material, labor or supplies for the use of the hospital, nor shall any such manager or officer act as attorney or counsel for such hospital. Contracts subject to the approval of the commission shall be entered into jointly, by the stewards of the State hospitals, for such staple articles of supplies, as it may be found feasible by the commission to purchase for the use of the hospitals. Such contracts shall not be let except in conformity with the provisions of this Act relating to estimates. The State hospitals may manufacture such supplies and materials to be used in any of such hospitals as can be economically made therein. All goods for the use of the hospitals shall be bought, as far as practicable, of manufacturers and their immediate agents. All contracts, if let, shall, subject to the provisions of this Act relating to estimates, be awarded to the lowest responsible bidders. A member of the commission or an officer, manager or employé of a State hospital shall not receive a gift or reward for himself or the hospital from any person, firm or corporation dealing in goods, or supplies suitable or necessary for the use of the hospital. All purchases and contracts made and executed in pursuance of law, prior to October first, nineteen hundred and nine, shall thereafter be given full force and effect, notwithstanding the change in management of the State hospitals.

Sec. 31. OFFICIAL OATH.] Each superintendent and steward of a hospital, before entering upon his duties as such, shall take the constitutional oath of office and file the same in the office of the Secretary of State.

Sec. 32. ACTIONS AGAINST COMMISSIONERS OF CONTROL, MANAGERS OR OFFICERS OF STATE HOSPITALS.] No civil action shall be brought in any court against the commission or a commissioner of control, or any officer or manager of a State hospital, for alleged damages because of any act done or failure to perform any act, while discharging their official duties, without leave of a judge of the circuit court first had and obtained. Any just claim for damages against such commission or commissioner, officer, manager, or employé, for which the State would be legally or equitably liable, may be paid out of any moneys appropriated for the care of the insane.

Sec. 33. The Commissioners of Control are hereby vested with authority to fix and determine, by all proper rules and regulations, upon the sums and amounts to be charged for the care and maintenance of insane patients (other than poor and indigent patients); but such sums and charges are to be equal and like sums in all cases of adult patients, and are to be made and charged monthly, and in no case are to be in excess of the per capita charge or amount required to actually maintain and keep the patient in the hospital for the insane, to which the respective patients may be committed (exclusive of cost of buildings, physicians' care and attendance and officers' salaries); and upon such sums and amounts having been fixed by said commissioners, by proper rules and regulations in the respective hospitals for the insane, the same and the amount so fixed and determined by the said rules and regulations shall become a charge against the estate and property of such inmate (insane person) and the persons liable under the law of this State for their charge and support, the same to be recovered in an action at law by the proper officers of the respective institutions, in the corporate name of the institution; and the said Commission of Control, by such rules and regulations as it may determine, may apportion such cost and maintenance to the State and to the patient as aforesaid, to his estate and those liable for his support; but in no case shall any person be denied admission to a State hospital for the insane or be removed therefrom on account of his or her being a poor or an indigent person, or by reason of the failure of any person to comply with any of the rules and regulations so prescribed by the said Commission of Control. The cost and charges for the care and maintenance of poor and indigent patients in said hospitals for the insane shall be governed by the laws of this State heretofore in force and hereafter to be passed.

Sec. 34. PRIVATE INSTITUTIONS FOR THE INSANE.] No person, association or corporation shall establish or keep an institution for the care, custody or treatment of the insane, for compensation or hire, without first obtaining a

license therefor from the commission. Every application for such license shall be accompanied by a plan of the premises proposed to be occupied, describing the capacities of the buildings for the uses intended, the extent and location of ground appurtenant thereto, and the number of patients proposed to be received therein, with such other information, and in such form as the commission may require. The commission shall not grant any such license without first having made an examination of the premises proposed to be licensed, and being satisfied that they are substantially as described and are otherwise fit and suitable for the purposes for which they are designed to be used, and that such license should be granted. The commission may, at any and all times, examine and ascertain how far a licensed institution is conducted in compliance with the license therefor, and after due notice to the institution and opportunity for it to be heard, the commission having made a record of the proceedings upon such hearing, may, if the interests of the inmates of the institution so demand, for just and reasonable cause then appearing and to be stated in its order, amend or revoke any such license by an order to take effect within such time after the service thereof upon the licensee, as the commission shall determine.

Sec. 35. RECOMMENDATIONS OF COMMISSION.] The authorities of each institution for the insane shall place on file in the office of the institution, the recommendations made by the commissioners as a result of their visits, for the purpose of consultation by such authorities, and for reference by the commissioners upon their visits.

Sec. 36. ACQUISITION OF PROPERTY FOR USE OF STATE HOSPITALS BY CONDEMNATION AND OTHERWISE.] The State Commission of Control may acquire, under the condemnation law, such real estate, right or interest therein, as may be necessary for the construction, maintenance and accommodation of a State hospital, if unable to agree with the owner thereof for its purchase. The proceedings for the purpose of acquiring such real estate, right or interest therein, shall be instituted and maintained in the name of the People of the State of Illinois, by the Attorney General or by such counsel as the Governor or Attorney General may designate for that purpose, upon the certificate of such commission as to the necessity of acquiring such real estate, right, or interest therein, approved and endorsed by the Governor. The commission may acquire and hold in the name of and for the People of the State of Illinois, by grant, gift, devise or bequest, property to be applied to the maintenance of insane persons in and for the general use of a hospital.

Sec. 37. ERECTION, ALTERATION, REPAIRS AND IMPROVEMENTS OF STATE HOSPITAL BUILDINGS.] All plans and specifications for the erection, alteration, repairs and improvements of State hospital buildings shall be prepared by the State Architect, but the supervising engineer of the State Commission of Control may, when directed by the commission, prepare plans and specifications for the installation, alteration, repairs and improvements of the mechanical appliances and fixtures in the existing State hospitals, which, before adoption, shall be approved by the State Architect. The State Commission of Control shall adopt or reject any such plans or specifications and no such work shall be begun until the plans and specifications therefor have been adopted, but before the adoption thereof the commission shall submit the same to the board of managers of such hospital, and shall allow such board a period of not less than fifteen, and not more than sixty days, in which to submit a statement of their opinions and suggestions in regard thereto. Contracts for such erection, alteration, repairs and improvements may be let by the commission, subject to the approval of the Governor and State Auditor, for the whole or any part of the work to be performed, and in the discretion of the commission such contracts may be sublet. Special orders for such work in amounts less than one thousand dollars may be issued by the State architect upon authorization by the commission. The commission shall determine to what extent and for what length of time advertisements are to be inserted in newspapers for proposals for the erection, alteration, repairs or improvements of State hospital buildings. A preliminary deposit, or certified check, drawn upon some legally incorporated bank in this State shall in all cases be required as an evidence of good faith upon

all proposals for buildings, alterations, repairs or improvements, to be deposited with the treasurer of the hospital for which the work is to be performed, in an amount to be determined by the State Architect, but work done by special orders in an amount less than one thousand dollars need have no such deposit or check, provided payment is to be made only after the work is completed and approved. All contracts in an amount greater than one thousand dollars shall have the performance thereof secured by a sufficient bond or bonds to be approved by and filed with the commission. The work or erection, alteration, repairs or improvements of any building or plant may be done by the employment of inmate or outside labor, either or both, and by the purchase of materials in the open market whenever in the opinion of the commission and State Architect such course shall be more advantageous to the State, but no compensation shall be allowed for the employment of inmate labor. Where money is appropriated for any specific purpose other than maintenance and the work, materials furniture apparatus or other supplies are not to be performed or purchased pursuant to contract or special order duly made therefor, such money shall be expended pursuant to special fund estimates made to the commission by the superintendent of the hospital for which such appropriation is made. The law governing the revision of estimates of the expense required for the State hospitals for the insane shall apply to such estimates, and when such work is to be performed in accordance with the plans and specifications prepared by the State Architect or is to be paid for from appropriations for the erection, alteration, repairs or improvements of building or plant, such estimates shall also be subject to his approval. Except as above specified, all such work shall be done by contract or special order. The form of the contract or special order shall be prescribed by the State Architect. All payments on contracts or special orders shall be made on the certificate of the State Architect, approved by the commission, as the work progresses or the purchase of material is made, and upon bills duly certified. No item of an appropriation made for the performance of such work shall be available except for advertising, unless one or more contracts, special orders or special fund estimates shall first have been made for the completion of such work within the appropriation therefor. All contracts for the erection, alteration, repairs or improvements of hospitals shall contain a clause that the contract shall only be deemed executory to the extent of the moneys available, and no liability shall be incurred by the state beyond the moneys available for the purpose. If any appropriation be made for the erection, alteration, repairs or improvements of buildings or plant in an appropriation act specifying two or more objects for which the appropriation is made and any one of such objects shall have been accomplished for a sum less than the amount specified in the Act, the unexpended balance shall be applicable to the completion of any other work specified in the Act, provided that after due advertisement no bids shall have been received within the amount specifically appropriated therefor.

Sec. 38. STREETS AND RAILROADS THROUGH HOSPITAL LANDS.] No public street or road for railroad or other purposes shall be opened through the lands of a State hospital, unless the Legislature by special law consents thereto.

Sec. 39. The commission may appoint agents, whose duty it shall be to secure from relatives and friends who are liable therefor, or who may be willing to assume the cost of support of any of the inmates of State hospitals as are being supported by the State, re-imbursement in whole or in part of the money so expended. The compensation of each agent shall not exceed five dollars a day and the necessary traveling and other incidental expenses incurred by him, to be approved by the State Auditor. The commission may fix a rate to be paid for the support of the inmates of State hospitals by relatives liable for such support or by those not liable for such support but willing to assume the cost thereof; but such rate shall be sufficient to cover a proper proportion of the cost of maintenance per capita (exclusive of cost of buildings, physicians' care and attendance and officers' salaries). The main-

tenance of any inmate of a State hospital, committed thereto upon a court order arising out of any criminal action or proceeding, shall be paid by the county from which such inmate was committed.

Sec. 40. LIABILITY FOR THE CARE AND SUPPORT OF THE INSANE, OTHER THAN THE POOR AND INDIGENT.] The father, grandfather, mother, grandmother, children, grandchildren, brothers or sisters of an insane person, if of sufficient ability; and the conservator of his person and estate, if his estate is sufficient for the purpose, shall cause him to be properly and suitably cared for and maintained.

The costs and charges of the commitment and transfer of such insane person to a State hospital shall be paid by the conservator, or the father, grandfather, mother, grandmother, children, grandchildren, brothers or sisters of such person, to be recovered in an action brought in the name of the People by the commission, the hospital for the insane, by its corporate name, the county, or the overseer of the poor of the town where such insane person may be, but there shall be but one recovery for any sum due. In all claims of the State upon relatives liable for the support of a patient or upon moneys or property held by said patient, the State shall be deemed a preferred creditor.

Sec. 41. ENTRIES IN CASE BOOK.] Every superintendent or other person in charge of an institution for the care and treatment of the insane shall, within three days after the reception of a patient, make, or cause to be made, a descriptive entry of such case in a book exclusively set apart for that purpose. He shall also make or cause to be made, entries, from time to time, of the mental state, bodily condition and medical treatment of such patient during the time such patient remains under his care, and in the event of the discharge or death of such person, he shall state in such book the circumstances thereof, and make such other entries at such intervals of time and in such form as may be required by the commission.

Sec. 42. TRANSFER OF PATIENTS WHEN HOSPITAL IS OVERCROWDED.] When the building of any State hospital shall become overcrowded with patients or the number of buildings shall be reduced by fire or other casualties or for other cause, the commission may, in its discretion, cause the transfer of patients therefrom, or direct that patients required to be sent thereto, be transferred to another State hospital, where they can be conveniently received, or make, in special emergencies, temporary provision for their care, preference to be given in such transfers to a hospital in an adjoining rather than in a remote district. The expense of such transfer shall be chargeable to the State and the bills for the same, when approved by the commission, shall be paid by the treasurer of the State, on the warrant of the State Auditor, out of any moneys provided for the support of the insane.

Sec. 43. INVESTIGATION INTO THE CARE AND TREATMENT OF THE INSANE.]--When the commission has reason to believe that any person adjudged insane is wrongfully deprived of his liberty, or is cruelly, negligently or improperly treated, or inadequate provision is made for his skillful medical care, proper supervision and safe keeping, it may ascertain the facts, or may order an investigation of the facts by one of its members. It, or the commissioner conducting the proceeding, may issue compulsory process for the attendance of witnesses and the production of papers, and exercise the powers conferred upon a master in chancery in the circuit court. If the commission deem it proper, it may issue an order, directed to any or all institutions, directing and providing for such remedy or treatment, or both, as shall be therein specified. If such order be just and reasonable, and be approved by three circuit judges sitting *en banc*, who may require a notice to be given of the application for such approval, it shall be binding upon any and all institutions and persons to which it is directed, and any wilful disobedience of such order shall be a criminal contempt and punishable as such. Whenever the commission shall undertake an investigation into the general management and administration of any institution for the insane, it may give notice to the Attorney General of any such investigation, and the Attorney General shall appear personally or by deputy and examine witnesses who

may be in attendance. The commission, or any member thereof, may at any time visit and examine the inmates of any county or city almshouse, to ascertain if insane persons are kept therein.

Sec. 44. **HABEAS CORPUS.**]—Any one in custody as an insane person is entitled to a writ of habeas corpus upon a proper application made by him or some friend in his behalf. Upon the return of such writ, the fact of his insanity shall be inquired into and determined. The medical history of the patient, as it appears in the case book, shall be given in evidence, and the superintendent or medical officer in charge of the institution wherein such person is held in custody, and any proper person, shall be sworn, touching the mental condition of such person.

Sec. 45. **DISCHARGE OF PATIENTS.**]—The superintendent of a State hospital on filing his written certificate with the commission, may discharge any patient, except one held upon an order of a court or judge having criminal jurisdiction in an action or proceeding arising out of a criminal offense at any time, as follows:

1. A patient who, in his judgment, is recovered.

- 1a. A person who, in his opinion, is not insane; including dotards.

2. Any patient who is not recovered but whose discharge, in the judgment of the superintendent, will not be detrimental to the public welfare, or injurious to the patient: *Provided, however,* That before making such certificate, the superintendent shall satisfy himself, by sufficient proof, that friends or relatives of the patient are willing and financially able to receive and properly care for such patient after his discharge.

The superintendent may grant a parole to a patient, not exceeding thirty days, under general conditions prescribed by the commission.

A poor and indigent patient discharged by the superintendent because he is an idiot, or a dotard, not insane, or an epileptic, not insane, or because he is not a proper case for treatment within the meaning of this chapter, shall be received and cared for, by the superintendent of the poor or other authority having similar power, in the county from which he was committed. A patient held upon an order of a court or judge having criminal jurisdiction, in an action or proceeding arising from a criminal offense, may be discharged upon the superintendent's certificate of recovery, approved by any such court or judge.

Sec. 46. **CLOTHING AND MONEY TO BE FURNISHED DISCHARGED PATIENTS.**]—No patient shall be discharged from a State hospital without suitable clothing adapted to the season in which he is discharged; and if it can not be otherwise obtained, the steward shall, upon the order of the superintendent, furnish the same, and money not exceeding twenty-five dollars, to defray his necessary expenses until he can reach his relatives or friends, or find employment to earn a subsistence.

Sec. 47. **TRANSFER OF NON-RESIDENT PATIENTS.**]—If an order be issued by any judge, committing to a State hospital a poor or indigent person, who has not acquired a legal settlement in this State, the commission of control shall return such insane person, either before or after his admission to a State hospital, to the country or State to which he belongs, and for such purpose may expend so much of the money appropriated for the care of the insane as may be necessary, subject to the audit of the State Auditor.

Sec. 48. **SALE OF UNCLAIMED PERSONAL PROPERTY OF DISCHARGED OR DECEASED PATIENTS.**] All articles of personal property belonging to a discharged or deceased patient of a State hospital for the insane and in the custody of the superintendent or other proper officer of such hospital, may, if unclaimed by such discharged patient, or the legal representatives of such deceased patient for a period of six months after the discharge or decease of such patient, be sold at public auction in such manner and after such notice or advertisement as the commission shall prescribe, and the proceeds of such sale shall be paid into the amusement fund of such hospital.

Sec. 49. The Illinois Asylum for Insane Criminals, as constituted and established under an Act entitled "An Act to provide for the location, erection, organization and management of an asylum for insane criminals, and mak-

ing an appropriation for the construction of necessary buildings," approved June 1, 1889, in force July 1, 1889, is hereby declared to be under the jurisdiction of said commission of control, when established, and the same is to be controlled and managed by the provisions of this Act, the commission of control, a board of managers, consisting of seven members as herein provided and subject to all the provisions of this Act, in the management and purchase of supplies for the said institution and the making of reports; but nothing herein contained shall be construed to amend or repeal sections six, seven, eight, nine, ten and eleven of the Act in this section referred to and establishing the said Illinois Asylum for Insane Criminals.

Sec. 50. The cost of the care and maintenance of persons so committed to the said Illinois Asylum for Insane Criminals shall be defrayed in the manner now provided for by law, out of the treasury of the State of Illinois; but in the superintendence of the said institution and the expenditure of said moneys, the same shall be fully under the management and control of the Commission of Control and a board of managers, as provided for in this Act.

Sec. 52. Each of said State institutions, the Illinois Asylum for Feeble-Minded Children, at Lincoln; the Soldiers' and Sailors' Home, at Quincy; the Illinois Industrial Home for the Blind, at Chicago; the Illinois Charitable Eye and Ear Infirmary, at Chicago; the Soldiers' Widows' Home of Illinois, at Wilmington; the St. Charles School for Boys, at St. Charles; the State Home for Juvenile Female Offenders, at Geneva; and the Illinois Soldiers' Orphans' Home, at Normal, as provided for in section 51 of this Act, shall be under the control and management of a board of managers, subject to the statutory powers of the commission. On or after the first of October,

nineteen hundred and nine, the Governor shall appoint a board, consisting of seven members, not more than four of whom shall belong to or be affiliated with the same political party. He shall so arrange their terms of office of one, two, three, four, five, six and seven years, that a term shall expire on the thirtieth day of September in each year, beginning with the year nineteen hundred and ten. After the expiration of such terms, managers shall be appointed for terms of seven years. If a vacancy occurs, otherwise than by expiration of term, the appointment of the manager to fill such vacancy shall be for the unexpired term of the manager whose office became vacant.

Sec. 53. APPOINTMENT AND REMOVAL OF MANAGERS.] The members of the boards of managers provided for in section 52 of this Act shall be appointed by the Governor, by and with the advice and consent of the Senate, as often as a vacancy shall occur by expiration of term or otherwise, and they may severally continue in office until their successors are appointed and have qualified, and they shall be subject to removal by the Governor, after having been notified in writing of the reasons for the proposed removal and having been given an opportunity to be heard. All managers shall be residents of the State of Illinois. No person shall be eligible to the office of such manager who is either an elective State officer or a member of the Legislature, and if any such manager shall become a member of the Legislature or an elective State officer, his office as such manager shall thereupon be vacant. If any such manager fails for a period of six months to attend the regular meetings of the board of which he is a member, the secretary of the board shall notify the Governor of such absence, with any explanation thereof which may be submitted by such manager, and unless the Governor shall, within thirty days thereafter, notify the secretary that he has excused such manager for such absence, the office of such manager shall thereupon be deemed to be vacant: and if any manager fails for one year to attend such regular meetings, his office shall become vacant. When any such vacancy shall occur, the board, by resolution, shall so declare, and a certified copy of such resolution shall forthwith be transmitted by the board to the commission and to the Governor. In the month of January of each year, the secretary of the board of managers shall transmit to the Governor a statement showing the record of attendance of each manager at meetings of the board, the number and dates of visits to the hospital, with a statement of any other work for the hospital performed by such manager, which said manager may request to have transmitted to the Governor. The manager whose term is first to expire shall act as president of the board of managers of each said institution.

Sec. 54. GENERAL POWERS AND DUTIES OF BOARDS OF MANAGERS.] The powers and duties conferred upon the board of managers of the hospitals for the insane under section 19 of this Act, so far as the same may be applicable, shall be and hereby are conferred upon the board of managers of the said institutions provided for in section 52 of this Act.

Sec. 55. OFFICERS.] The Commission of Control shall appoint, subject to the approval of the board of managers of each of said institutions, as often as a vacancy shall occur therein, a superintendent. Whenever a vacancy shall occur in the office of superintendent of any of said institutions, the Commission of Control, with the approval of the board of managers of such institution, may transfer to such position the superintendent of any other of said institutions, subject to the consent of the board of managers of such other institution. Each superintendent shall be the treasurer of the said institution for which he is appointed unless the commission shall designate a person to act as treasurer, as in this Act provided; and before entering upon his duties as such treasurer, shall file with the State Auditor his undertaking to the people, in an amount and with sureties to be approved by the State Auditor, to the effect that he will faithfully perform his trust as such treasurer. The superintendent may be removed by a vote of a majority of the board of managers, for cause stated in writing, and after an opportunity has been given him to be heard thereon, and such action, when approved by the commission, shall be final. Pending the investigation of any charges against a superintendent and the decision thereon,

the board of managers may suspend such superintendent. The commission may prefer charges of misconduct or incompetency against any superintendent to the board of managers of the hospital of which he is superintendent, and the board shall thereupon investigate the truth of such charges. On the first day of October, nineteen hundred and nine, the office of treasurer in each of the said State institutions shall be abolished and their powers and duties may be conferred upon the superintendent, or the commission may designate a person in its office to act as treasurer for all the said institutions, who shall have the powers and perform the duties of treasurer as to such institution as prescribed in this Act, and shall perform such other duties as the commission impose. The person so designated, before entering upon the performance of his duties as such treasurer, shall file with the State Auditor his undertaking, in an amount and with sureties to be approved by him, to the effect that he will faithfully perform his trust as such treasurer. A superintendent in office on the first day of October, nineteen hundred and nine, shall be continued in office until removed pursuant to law, notwithstanding the change hereby made in the manner of his appointment.

Sec. 56. The superintendent of each of said institutions shall be its chief executive officer, and in his absence or sickness, an assistant superintendent of the said institutions, and who shall exercise the powers and be subject to the responsibilities of the superintendent, shall be provided for by the rules and regulations of the said commission. Subject to the by-laws and regulations established by the commission and the managers under the provisions of this Act, the superintendent shall have general superintendence of the buildings, grounds and farm, together with their furniture, fixtures and stock, and the direction and control of all persons therein, and subject to such by-laws and regulations as may be provided for by the said Commission of Control.

Sec. 57. All of the powers, duties and regulations provided for the purchasing steward of the State hospital for the insane, under section 22 of this Act, shall be extended to the said institutions provided for in section 51 of this Act; and each of said institutions shall have a purchasing steward, with all of the powers, duties and responsibilities of purchasing stewards as provided for hereinbefore in this Act, and be subject to all of the rules and regulations and provisions herein enacted and hereafter to be provided for in a purchasing department for all of the institutions and hospitals under the control of the said Commission of Control.

Sec. 58. Nothing in this Act shall be construed to cover or extend to either of the Illinois State penitentiaries, the Illinois Reform School at Pontiac, or any of the educational institutions in this State, including the School for Deaf and for the Education of the Blind, at Jacksonville, in the State of Illinois.

Sec. 59. Nothing in this Act shall be construed to amend, revise or repeal any of the provisions of the Acts establishing the institutions set out and described in section 51 of this Act, except as herein specially provided; and to the end that the spirit and intent of this Act shall be fully carried out as to the said Illinois Asylum for Feeble-Minded, at Lincoln; the Illinois Industrial Home for the Blind, at the city of Chicago; the Soldiers' and Sailors' Home, at Quincy; the Illinois Charitable Eye and Ear Infirmary, at Chicago; the Soldiers' Widows' Home of Illinois, at Wilmington; the St. Charles School for Boys, at St. Charles; the State Home for Juvenile Offenders, at Geneva; and the Illinois Soldiers' Orphans Home, at Normal, under the provisions and terms of this Act, said institutions, as to all matters and regulations not herein provided for, shall be subject to the jurisdiction and control of the specific Acts under which the said institutions were respectively established.

A message from the Senate by Mr. Osgood, Assistant Secretary:

Mr. Speaker—I am directed to inform the House of Representatives that the Senate has concurred with them in the adoption of the following preamble and joint resolution, to-wit:

HOUSE JOINT RESOLUTION No. 32.

WHEREAS, There is great need in the State of Illinois for a surgical institute for children where the afflicted crippled children of poor parents can be treated at the expense of the State with the hope that as the result of such treatment such children may become self sustained men and women; and

WHEREAS, In Illinois there is no free institution for that purpose; and

WHEREAS, The 45th General Assembly committed itself to this object by the passage of a bill appropriating \$60,000.00 for this purpose, but which was necessarily vetoed for want of funds; and

WHEREAS, The House of Representatives has at this session again passed such bill; and

WHEREAS, It is suggested that at several of the existing State institutions there are buildings available for such purpose, or which can without great expense be adapted to the use of such institutions; and

WHEREAS, It is very desirable to intelligently proceed with this plan after obtaining full information on this subject; now, therefore, be it

Resolved, by the House of Representatives, the Senate concurring herein: That we cordially approve of the establishment of such surgical institution and firmly commit ourselves to such project and pledge ourselves at such subsequent time as may be possible by our votes to establish a surgical institution for crippled children; and, be it further

Resolved, That the Governor is hereby authorized to appoint a commission of five to make a complete investigation of this subject and to include in such investigation the availability of existing institutions and to make a full report thereon to the Governor and the General Assembly not later than September 1, 1909.

Sec. 13. FISCAL SUPERVISOR—GENERAL POWERS AND DUTIES.] Under the supervision and direction of the Board of Administration the fiscal Supervisor shall:

1. Examine into the condition of all buildings, grounds and other property connected with any State charitable institution, and into its methods of bookkeeping, storekeeping and all matters relating to its business and financial management.

The Fiscal Supervisor shall tabulate such statements and present them to the Board of Administration with his recommendations. It shall then become the duty of the board, with the approval of the Governor, to present the needs of the institutions to the Legislature. For this purpose an average per capita allowance for the insane and other dependents, defectives and delinquents shall be arrived at and a total allowance asked for on the

basis of actual population and estimated increase, this fund to be used as further provided in this Act. Every special need shall be itemized and the appropriation shall be asked for that specific purpose. It shall be the duty of the Fiscal Supervisor and of all other members of the board to present to the Governor and to the Legislature such information regarding appropriations asked for as may be required. This joint board shall be known as the Board of Joint Estimate. It shall be its duty, under the direction of the board, to provide for the purchase of supplies in large quantities on contracts for periods not exceeding fifteen months from the date of the contract. To this end the Board of Joint Estimate shall annually elect from among its members two persons to serve, with the Fiscal Supervisor, as a standing purchasing committee to execute the purchases. The fiscal supervisor shall have full knowledge of all details of every business transaction of said committee. The purchase of all supplies shall be decided by competitive bidding, and competitive proposals shall be advertised for in one or more newspapers of general circulation, published in each one of the seven largest cities in the State, according to the last general census published by the United States. Such further advertisement shall be given as the Board of Administration may prescribe. Said proposals shall be opened in public on the day and hour and at the place specified in the advertisement. Supplies and material produced in the State shall be preferred in the purchase, provided that such preference shall not be made at the expense of the State.

Sec. 16. MONTHLY ESTIMATES OF EXPENSES—CONTINGENT FUND.] For the purpose of proper regulation, recording and auditing of the various expenditures of the institutions, the managing officer of each institution shall prepare and present to the fiscal supervisor in triplicate, not less than fifteen days before the first day of the month referred to, and on forms furnished by the Board of Administration, a detailed monthly estimate of all needed supplies, materials, salaries and improvements. It shall be the duty of the fiscal supervisor to review and, for reasons given in writing, alter, if deemed by him necessary, such estimates, provided that the managing officer issuing the estimate shall have the right of appeal to the board, should he consider, in his best judgment, such alteration harmful to the best interests of the institution under his charge. Estimates for periods longer than one month may be made in the same manner by managing officers for staples designated by the Board of Joint Estimate or for other supplies. Each estimate may include a contingent fund of not to exceed 2 per cent of the total amount of the estimate for maintenance for the period of the estimate, for which con-

tingent fund no detailed account need be given in the estimate, but which can not be drawn upon except in due form specified by this Act, and by the rules of the board.

The fiscal supervisor shall return to the managing officer one copy of the monthly and other estimates with his approval or alteration in writing, one copy so approved or altered he shall present to the State Auditor, and one copy so approved or altered he shall file in his own office. It shall be the duty of the State Auditor to ascertain that the estimates so received do not exceed the respective appropriations. The State Auditor shall draw warrants on the State Treasurer monthly for the salary funds and contingent funds for each institution, and such funds shall be placed in the hands of the managing officer of each institution. Itemized vouchers for all funds, including pay rolls, shall be drawn in triplicate, one copy being held by the managing officer issuing such voucher, one copy presented to the fiscal supervisor and one copy to the State Auditor, who shall issue a warrant on the State Treasurer for each voucher. Each voucher shall contain a sworn affidavit of the managing officer, or some other bonded officer designated by the managing officer, certifying that the supplies and materials purchased or improvements and repairs made or special services rendered were fully satisfactory, or conforming to sample, as the case may be; that the approving officer was in no way financially interested in the purchase or work performed, and that he has full knowledge of the value of the purchase or work, such affidavit being made according to forms provided by the board: *Provided*, that pay rolls for temporary employes employed in case of emergency may be made at any time after the services are performed. All such pay rolls shall be sworn to by the managing officer the same as in cases of other vouchers, and the affidavit shall show that each and every person named in the pay roll actually rendered the services for the time and at the rate charged in the pay rolls.

Sec. 17. STATE TREASURER TO BE TREASURER—EXCEPTION.] It is the intent of this Act that the State Treasurer shall act as treasurer for all funds in the jurisdiction of the Board of Administration, and shall pay no moneys except in accordance with the provisions of this Act: *Provided*, that the moneys designated and approved of by the fiscal supervisor and the State Auditor as salary fund and contingent fund in the monthly estimate shall be placed, not later than on the first day of the month so provided for, in the hands of the managing officer of each institution, who shall act as treasurer for such funds. Institution moneys in the hands of the several institution treasurers, when this Act goes into effect, shall be transferred forthwith to the State Treasurer. Moneys collected from various sources by superintendents and in the hands of the superintendents or the institution treasurers when this Act goes into effect shall be transmitted forthwith by such superintendents or treasurers to the State Treasurer. Moneys collected from various sources, such as the sale of manufactured articles, of farm products and of all miscellaneous articles, shall be transmitted monthly to the State Treasurer and a detailed statement of such collections shall be made monthly to the Fiscal Supervisor by the managing officer of the institution.

Sec. 18. BONDED EMPLOYES.] The Board of Administration shall prescribe and require surety bonds from the fiscal supervisor, and from each managing officer, steward, storekeeper or any other State officer or employé, under the jurisdiction of the Board of Administration, where deemed advisable, in such penal sums to be determined by the board. The cost of such bonds shall be paid by the State out of funds appropriated to the board. Whenever a vacancy occurs in any position held by any bonded officer or employé, there shall forthwith be made an inventory of stock, supplies and records under the charge of such officer or employé.

Sec. 19. ADMISSION OF PATIENTS AND INMATES.] The admission of patients and inmates to State hospitals for the insane and the Lincoln State School and Colony shall be under the control and direction of the Board of Administration. The board is authorized to divide the State into districts, for the purpose of regulating the admission of patients to hospitals for the insane.

The said board shall have power to change the boundaries of such districts, from time to time, as may be necessary or expedient. Whenever such division or regulation shall have been made, as aforesaid, the said board shall forthwith make and sign a report to that effect, designating the boundaries of and the counties included within each district and the number of patients apportioned to each hospital, and file the same with the Secretary of State, and send a copy thereof to the superintendent of each hospital, and to each county judge, and to the clerk of each county in the State, to be filed in his office, and thereafter the State shall be divided into such districts. Whenever any change in such classification or regulation shall be made thereafter, a like report shall be made and filed, and a copy thereof sent to the county judges and to the clerks of all counties affected by such change, as well as to the superintendents of the respective State hospitals. Each State hospital for the insane shall receive patients, whether in an acute or chronic condition of insanity, from the district in which the hospital is situated.

Sec. 20. REMOVAL OF INSANE AND FEEBLE MINDED FROM COUNTY ALMSHOUSES TO STATE INSTITUTIONS.] The Board of Administration is hereby required and empowered to cause the removal of insane persons from county almshouses to State hospitals for the insane and of feeble minded women and children from county almshouses to the Lincoln State School and Colony as rapidly as room is provided for such patients and inmates in such State institutions. As such room is provided, from time to time, the board shall forthwith direct the superintendents of county asylums or almshouses, to send such number of insane patients to State hospitals and such number of feeble minded women and children to the Lincoln State School and Colony as can be accommodated therein. All county authorities sending patients or inmates to any State hospital or the Lincoln State School and Colony shall comply with all directions prescribed by the Board of Administration.

After sufficient accommodations shall have been provided in State institutions for all the pauper and indigent insane of all the counties of the State, the cost of clothing and other incidental expenses of county insane patients in State hospitals shall not be a charge upon any county after the first of January next ensuing, but the cost of the same shall be paid out of the funds provided by the State for the support of the insane. It shall be the duty of the Board of Administration to determine whether the accommodations are sufficient within the purview of this section, and to hold a meeting for that purpose, and, if satisfied of the sufficiency of such accommodations, to make a certificate to that effect and file the same with the Secretary of State and send a copy thereof to the superintendents of each State hospital and county asylum, and to each county almshouse and to each county judge, and to the clerk of each county in the State, to be filed in his office. Until such certificate is made and filed, the said cost of clothing and other incidental expenses of county insane patients shall continue to be a charge upon the county as under existing laws.

The foregoing provisions of this section relating to the insane shall not apply to or include counties of more than one hundred and fifty thousand inhabitants as determined by the then last preceding Federal census, until all the counties of this State having a population of less than 150,000 inhabitants shall have been provided for. Whenever the counties of over one hundred and fifty thousand inhabitants, or any one of them, desire to be included in the provisions of this section relating to the insane, such counties, or any one of them, may be included therein in the following manner: The county board of such county so desiring to be included therein shall pass a resolution and spread such resolution upon the records of such county board, making application to the Governor to transfer any or all of such buildings, land, appurtenances and equipment as are used by it as a county insane asylum to the State to be used for the same purpose. A certified copy of such resolution shall be sent to the Governor and the said resolution shall be considered the required application.

The Governor shall thereupon transmit said application to the Board of Administration, whereupon said board shall examine into the condition

of such buildings, land, appurtenances and equipment, with a view to ascertain whether such property is suitable for the purposes of a State hospital for the insane, and shall report its findings and conclusions to the Governor. Whereupon, if the board approves the transfer to the State, and if the Governor shall approve the same, said county insane asylum shall be converted into a State hospital for the insane, and its inmates shall become wards of the State.

Sec. 21. RETURN OR COMMITMENT TO COUNTY INSTITUTIONS FORBIDDEN—COUNTY CARE OF INSANE FORBIDDEN.] No insane person now, or hereafter, under the care of any State hospital in this State, shall be returned or committed to the care of any county insane asylum or almshouse, or to any county, town or city authorities; and the said county, town or city authorities are hereby forbidden to receive any such patient who may be returned or committed to them in violation of this section. After the State has assumed complete care of the public insane, no insane person shall be permitted to remain under county care, but all public insane shall be committed to State hospitals for the insane, or to private hospitals for the insane, as provided herein.

Sec. 22. TRANSFER OF INSANE PATIENTS.] The Board of Administration shall have the power to transfer, by its order, patients from one State hospital for the insane to another, when in its judgment such transfers are advisable.

Sec. 23. SUPPORT OF INMATES.] The Board of Administration shall secure from relatives or friends, who are liable or may be willing to assume the cost of support of inmates of State hospitals, reimbursement, in whole or in part, of the money expended for such support; said board may appoint agents, whose duty it shall be to secure from relatives and friends who are liable therefor, or who may be willing to assume the costs of the support of any such inmates, reimbursement, in whole or in part, of the money so expended. The compensation of each agent shall not exceed five dollars a day and the necessary traveling and other incidental expenses actually incurred by him.

The said board may fix a rate to be paid for the support of the inmates of State hospitals by the relatives liable for such support, or by those not liable for such support but willing to assume the costs thereof, but such rate shall be sufficient to cover the proper proportion of the cost of maintenance and necessary repairs and improvements.

Sec. 24. POSTAL RIGHTS.] Any insane patient in any State hospital shall be allowed to correspond, without restriction, with any member of the Board of Administration, of the Charities Commission and of the Board of Visitors of the State hospital where such insane patient is given treatment and care; and with the county judge and the State's attorney of the county from which such insane patient was committed.

Sec. 25. SALE OF UNCLAIMED PERSONAL PROPERTY OF DISCHARGED OR DECEASED PATIENTS.] All articles of personal property belonging to a discharged or deceased patient of a State hospital for the insane and in the custody of the superintendent or other proper officer of such hospital, may, if unclaimed by such discharged patient, or the legal representative of such deceased patient, for a period of six months after the discharge or decease of such patient, be sold at public auction in such manner and after such notice, or advertisement, as the Board of Administration shall prescribe, and the proceeds of such sale shall be paid into the amusement fund of such hospital. If any money deposited with a managing officer by relatives, conservators or friends of any inmate for the special comfort or pleasure of any such inmate remains unexpended after the discharge or death of such inmate, the said unexpended balance shall be paid into the amusement fund of the State institution which provided care and treatment for the said inmate: *Provided*, that the money is not claimed by a discharged inmate within six months after discharge, or by the legal representative of such deceased inmate within six months after the death of such inmate.

Sec. 26. BOARDING OUT INSANE PATIENTS.] Any insane patient in any State hospital for the insane may be placed at board in a suitable family

home by the board, if said board considers such course expedient. The cost to the State of the maintenance of any such boarded out patient shall not exceed the average per capita cost of maintenance in the institution from which such patient is so boarded out. Bills for the support of a patient so boarded out shall be payable quarterly out of the proper maintenance funds and shall be audited as are other accounts of the board. The board shall cause all persons who are boarded out by it in family homes at public expense to be visited at least once each three months, and for this purpose the said board is authorized and empowered to appoint, subject to the provisions of the State civil service law, such visitors as are necessary. Upon the complaint of any boarded out patient or of any responsible citizen or member of the household where such patient is boarded out, the board immediately shall send a visitor to investigate, and, if needful, such patient shall be removed at once to a State hospital for the insane or to another boarding place. Where there is no complaint the board shall cause to be removed, as above, any patient who, upon visitation, is found to be abused, neglected or improperly cared for when boarded out in a family home. The board may permit any boarder temporarily to leave custody as an insane person in charge of his guardian, relatives, friends or by himself, for a period not exceeding one year, and may receive him again into such custody when returned by any such guardian, relative or friend or upon his own application, within such period, without any further order of commitment and may, during such temporary absence, assist in his maintenance to an amount not exceeding the rate paid for his board when boarded out in a family home by the board.

Sec. 27. AFTER CARE OF THE INSANE.] To secure for patients in State hospitals for the insane, the earliest possible discharge from such hospitals and a continuance of expert medical service after discharge, free of cost, each such hospital shall institute a plan for the after-care of paroled patients and of discharged convalescent patients as follows:

A staff physician, or some other suitable person, shall, when the superintendent deems necessary, visit the home of any paroled patient or any convalescent patient before discharge and advise with the family as to the care and occupation most favorable for the patient's continued improvement and return to health; and such visits shall be made from time to time to the patient after parole or discharge, as are considered advisable by the superintendent.

Sec. 28. INSTITUTIONS FOR MENTAL AND NERVOUS CASES—BOARD TO LICENSE—COMMITMENTS TO UNLICENSED INSTITUTES FORBIDDEN.] All institutions, other than State institutions, giving treatment and care to persons suffering from mental and nervous diseases, shall provide the Board of Administration with detailed information from time to time, regarding their physical equipment and medical and nursing service, and shall furnish the board a written certified statement every three months, giving the admissions, deaths and discharges during the previous three months. The board shall license such institutions as it deems, after careful inspection, to be suitably equipped and conducted for the treatment and care of persons suffering from mental or nervous diseases, and no person so suffering shall be committed to or received or kept against his, or her, will, contrary to law, in any such institution not having a valid license from the board. Any superintendent or responsible head of an institution receiving or keeping, contrary to his, or her, will, any person in any such institution, not licensed as aforesaid, shall be punished by a fine of not less than fifty dollars nor more than one thousand dollars, or by imprisonment in the county jail for a term not exceeding six months, or both such fine and imprisonment, in the discretion of the court.

Sec. 29. OCCUPATION FOR INMATES.] It shall be the duty of each managing officer to develop such occupations as shall serve the mental, moral and physical improvement or the happiness of the inmates, and it shall be the duty of the board so to coördinate these activities as will best serve an

educational, economical and efficient administration of all the institutions, but without prejudice to the primary needs of suitable education for the inmates.

Sec. 30. VISITATION OF CHILDREN—CERTIFICATION OF ASSOCIATIONS.] The Board of Administration shall possess and have all the powers and shall perform all the duties in regard to the visitation of children placed in family homes and the incorporation, supervision and certification of associations whose objects may embrace the care of dependent, neglected or delinquent children, which are now vested by law in the Board of State Commissioners of Public Charities; and the said Board of State Commissioners of Public Charities is hereby relieved from any duty heretofore imposed upon it by any law of this State in relation thereto, and the said Board of Administration is fully authorized and empowered from and after the date this Act goes into effect to perform the same.

Sec. 31. STATE CONFERENCES.] The Charities Commission, at such times and places as it deems advisable, may hold conferences of officers of State, county and municipal charitable institutions, officials responsible for the administration of public funds used for the relief or maintenance of the poor, and boards of institution visitors, and of county visitors, to consider in detail questions of management, the methods to be pursued and adopted to secure the economical and efficient conduct of such institutions, the most effective plans for granting public relief to the poor, and similar subjects. All officials duly invited to such conferences shall be entitled to actual necessary expenses, payable from any funds available for their respective boards and institutions, provided they procure a certificate from the executive secretary of the said Charities Commission that they were invited to and were in actual attendance at the sessions of the conference.

Sec. 32. PLANS FOR JAILS AND ALMSHOUSES SUBMITTED TO BOARD.] No county, city or village shall erect, add to or remodel a jail, almshouse, infirmary, prison, house of correction or workhouse without first submitting plans and specifications therefor to the Board of Administration for its criticism and suggestions for the improvement of same.

Sec. 33. INVESTIGATIONS.] The Board of Administration and the Charities Commission may make such investigations as may be necessary to the performance of their respective duties imposed by law. In the course of any such investigation each member of either board or commission shall have the power to administer oaths, and either board or commission shall have power to secure by its subpoena both the attendance and testimony of witnesses and the production of books and papers relevant to such investigation.

Sec. 34. COMPELLING TESTIMONY OF WITNESSES—PRODUCTION OF BOOKS AND PAPERS.] Any person who shall be served with a subpoena by the Board of Administration or the Charities Commission to appear and testify, or to produce books and papers, issued by either board or commission in the course of an investigation authorized by law, and who shall refuse or neglect to appear, or to testify, or to produce books and papers relevant to said investigation, as commanded in such subpoena, shall be guilty of a misdemeanor and shall, on conviction, be punished by a fine of not less than fifty dollars nor more than one thousand dollars, or by imprisonment in the county jail for a term not exceeding six months, or both such fine and imprisonment, in the discretion of the court. The fees of witnesses for attendance and travel shall be the same as the fees of witnesses before the circuit courts of this State. Any circuit court of this State, or any judge thereof, either in term time or vacation, upon application of any member of either board or commission may, in his discretion, compel the attendance of witnesses, the production of books and papers, and giving of testimony before either board or commission, or before any member of either board or commission, by an attachment for contempt or otherwise, in the same manner as production of evidence may be compelled before said court. Every person who, having taken an oath or made affirmation before a member of either board or commission, shall wilfully swear or affirm falsely, shall be guilty of perjury, and upon conviction shall be punished accordingly.

Sec. 35. The bail bond in any criminal case in which the punishment may be otherwise than by fine, shall be conditioned for the personal appearance of the person arrested before some branch court at a time fixed in said bond for such personal appearance, and from day to day thereafter until the final judgment or order of the court. In quasi criminal cases and in criminal cases in which the punishment may be by fine only, the bail bond shall be conditioned for the personal appearance of the person arrested before some branch court at a time fixed in said bond for such personal appearance and from day to day thereafter until the final judgment or order of the court, and in default of such personal appearance for the immediate payment of any judgment that may be rendered in said case. Any bond so taken shall be signed by one or more sureties to be approved by such judge or officer, who shall be authorized and required to administer oaths for the purpose of ascertaining the sufficiency of the sureties. All bonds so taken shall be filed with the clerk of the municipal court at the branch court at which the person so arrested is required to appear. Other proceedings for the forfeiture of recognizances and bail bonds in criminal and quasi criminal cases shall be the same, as near as may be, as provided for the forfeiture of recognizances and bail bonds in criminal cases in the criminal court of Cook county.

The defendant shall have the right to controvert such charge, and evidence may be heard as in case of trial before the county court. If the court shall be of the opinion that sufficient cause appears, it shall be the duty of the court to bind the person so accused, in recognizance with sufficient security, to appear before said court at a time after the probable date of the birth of the child, to which said cause may be continued, to answer to said charge. On neglect or refusal to enter into a recognizance with security, the court shall cause such person to be committed to the jail of the county of Cook, there to be held to answer to the complaint. If, at the time to which said cause may be continued, said child be not born, or the mother be unable to attend court, said cause shall be further continued until she is able, and any recognizance entered into by the defendant to secure his appearance shall stand until the final disposition of the cause. After the birth of the child the court shall cause an issue to be made up whether the person charged, as aforesaid, is the real father of the child or not, which issue shall be tried by a jury, unless the parties shall elect to waive a trial by jury, in which case the issue shall be tried by the court without a jury.

Fourth—Pending the trial of such issue and the final disposition of the matter, if the defendant shall not have given bond as aforesaid prior to such delivery, the court shall require the defendant to enter into a recognizance in such amount and with such sureties as the court may deem just, for the appearance of the defendant from day to day until the entry of the final judgment.

DAVID E. SHANAHAN,

ROBERT E. WILSON,

LOUIS ZINGER,

Committee on behalf of the House of Representatives.

Adopted by the Senate June 3, 1909.

J. H. PADDOCK,

Secretary of the Senate.

Mr. Flannigen, from the Committee on Elections, submitted the following report, and moved its adoption:

To the Honorable Speaker and Members of the House of Representatives of the Forty-sixth General Assembly:

Your Committee on Elections to which was referred the election contests of James A. Watson, contestant v. William E. Finley, in the 48th district, James T. Callahan, contestant v. Michael S. Link, in the 47th district and Charles A. E. Martin, contestant v. Louis Zinger in the 30th district, hereby respectfully report that the committee met on March 30, 1909, for the purpose of taking up such contests.

It was on that day decided by the committee to refer each of the above contests to a sub-committee of five for consideration, and the chairman of the elections committee appointed as such sub-committee, Messrs. Lederer, Scanlan, Cliffe, Browne and Poulton.

The said sub-committee after giving due notice to all of the parties interested in said contests proceeded to hear arguments of the attorneys representing the contestant and contestee in each case above cited, upon the notice, petition and affidavits filed in each of the above cases; all of said parties to such contests being present by counsel or in their own proper person; and upon full consideration of each of the above contests the sub-committee did, on April 28, 1909, submit to the full committee the report of its findings of each of the contests named above, as follows:

Your committee appointed by the general election Committee to consider the contests above named, respectfully reports that in each of the above cases a motion to dismiss the contest was made by the contestee, and that in each of the above cases the same question of law was involved and which, in the opinion of your sub-committee, is decisive of all of said contests. It appears in each of said contests that the contestant has filed his notice of contest against only one member of the House of Representatives of the district of which said contestant was a member, although each of said Senatorial districts has three members in the House of Representatives of the 46th General Assembly elected at the same general election in which the contestee in each of the above cases was certified to have been elected. The contestant in each of the above cases has omitted to make parties to said notice or petition of contest any of the other candidates who were elected to the House of Representatives in the 46th General Assembly at said general election, and still each of the contestants in the above cases claims the right to have unseated the contestee in said respective cases on said notice and petition and the proof to be adduced thereunder.

In our opinion, all of the Representatives elected from each of the respective districts from which the above contests arose should have been made parties to the notice of contest. The mere allegation in the notices of contest filed in these cases that the contestant received more votes than the contestee, would not, in our opinion, prove that the contestee was not entitled to a seat as a member of the House of Representatives, for although it might be true, that the contestant received more votes than the

contestee, yet the contestee may have received more votes than one of the other two members elected from that Senatorial district to the House of Representatives and would, therefore, nevertheless have been duly elected at said general election as a member of the House of Representatives from that district. On the other hand, it would be impossible, under the notice or petition of contest filed in these cases, to investigate the vote of the other two members of the House of Representatives elected from each of the said Senatorial districts, inasmuch as they are not made parties to said notice or petition of contest. In short then, these notices or petitions of contest amount only to a request to allow the contestants to go on a fishing expedition in order to investigate and assure themselves that they got more votes than the contestee, without affirmatively showing anywhere in said notice or petition of contest that even if they did receive more votes than the contestee they would, therefore, be able to unseat the contestee under such showing. In this state of the pleadings it is clearly unjustifiable to allow an opening of the ballots.

While this one question, in the opinion of your sub-committee, is decisive of the contests before them, yet in justice to the contestants it desires to report that it has investigated the notices or petitions of contest from all the points of view presented by the arguments of contestants, and that there are many other objections to said notices or petitions of contest which do not even present a prima facie case for contest, and would therefore result in a report in conformity with the report submitted by the sub-committee.

Any further investigation of the subject could not change the state of the written pleadings in these cases and it is, therefore, absolutely clear that the General Assembly should not place the parties to enormous expense and make uncertain the expressed wish of the people upon pleadings which do not even upon their face show that any person elected to the General Assembly could be unseated even if everything alleged therein were proved, and your sub-committee, therefore, respectfully reports that each of the motions to dismiss the contest in each of the above cases be sustained and that said contests be dismissed.

[Signed] CHARLES LEDERER,
ADAM C. CLIFFE,
WILLIAM M. SCANLAN,
JOHN J. POULTON,
Members of the Committee.

Hon. Lee O'Neil Browne submitted the following minority report on the part of the sub-committee:

"As one of the members of this sub-committee, I find myself unable to agree with the other members of the committee on the general proposition upon which the majority report hinges and is based, namely, that a failure on the part of the contestant to make all the other members of the House in that particular district contestees, is fatal to the petition, or notice, and therefore fatal to the contest.

At first when that question was raised, and I had given it some consideration before it was raised,—in fact I think I may say that it was because of inquiries made by myself in the main committee that counsel in at least one of the contests began an investigation of that proposition,—I say that at first I was inclined to think that that was the controlling question, and that the failure to make the other parties contestees was fatal. Since that time I have given the matter a great deal of individual thought, trying to get "right" upon the proposition if I could, and I have also canvassed the matter with several legal gentlemen for whose opinion I have the highest regard; and I find myself in the condition of mind on that proposition where I am unwilling to subscribe to the report of the committee dismissing the contest upon that ground, and hold that the failure to make the other members from those particular districts contestees is fatal. It may be that that is fatal. It may be that that renders the contests invalid and fruitless. There is no law upon it, either in this State or in any other State

that I have been able to find or that has been called to my attention. Neither is there any precedent of any kind by which this committee can be guided or governed.

Along one line of thought or reasoning, I find myself coming to the conclusion that it is fatal. Again, it appears to me that the man that contests the election may select one, if he sees fit, and if it turns out, from an examination of the ballots that the contestant has more votes than that particular one, and it does not interfere with the other two who have not been made parties (the canvass of the ballots whether or not you want it so, necessarily involves a canvass as to all), that then he is entitled to be seated.

I cannot say at this time that I will be willing to dismiss these contests on that ground. I am not prepared to say that it is not fatal. I find myself rather inclined to the conclusion, however, that it is not. Feeling that way I would be reluctant to decide these contests upon that proposition.

Now, with regard to the first case that was considered by the committee, the case of *Watson v. Finley*, I find the petition so far as I can see, in that contest, or the notice, rather, as it is characterized in the statute—I find it to be sufficient, in my opinion, to cover the requirements of the statute. I believe it is sufficient unless the failure to make the other two parties, is fatal. As I say, I do not subscribe to that proposition. Otherwise it would seem to me that the notice presented by Mr. Watson is sufficient upon its face to present a *prima facie* case, and to entitle him to a further hearing. It seems that way to me. Feeling that way about it, so far as the minority report by myself is concerned, I should refuse to dismiss that contest. I base it solely upon the proposition that I stated.

In the next case considered by this committee, the contest of Mr. Callahan v. Mr. Michael Link, eliminating in this case the same question that I did at first, I find, as it seems to me, that while this notice or petition (whatever it may be called), has been inartificially drawn, as it seems to me, on some particulars, it seems to me that it does contain sufficient allegations to make out a *prima facie* case with one exception. There is an absolute and utter failure in the first paragraph of this petition, of this notice, to bring Mr. Callahan within the class of people specified in the statute who may bring contests.

Reading the language, "That I, the undersigned, James T. Callahan, being an elector and one of the regular nominees and having been regularly nominated and qualified, and my name," etc. Now, it does not state what Callahan is an elector of, whether of the 46th district or the 41st, or what county—anything. There is nothing there, rather, whereby, except by the most violent stretch of the imagination, that you can place Mr. Callahan in the class that is outlined and specified by the statute.

Were it not for that I should feel that the petition of Mr. Callahan was sufficient on its face to entitle him to a hearing further in this matter. I believe it is sufficient with that exception, eliminating the question in the first place as I have stated; but not having placed himself within that category, within the class specified by the statute, I should feel that this petition was insufficient. I agree with the members of the committee upon the dismissal of that contest but upon different grounds as I have stated.

Now, as to the contest of Martin against Zinger, I have read that petition over before leaving here and during the arguments of the case, with a great deal of care, for the purpose of endeavoring to reconcile myself, if I could, to the proposition that it was sufficient upon its face to make out a *prima facie* case. I did that in view of the earnest and certainly sincere representations of Senator Leeper that he was satisfied it was sufficient upon its face. I have tried to see it in that light if I could, but I cannot. It seems to me that that petition or notice is absolutely without meaning. It presents no *prima facie* case. There isn't anything on that page constituting a notice, that begins to state a *prima facie* case, or that does anything more than merely, with a little more verbiage, state that Martin has beaten Mr. Zinger, and I consider that far too general entirely upon which to base

a contest. There is no attempt at specifications of any kind, sort or description, and I agree with the other members of the committee in their judgment upon this contest but not upon the same grounds. In accordance with these views, as expressed in this minority report, it is my opinion that the contests of Callahan v. Link, and Martin v. Zinger, should be dismissed; and that the motion to dismiss the contest in the case of Watson v. Finley should be overruled and a further hearing had therein; and I accordingly make that finding herein."

LEE O'NEIL BROWNE,
Member of Committee.

Your committee would respectfully report that both of the above reports were duly considered by it and it was voted to lay the minority report upon the table and the majority report was adopted by the Election Committee.

Your committee would therefore respectfully recommend that the motions of the contestees in each of the three cases named, to dismiss the contests, be sustained and the contests be dismissed.

Your committee further reports that William E. Finley of the 48th district, Michael S. Link of the 47th district and Louis Zinger of the 30th district are duly elected members of the House of Representatives from said districts and that the said James A. Watson the contestant in the 48th district, James T. Callahan, the contestant in the 47th district, and Charles A. E. Martin, the contestant in the 30th district, were not elected as members of the House of Representatives in the 46th General Assembly from the districts named.

Respectfully submitted,

COMMITTEE ON ELECTIONS,
BY JOHN L. FLANNIGEN,
Chairman.

Mr. Welborn submitted the following as a substitute for the foregoing report, and moved its adoption:

To the Honorable, the Members of the House of Representatives of the Forty-sixth General Assembly of the State of Illinois:

We, the undersigned, being members of the Elections Committee of the House of Representatives of the State of Illinois, present to your honorable body, the following minority report, on the question of election contests of Watson v. Finley, Callahan v. Link and Martin v. Zinger, to-wit:

Finley, Callahan v. Link and Martin v. Zinger; and

WHEREAS, Thereafter, and after said Elections Committee as appointed as aforesaid, had met, organized and embarked on the transaction of business there was appointed, upon motion of one of the members of said Elections Committee by the chairman of said Elections Committee, a sub-committee of five members of said Elections Committee to consider, hear and report upon to said general Elections Committee, and whose duty it was to hear, consider and report upon, said three election contests so referred to said General Elections Committee as aforesaid, which said sub-committee so appointed as aforesaid consisted of Messrs. Lederer, as chairman, Cliffe, Browne, Scanlan and Poulton; and

D. 1909, said sub-committee having theretofore considered the papers and documents filed in each one of said contests and having theretofore heard arguments and discussions pro and con, in each one of said contests, by counsel upon both sides, upon motions to dismiss the contest filed in each one of the said contests, did, through and by the chairman of said sub-committee, Mr. Lederer, present a majority report, signed by Messrs. Lederer, Cliffe, Scanlan and Poulton, four of the members of the said sub-committee, recommending that each and every one of said three contests be dismissed; and

WHEREAS, On said 28th day of April, A. D. 1909, the fifth member of the said sub-committee, Lee O'Neil Browne, did then and there at said meeting of said Elections Committee present to said Elections Committee a minority report, signed by himself as a member of said sub-committee, which minority report is in the words and figures following to-wit:

STATE OF ILLINOIS,
 FORTY-SIXTH GENERAL } *House of Representatives.*

In the Matter of Election Contests—Sub-Committee to hear arguments.

Minority finding, by Hon. Lee O'Neil Browne, delivered orally Wednesday, April 21, 1909, at 3:00 o'clock P. M. at the meeting of the sub-committee, in the old Supreme Court chamber, Capitol, Springfield.

Rep. Browne.

As one of the members of this sub-committee, I find myself unable to agree with the other members of the committee on the general proposition upon which the majority report hinges and is based, namely, that a failure on the part of the contestant to make all the other members of the House in that particular district contestees, is fatal to the petition, or notice, and therefore fatal to the contest.

I find myself rather inclined to the conclusion, however, that it does not. Feeling that way I would be reluctant to decide these contests upon that proposition.

Now, with regard to the first case that was considered by this committee, the case of *Watson v. Finley*, I find the petition so far as I can see in that contest, or the notice, rather, as it is characterized in the statute,—I find it to be sufficient, in my opinion, to cover the requirements of the statute. I believe it is sufficient unless the failure to make the other two parties, is fatal. As I say, I do not subscribe to that proposition. Otherwise it would seem to me that the notice presented by Mr. Watson is sufficient upon its face to present a prima facie case, and to entitle him to a further hearing. It seems that way to me. Feeling that way about it, so far as the minority report by myself is concerned, I should refuse to dismiss that contest. I base it solely upon the proposition that I stated.

In the next case considered by this committee, the contest of Mr. Callahan v. Mr. Michael Link, eliminating in this case the same question that I did at first, I find as it seems to me, that while this notice or petition (whatever it may be called), has been inartificially drawn, as it seems to me, in some particulars, it seems to me that it does contain sufficient allegations to make out a prima facie case with one exception. There is an absolute and utter failure in the first paragraph of this petition, of this notice, to bring Mr. Callahan within the class of people specified in the statute who may bring contests.

Reading the language, "That I, the undersigned, James T. Callahan, being an elector and one of the regular nominees and having been regularly nominated and qualified, and my name," etc. Now, it does not state what Callahan is an elector of, whether of the 46th district, or the 41st, or what county—anything. There is nothing there, rather, whereby, except by the most violent stretch of the imagination, that you can place Mr. Callahan in the class that is outlined and specified by the statute.

Were it not for that I should feel that the petition of Mr. Callahan was sufficient on its face to entitle him to a hearing further in this matter. I believe it is sufficient with that exception, eliminating the question in the first place as I have stated; but not having placed himself within that category, within the class specified by the statute, I should feel that this petition was insufficient. I agree with the members of the committee upon the dismissal of that contest but upon different grounds, as I have stated.

Now as to the contest of Martin against Zinger. I have read that petition over before leaving here and during the arguments of the case, with a great deal of care, for the purpose of endeavoring to reconcile myself, if I could, to the proposition that it was sufficient upon its face to make out a prima facie case. I did that in view of the earnest and certainly sincere representations of Senator Leeper that he was satisfied it was sufficient upon its face. I have tried to see it in that light, if I could, but I cannot. It seems to me that the petition or notice is absolutely without meaning. It presents no prima facie case. There isn't anything on that page constituting a notice, that begins to state a prima facie case, or that does anything more than merely, with a little more verbiage, state that Mr. Martin has beaten Mr. Zinger, and I consider that far too general entirely upon which to base a contest. There is no attempt at specifications of any kind, sort or description, and I agree with the other members of the committee in their judgment upon this contest but not upon the same grounds. In accordance with these views, as expressed in this minority report, it is my opinion that the contests of Callahan v. Link, and Martin v. Zinger, should be dismissed; and that the motion to dismiss the contest in the case of Watson v. Finley should be overruled and a further hearing had therein.

The board shall make such other reports as the Governor may require.

(I) OFFICIAL VISITS.] Each State institution shall be visited at least once a quarter by a member of the board. Such visits shall be made on such days and at such hours of the day or night, and for such length of time, as the visiting member may choose. Where there is no complaint the board shall cause to be removed, as above, any patient who, upon visitation, is found to be abused, neglected or improperly cared for when boarded out in a family home. The board may permit any boarder temporarily to leave custody as an insane person in charge of his guardian, relatives, friends or by himself, for a period not exceeding one year, and may receive him again into such custody when returned by any such guardian, relative or friend or upon his own application, within such period, without any further order of commitment and may, during such temporary absence, assist in his maintenance to an amount not exceeding the rate paid for his board when boarded out in a family home by the board.
